Prokofieff, 2004 It depends on the human being whether he merely conceives of anthroposophy or whether he experiences it Rudolf Steiner During the Christmas period of 1923-4 Rudolf Steiner refounded the Anthroposophical Society at its headquarters in Dornach Switzerland This important event which has come to be known as the Christmas Conference can be studied on many levels and its many mysteries have been central to Sergei O. Prokofieff's anthroposophical research over the years His beginning point has been an enduring question What did Rudolf Steiner mean when he called the Christmas Conference the start of a World Turning point of Time In this far reaching work the author working from several different viewpoints guides the reader

towards an answer Prokofieff suggests that the impulse of the Christmas Conference can only be reenlivened today through conscious action by individuals to experience its spiritual essence Rather than offering dogmatic conclusions he opens up paths of approaching this goal by throwing light on different aspects of the Conference and what lies at its heart the Foundation Stone and its Meditation In particular Prokofieff explores three key perspectives the connection of the Christmas Conference with humanity s evolution the inner relationship of each individual anthroposophist to the Christmas Conference and the significance of the Conference to Rudolf Steiner himself Although this is major work of some length the individual chapters of *May Human Beings Hear It* are complete in themselves and can therefore be studied independently of each other

The New Experience of the Supersensible Jesaiah Ben-Aharon,2007 According to Rudolf Steiner s spiritual science the greatest spiritual event of our time is the renewal and reawakening of our human suprasensory relationship to the higher spiritual worlds The force that leads to this development called by various names in different cultural and religious traditions is called the Christ impulse by Anthroposophy in accordance with Christian terminology Because of new naturally endowed suprasensory faculties human beings are increasingly able to experience and perceive through an act of grace the great spiritual force of the Christ impulse This experience is said to be a naturally given initiation and today we increasingly hear of such suprasensory experiences Today however a healthy approach to these natural phenomena requires us to comprehend suprasensory experiences with full awareness and clear thinking This book builds an all important bridge between the naturally given suprasensory experience and its conscious cognition As a result empirical suprasensory research can investigate the different aspects of Christ s etheric becoming and appearance in a way that both methodically and experientially fulfils the justified cognitive and scientific requirements of our age This new paperback edition adds a new introductory chapter

earnest study Rudolf Steiner translated from the Akashic Script valuable concepts of human and cosmic knowledge into words of earthly language content that is often not to be found in his later lectures Although working within the Theosophical Society Steiner was an independent spiritual teacher I would only bring forward the results of what I beheld in my own spiritual research The manifold exact and detailed descriptions of the events of evolution in these lectures form a background to the evolving figure of the human being The mighty event of the moon leaving the Earth vividly described took place according to Rudolf Steiner in order to provide an environment suited to human progress The wonderful moment when the higher being of man descended in a bell like form and enveloped the lower human body still on a level with the animals depicts what eventually provided human beings with a body suited to the development of the self or I Spiritual beings and the great initiates led humanity along the path it was destined to tread Rudolf Steiner presents a sweep of occult knowledge including the phases of planetary evolution various myths and symbols human physical and spiritual organs illness reincarnation and much more Also included are unexpected insights into specific phenomena such as dinosaurs bacteria radiation black and white magic the Sphinx and Freemasonry
