Stanton, Edward Ramsamy, Peter J. Seybolt, Carolyn M. Elliott, 2012-01-05 In our age of globalization and multiculturalism it has never been more important for Americans to understand and appreciate foreign cultures and how people live love and learn in areas of the world unfamiliar to most U S

students and the general public The four volumes in our cultural sociology reference encyclopedia take a step forward in this endeavor by presenting concise information on those regions likely to be most foreign to U S students the Middle East Asia and Africa The intent is to convey what daily life is like for people in these selected regions It is hoped entries within these volumes will aid readers in efforts to understand the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions

The Thinking Past Adrian Cole, Stephen Ortega, 2014-08-26 Changes in the 21st century classroom and recent shifts in academic pedagogy suggest that information for information sake is in the process of being phased out for a problem case based approach to learning Students now are being asked to learn material outside of the class so they can engage in active classroom discussion and participate in different group activities Not only content therefore but style in the classroom is changing fast the flipped classroom being ever more popular Part of the challenge for the world historian is figuring out how this type of pedagogy can be applied in a setting where the sage on the stage approach is being replaced by more interactive forms of learning Asked to regularly participate students are being asked not to memorize but how to think and how to evaluate the reliability of different sources of information Looking to build on interactive learning The Thinking Past is based on the premise that asking questions and evaluating sources represents a new and an insightful way of presenting material on world history While content on states such as the Songhay the Ming and the Aztecs and on nomadic people remains an important part of the work we believe that the classroom experience of debating different issues such as the origins of war and the nature of empire serves as a solid foundation for actually thinking about world history

Human Sacrifice and the Supernatural in African History Mbogoni, Lawrence E.Y., 2013-11-03 Since time immemorial human beings the world over have sought answers to the vexing questions of their origins sickness death and after death the meaning of natural phenomena such as earthquakes eclipses of the sun and moon birth of twins etc and how to protect themselves from such mysterious events They invented God and gods and the occult sciences witch craft divination and soothsaying in order to seek the protection of supernatural powers while individuals used them to gain power to dominate others and to accumulate wealth Human sacrifice was one way in which they sought to expiate the gods for what they believed were punishments for their transgressions One example the Ghana Asante Kingdom's very origins are associated with human sacrifice On the eve of war against Denkyira individuals volunteered themselves to be sacrificed in order to guarantee victory Later human sacrifice in Asante was mainly politically motivated as kings and religious leaders offered human sacrifice in remembrance of their ancestral spirits and to seek their protection against their enemies The Asante Kingdom is one of several examples included in this study of human sacrifice and ritual killing on the African continent Case studies include practices in Sierra Leone Tanzania Mainland Zanzibar Uganda and Swaziland Advertisements relating to the occult was a common feature of Drum magazine the popular South African magazine in Southern Eastern and Central Africa in late years of colonial and

early years of postcolonial periods indicating a wide belief in these practices among the people in these countries Each case examined is introduced by an expose of folklore that puts in perspective beliefs in the supernatural and how folklore continues to perpetuate them Through careful study of these select cases this book highlights general features of human sacrifice which recur with striking uniformity in all parts of sub Saharan Africa and why they persist until today He draws upon extensive written sources to expose these practices in other cultures including those in Western societies *Children and Youth in African History* SE Duff,2022-12-12 This textbook introduces readers to the academic scholarship on the history of childhood and youth in sub Saharan Africa with a particular focus on the colonial and postcolonial eras In a series of seven chapters it addresses key themes in the historical scholarship arguing that age serves as a useful category for historical analysis in African history Just as race class and gender can be used to understand how African societies have been structured over time so too age is a powerful tool for thinking about how power youth and seniority intersect and change over time This is then a work of synthesis rather than of new research based on primary sources This book will therefore introduce mainstream scholars of the history of childhood and youth to the literature on Africa and scholars of youth in Africa to debates within the wider field of the history of children and youth **Liptako Speaks** Paul Irwin,2014-07-14 Although historians today turn increasingly to oral tradition as a source of data on the history of non literate peoples Paul Irwin cautions them against uncritical use of such evidence In an attempt to determine how much historians can learn about the past from oral traditions he studies those of Liptako now a part of Upper Volta hut in the nineteenth century an emirate in one of West Africa s great imperial systems Originally published in 1981 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Africana Islamic Studies* James L.
