The Specular Moment David E. Wellbery,1996 No study of Goethe s early lyric poetry has been published in English in the last fifty years But the reading of this poetry the author presents is not intended merely to introduce an English readership to a major body of work rather the book delineates for the first time in any language an account of the symbolic network or organizing myth that underlies Goethe s individual poems This marks a decisive break with the previous research on Goethe which has tended to view his poetry as the expression of occasional experiences The author shows on the contrary that Goethe s lyric work circles around a core set of problems and figures that it evinces a systematic coherence unperceived until now The last vials: being a series of essays upon the subject of the second advent. Publ. separately in the year 1846. By a clergyman [R.A. Purdon]. 10th ser.; 17th year, no.1-28th year, no.4 Robert A.
