Suite Venitienne Please Follow Me:

The Jean Baudrillard Reader Steve Redhead, 2008 Jean Baudrillard 1929 2007 was a controversial social and cultural theorist known for his trenchant analyses of media and technological communication Belonging to the generation of French thinkers that included Gilles Deleuze Jean Fran ois Lyotard Michel Foucault and Jacques Lacan Baudrillard has at times been vilified by his detractors but the influence of his work on critical thought and pop culture is impossible to deny many might recognize his name from The Matrix movies which claimed to be based on the French theorist s ideas Steve Redhead takes a fresh look at Baudrillard in relation to the intellectual and political climates in which he wrote Baudrillard sought to produce a theory of modernity but the modern world of the 1950s was radically different from the reality of the early twenty first century Beginning with Baudrillard s initial publications in the 1960s and concluding with his writings on 9 11 and Abu Ghraib Redhead guides the reader through Baudrillard s difficult texts and unorthodox views on current issues He also proposes an original theory of Baudrillard s relation to postmodernism presenting the theorist s work as non postmodernist after Bruno Latour s concept of non modernity Each section of the Reader includes an extract from one of Baudrillard s writings prefaced by a short bibliographical introduction that places the piece in context and puts the debate surrounding the theorist into sharp perspective The conflict over Baudrillard s legacy stems largely from the fact that a comprehensive selection of his writings has yet to be translated and collected into one volume The Jean Baudrillard Reader provides an expansive and much needed portrait of the critic s resonant work

Paul Auster's Writing Machine Evija Trofimova, 2014-08-28 Paul Auster is one of the most acclaimed figures in American literature Known primarily as a novelist Auster s films and various collaborations are now gaining more recognition Evija Trofimova offers a radically different approach to the author s wider body of work unpacking the fascinating web of relationships between his texts and presenting Auster s canon as a rhizomatic facto fictional network produced by a set of writing tools Exploring Auster s literal and figurative use of these tools the typewriter the cigarette the doppelg nger figure the city Evija Trofimova discovers Auster s writing machine a device that works both as a means to write and as a construct that manifests the emblematic writer figure This is a book about assembling texts and textual networks the writing machines that produce them and the ways such machines invest them with meaning Embarking on a scholarly quest that takes her from between the lines of Auster s work to between the streets of his beloved New York and finally to the man himself Paul Auster s Writing Machine becomes not just a critical investigation but a critical collaboration raising important questions about the ultimate meaning of Auster s work and about the relationship between texts their authors their readers and their critics

Jon McGee, Richard L. Warms, 2013-08-28 Social and cultural anthropology and archaeology are rich subjects with deep connections in the social and physical sciences Over the past 150 years the subject matter and different theoretical perspectives have expanded so greatly that no single individual can command all of it Consequently both advanced students and professionals may be confronted with theoretical positions and names of theorists with whom they are only partially familiar if they have heard of them at all Students in particular are likely to turn to the web to find quick background information on theorists and theories However most web based information is inaccurate and or lacks depth Students and professionals need a source to provide a quick overview of a particular theory and theorist with just the basics the who what where how and why if you will In response SAGE Reference plans to publish the two volume *Theory in Social and Cultural Anthropology An Encyclopedia Features Benefits* Two volumes containing approximately 335 signed
