Sunjata A West African Epic Of The Mande Peoples:

Sunjata David C. Conrad, Djanka Tassej Condé, 2004-01-01 A pillar of the West African oral tradition for centuries this epic traces the adventures and achievements of the Mande hero Sunjata as he liberates his people from Sumaworo Kant the sorcerer king of Soso and establishes the great medieval empire of Mali David Conrad conveys the strong narrative thrust of the Sunjata epic in his presentation of substantial excerpts from his translation of a performance by Djanka Tassej Cond Readers approaching the epic for the first time will appreciate the translation s highly readable poetic English as well as Conrad s informative Introduction and notes Scholars will find the familiar heroes and heroines taking on new dimensions secondary characters gaining increased prominence and previously unknown figures emerging from obscurity Thanks to his careful editing and translating of Cond s narrative Conrad offers a highly readable version of the epic that is about a third of its original length The translation communicates not only the poetic qualities and the essential events of the Sunjata legend but also the master bard s performance values Thus this rendering will fascinate those who already know the story and culture and those coming to the epic for the first time Conrad provides an excellent introduction to Mande oral tradition the role of the griot and the Manding belief system Though he makes no claim for this as the complete scholarly edition he does provide helpful scholarly notes a glossary and a good bibliography Summing up Highly recommended L W Yoder CHOICE

Character, Narrator, and Simile in the Iliad Jonathan L. Ready, 2011-04-11 Jonathan L Ready offers the first comprehensive examination of Homer's similes in the Iliad as arenas of heroic competition This study concentrates primarily on similes spoken by Homeric characters The first to offer a sustained exploration of such similes Ready shows how characters are made to contest through and over simile not only with one another but also with the narrator Ready investigates the narrator's similes as well He demonstrates that Homer amplifies the feat of a successful warrior by providing a competitive orientation to sequences of similes used to describe battles He also offers a new interpretation of Homer's extended similes as a means for the poet to imagine his characters as competitors for his attention Throughout this study Ready makes innovative use of approaches from both Homeric studies and narratology that have not yet been applied to the analysis of Homer's similes

Years of Conflict Jason Hart, 2008 Recent years have witnessed a significant growth of interest in the consequences of political violence and displacement for the young However when speaking of children commentators have often taken the situation of those in early and middle

childhood as representative of all young people under eighteen years of age As a consequence the specific situation of adolescents negotiating the processes of transition towards social adulthood amidst conditions of violence and displacement is commonly overlooked Years of Conflict provides a much needed corrective Drawing upon perspectives from anthropology psychology and media studies as well as the insights of those involved in programmatic interventions it describes and analyses the experiences of older children facing the challenges of daily life in settings of conflict post conflict and refuge Several authors also reflect upon methodological issues in pursuing research with young people in such settings The accounts span the globe taking in Liberia Afghanistan South Africa Peru Jordan UK Western Europe Eastern Africa Iran USA and Colombia This book will be invaluable to those seeking a fuller understanding of conflict and displacement and its effects upon adolescents It will also be welcomed by practitioners concerned to develop more effective ways of providing support to this group

Rethinking Négritude through Léon-Gontran Damas F. Bart Miller, 2014-04-10 Rethinking Négritude through Léon-Gontran Damas analyses four cases in which Damasian Négritude shifted through generic experimentation Pigments 1937 Retour de Guyane 1938 Veilles noires 1943 and Black Label 1956 In doing so it also advances scholarship on Damas 1912-1978 in two ways On the one hand it undertakes the crucial and in depth research needed to challenge the understanding of Négritude as a bipartite Césaire and Senghor phenomenon On the other hand it offers an innovative reading of Damas whose work deserves more complete consideration than it has received thus far Reading this essay will illuminate Damas's works and their relationship to one another thus demonstrating the continuity of Damasian Négritude F. Alternative Iron Ages Brais X. Currás, Inés Sastre, 2019-09-09 Alternative Iron Ages examines Iron Age social formations that sit outside traditional paradigms developing methods for archaeological characterisation of alternative models of society In so doing it contributes to the debates concerning the construction and

resistance of inequality taking place in archaeology anthropology and sociology In recent years Iron Age research on Western Europe has moved towards new forms of understanding social structures Yet these alternative social organisations continue to be considered as basic human social formations which frequently imply marginality and primitivism In this context the grand narrative of the European Iron Age continues to be defined by cultural foci which hide the great regional variety in an artificially homogenous area This book challenges the traditional classical evolutionist narratives by exploring concepts such as non triangular societies heterarchy and segmentarity across regional case studies to test and propose alternative social models for Iron Age social formations Constructing new social theory both archaeologically based and supported by sociological and anthropological theory the book is perfect for those looking to examine and understand life in the European Iron Age We are so grateful to the research project titled Paisajes rurales antiguos del Noroeste peninsular formas de dominacion romana y explotacion de recursos Ancient rural landscapes in Northwestern Iberia Roman dominion and resource exploitation HAR2015 64632 P MINECO FEDER directed from the Instituto de Historia CSIC and also to the Fundacion para la Ciencia e la Tecnologia Foundation for Science and Technology postdoctoral project SFRH BPD 102407 2014

The Gambia and Its People Godfrey Mwakikagile, 2010 The author looks at The Gambia and its people and how this African country has been able to achieve cultural integration on a national level He also provides a comprehensive picture of the country's nation identity which is a fusion of the multiple identities of the various ethno cultural groups which collectively constitute the Gambian nation The work is a study of ethnic cultures and identities in the Gambian context whose relevance is continental in scope Ethnicity is the primary identity in most African countries It transcends national identity Understanding its role in the lives of most Africans also helps us to understand African countries with all their complexities which collectively define the continent In spite of its ethnic and cultural diversity The Gambia is one of the most united countries in Africa It is also one of the most peaceful enjoying harmonious relations among its various ethnic groups unlike many African countries where instability and civil strife caused by ethnic rivalries fuelled by unscrupulous politicians is the defining feature of national life The ability of the various ethnic groups in The Gambia to interact harmoniously has led to cultural integration on a scale unheard of in most African countries While it is true that different tribal cultures do exist in The Gambia it is equally true that there also exists a national culture which unites the country's various ethnic groups into a

cohesive whole transcending ethno regional loyalties As an ethnically diverse nation The Gambia is a microcosm of Africa a continent whose countries are characterised by ethnic and cultural diversity where rivalries along tribal and regional lines are the norm rather than the exception But The Gambia also is a good example of what many African countries have yet to be united with a solid national identity that has not been fractured or fragmented by ethnic conflicts Cultural integration on a national scale remains an elusive goal in most African countries But if there are a few countries on the continent which have achieved cultural integration The Gambia is one them It has in fact even achieved cultural fusion in some respects as we learn from this work which focuses on Africa s smallest country and its people The work is intended to be a general introduction and may help members of the general public learn some basic facts about The Gambia which because of its strategic location and other attributes has earned distinction as a gateway to West Africa People going to The Gambia may find this work to be useful Students in various academic fields may also benefit from the interdisciplinary approach taken by the author in his study of this African country It s comprehensive enough as an introductory work on the people of The Gambia and their ethnic identities and cultures

Griot Potters of the Folona Barbara E. Frank,2022-02-02 Griot Potters of the Folona reconstructs the past of a particular group of West African women potters using evidence found in their artistry and techniques The potters of the Folona region of southeastern Mali serve a diverse clientele and firing thousands of pots weekly during the height of the dry season Although they identify themselves as Mande the unique styles and types of objects the Folona women make and more importantly the way they form and fire them are fundamentally different from Mande potters to the north and west Through a brilliant comparative analysis of pottery production methods across the region especially how the pots are formed and the way the techniques are taught by mothers to daughters Barbara Frank concludes that the mothers of the potters of the Folona very likely came from the south and east marrying Mande griots West African leatherworkers who are better known as storytellers or musicians as they made their way south in search of clientele as early as the 14th or 15th century CE While the women may have nominally given up their mothers identities through marriage over the generations the potters preserved their maternal heritage through their technological style passing this knowledge on to their daughters and thus transforming the very nature of what it means to be a Mande griot This is a story of resilience and the continuity of

cultural heritage in the hands of women *Ethnic Diversity and Integration in The Gambia* Godfrey Mwakikagile, 2010 This work is a comprehensive look at The Gambia as a country and as a nation. Subjects covered include a general history of the country, its geography, regions and towns, and its people. It is also a profile of the country's demographic composition. The author looks at the different ethnic groups and their cultures and how they have been able to achieve unity in diversity in one of the most peaceful countries on the African continent. The work is also a study in regional integration with a focus on the Senegambia confederation. The author draws parallels between the short-lived Senegambia confederation and the union of Tanganyika and Zanzibar, shedding some light on some of the problems African countries face in their quest for unity. The collapse of the Senegambia confederation is in sharp contrast with the unity The Gambia has achieved within as a nation. One of Gambia's most outstanding features is ethnic and cultural integration in spite of the cultural and historical differences among the country's different ethnic groups. People going to The Gambia for the first time may find this work to be useful. It is not a tourist guide but an introductory work covering a wide range of subjects on Africa's smallest country. Members of the general public who want to learn about The Gambia will also find this work to be helpful. The author has also taken a scholarly approach on a number of subjects using well-documented sources in an analytical context and has provided useful insights into the complexities of the country across the spectrum, addressing a wide range of subjects including ethnicity, cultural fusion, and national integration. He also contends that understanding ethnicity as a phenomenon and as an analytical tool and a conceptual framework is critical to any study of African countries, most of which are multi-ethnic societies, and that the spatial theory of ethnicity is not applicable in all contexts, including Gambia, where the opposite of what the theory says is true. The work may therefore be useful to students and scholars who are interested in The Gambia. But it should be seen as a general work on The Gambia in spite of the academic approach the author has taken in his analysis of a number of subjects on this country, which is also known as a gateway to West Africa.
