Mother-headed Families and Why They Have Increased Ailsa Burns, Cath Scott, Catherine Scott, 2013-06-17 The last

two decades have seen a dramatic growth in the proportion of families headed by women. Most of these families are poor and include dependent children causing the development of a large underprivileged class across the western world. This book explores the causes and implications of this development. Because the increase in mother-headed families is an international trend, an international perspective has been adopted. The discussion centers on selected countries where certain trends are most visible. Among the western nations, particular attention is given to the United States, Sweden, and the former U.S.S.R. because of their high prevalence of mother-headed families, and trends in some countries with a middling prevalence are also discussed. Japan is included because of its combination of advanced industrialization with a non-western tradition and a low incidence of mother-headed families. Accordingly, the book considers broad supranational influences and proposes some explanations that draw on material from history, anthropology, sociology, psychology, women's studies, economics, literature, and religious studies. The authors present definitive information on the incidence of mother-headed families across historical epochs and culture groups. This includes an exploration of the conditions under which such families have been many or few and have been treated well or poorly by their communities. They also offer some theoretical explanations for the increasing frequency of this family form and consider whether these interpretations fit the facts that have been gathered. Finally, there is a detailed discussion revealing what these explanations may imply for the future, that is, whether the number of mother-headed families is likely to increase, stabilize, or decrease.

So read and enjoy. *Masculinity in Contemporary New York Fiction* Peter Ferry, 2014-08-21 *Masculinity in Contemporary New York Fiction* is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction. This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter-hegemonic narratives. Gendering canonical New York writers, namely Paul Auster, Bret Easton Ellis, and Don DeLillo, illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning. The themes that feature in this study include the role of the novel in American society, the individual and urban society, the journey from innocence to awareness of masculinity, the archetypal image of the absent and/or patriarchal father, the impact of homosocial relations on the everyday performance of masculinity, male sexuality, and the male individual and globalization. What connects these contemporary New

York writers is their employment of the one of the great figures in the history of literature the fl neur These authors take the fl neur from the shadows of the Manhattan streets and elevate this figure to the role of self reflexive agent of male subjectivity through which they write counter hegemonic narratives of masculinity This book is an essential reference for those with an interest in gender studies and contemporary American fiction **Social Conceptions of Time** G. Crow,S. Heath,2002-08-05 This book is concerned with the significance of time in work and everyday life The contributors are among the foremost authorities in the field and their up to date contributions consider the changing social meanings that time has in work leisure and everyday routines Together they provide a combination of theoretical and empirically based approaches that reveal the social significance of time in all aspects of everyday lives
