Endings in the Cinema Michael Walker, 2020-03-13 This book offers a new way of thinking about film endings Whereas existing works on the subject concentrate on narrative resolution this book explores the way film endings blend together a complex of motifs tropes and other elements to create the sense of an ending that is it looks at endings as endings Drawing on a wide range of examples taken from films of different periods and national cinemas the author identifies three key features which structure the work thresholds and boundaries water and above all the beach The beach combines water and a boundary and is the most resonant of the key sites to which film endings gravitate Although beach endings go back to at least 1910 they have increased markedly in post classical

cinema and can be found across all genres and in films from many different countries As the leading example of the book s argument they illustrate both the aesthetic richness and the structural complexity of film endings **Harper's Weekly** John Bonner,George William Curtis,Henry Mills Alden,Samuel Stillman Conant,Montgomery Schuyler,John Foord,Richard Harding Davis,Carl Schurz,Henry Loomis Nelson,John Kendrick Bangs,George Brinton McClellan Harvey,Norman Hapgood,1863
