Empire, Celebrity and Excess Martin Francis, 2022-09-22 While now long forgotten King Farouk of Egypt loomed large in British culture in the 1940s and 1950s Farouk was of interest and importance not just to British imperial policy makers but to a wider public that was exposed to his extravagant lifestyle and colourful private life through gossip columns comedy sketches cartoons song lyrics and novels This book explores how the narratives and representations of King Farouk found in British official and popular culture dramatized the retreat from empire the rise of celebrity journalism changing conceptions of masculinity and sexuality ambivalent attitudes towards monarchy postcolonial exile the growth of mass tourism and the post war transition from austerity to abundance By considering diplomatic history in tandem with histories of popular culture and celebrity Francis presents a more holistic understanding of British culture during the era of decolonization The varied cultural and social features of post war Britain and the reconstitution of British identity in the aftermath of empire sexual liberalization Americanization consumer affluence increased interaction with Europe new forms of mass leisure and the emergence of celebrity culture did not take place independently of the dismantling of imperial rule Studying Farouk therefore sheds new light on the multiple and complex ways in which Britain emerged as a postcolonial nation

Monarchy and Exile P. Mansel, T. Riotte, 2011-10-28 Using detailed studies of fifteen exiled royal figures the role of Exile in European Society and in the evolution of national cultures is examined From the Jacobite court to the exiled Kings of Hanover the book provides an alternative history of monarchical power from the 16th to 20th century

From the Sultan to Atatürk Andrew Mango, 2010-09-14 World War I sounded the death knell of empires The forces of disintegration affected several empires simultaneously To that extent they were impersonal But prudent statesmen could delay the death of empires rulers such as Emperor Franz Josef II of Austria Hungary and the Ottoman Sultan Abd lhamid II Adventurous rulers Kaiser Wilhelm of Germany and Enver Pasha in the Ottoman Empire hastened it Enver's decision to enter the war on the side of Germany destroyed the Ottoman state It may have been doomed in any case but he was the agent of its doom The last Sultan Mehmet VI Vahdettin thought he could salvage the Ottoman state in something like its old form But Vahdettin and his ministers could not succeed because the victorious Allies had decided on the final partition of the Ottoman state The chief proponent of partition was Lloyd George heir to the Turcophobe tradition of British liberals who fell under the spell of the Greek irredentist politician Venizelos With these two in the lead the Allies sought to impose partition on the Sultan's state When the Sultan sent his emissaries to the Paris peace conference they could not win a reprieve The Treaty of Sèvres which

the Sultan's government signed put an end to Ottoman independence. The Treaty of Sèvres was not ratified. Turkish nationalists with military officers in the lead defied the Allies who promptly broke ranks each one trying to win concessions for himself at the expense of the others. Mustafa Kemal emerged as the leader of the military resistance. Diplomacy allowed Mustafa Kemal to isolate his people's enemies: Greek and Armenian irredentists. Having done so he defeated them by force of arms. In effect the defeat of the Ottoman empire in the First World War was followed by the Turks' victory in two separate wars: a brief military campaign against the Armenians and a long one against the Greeks. Lausanne, where General Ismet succeeded in securing peace on Turkey's terms, was the founding charter of the modern Turkish nation state. But more than that it showed that empires could no longer rule peoples against their wishes. This need not be disastrous. Mustafa Kemal demonstrated that the interests of developed countries were compatible with those of developing ones. He fought the West in order to become like it. Where his domestic critics wanted to go on defying the West, Mustafa Kemal saw that his country could fare best in cooperation with the West.

Bountiful Empire Priscilla Mary Isin, 2025-02-12. This meticulously researched beautiful volume offers fresh and lively insight into an empire and cuisine that until recent decades has been too narrowly viewed through orientalist spectacles. The Ottoman Empire was one of the largest and longest lasting empires in history and one of the most culinarily inclined. In this powerful and complex concoction of politics, culture and cuisine, the production and consumption of food reflected the lives of the empire's citizens from sultans to soldiers. Food bound people of different classes and backgrounds together, defining identity and serving symbolic functions in the social, religious, political and military spheres. In *Bountiful Empire* Priscilla Mary Isin examines the changing meanings of the Ottoman Empire's foodways as they evolved over more than five centuries. It begins with the essential ingredients of this fascinating history, examining the earlier culinary traditions in which Ottoman cuisine was rooted, such as those of the Central Asian Turks, Abbasids, Seljuks and Byzantines. She goes on to explore the diverse aspects of this rich culinary culture, including etiquette, cooks, restaurants, military food, food laws and food trade. The book draws on everything from archival documents to poetry and features more than one hundred delectable illustrations.

Dressed to Rule Philip Mansel, 2005-01-01. Throughout history rulers have used clothes as a form of legitimization and propaganda. While palaces, pictures and jewels might reflect the choice of a monarch's predecessors or advisers, clothes reflected the preferences of the

monarch himself Being both personal and visible the right costume at the right time could transform and define a monarch's reputation Many royal leaders have known this from Louis XIV to Catherine the Great and from Napoleon I to Princess Diana This intriguing book explores how rulers have sought to control their image through their appearance Mansel shows how individual styles of dress throw light on the personalities of particular monarchs on their court system and on their ambitions The book looks also at the economics of the costume industry at patronage at the etiquette involved in mourning dress and at the act of dressing itself Fascinating glimpses into the lives of European monarchs and contemporary potentates reveal the intimate connection between power and the way it is packaged

The French Emigres in Europe and the Struggle against Revolution, 1789-1814 Philip Mansel, 1999-07-19 The French migrants in Europe and the Struggle against Revolution 1789-1814 underlines for the first time the achievements rather than the failures of the migrants Different specialist essays describe their impact from London to Hungary from Lisbon to Prussia and confirm their critical importance in the politics ideology and culture of their time The French migrants were more than refugees they were active and often remarkably successful agents on the European struggle against the French Revolution

Constantinople Philip Mansel, 2011-11-10 Philip Mansel's highly acclaimed history absorbingly charts the interaction between the vibrantly cosmopolitan capital of Constantinople the city of the world's desire and its ruling family In 1453 Mehmed the Conqueror entered Constantinople on a white horse beginning an Ottoman love affair with the city that lasted until 1924 when the last Caliph hurriedly left on the Orient Express For almost five centuries Constantinople with its enormous racial and cultural diversity was the centre of the dramatic and often depraved story of an extraordinary dynasty
