

THE *Breast Reconstruction* GUIDEBOOK

*Issues and Answers
from Research to Recovery*

Kathy Steligo

"At last, a thorough, accurate, and up-to-date book on breast reconstruction. It's long overdue for women facing the confusing choices after mastectomy."

— **Dean Edell, M.D.**

The Breast Reconstruction Guidebook Issues And Answers From Research To Recovery

S Marginson

The Breast Reconstruction Guidebook Issues And Answers From Research To Recovery:

The Breast Reconstruction Guidebook Kathy Steligo, 2012-11-01 This guide helps women decide whether to have a breast reconstruction procedure after mastectomy and if so which one. For a decade *The Breast Reconstruction Guidebook* has been the best resource on this topic for women who have had a mastectomy. Equal parts science and support, it is filled with stories that illustrate the emotional and physical components of breast reconstruction. Readers will find advice about choosing a doctor and a procedure, insurance and payment issues, how to prepare for surgery and what to expect during recovery. Expert commentary by physicians and insights from patients inform this book as does the exhaustive research by the author, a two-time breast cancer survivor who has twice had reconstructive surgery. New in this edition are discussions of the pros and cons of saline and silicone implants, solutions for post-lumpectomy cosmetic problems, new immediate delayed reconstruction when post-mastectomy radiation may be required, the benefits and limitations of nipple-sparing mastectomy, considerations for direct-to-implant reconstruction, newly developed tissue flap procedures, who can best apply nipple and areola tattoos and why tattoos may not last, enriching fat with stem cells so it stays in the breast, patient-controlled tissue expansion, how insurance and health care reform affect reconstruction.

The Breast Reconstruction Guidebook Kathy Steligo, 2017-08 The definitive guide to breast reconstruction. Since 2002 *The Breast Reconstruction Guidebook* has been the best resource on this topic for women who have had a mastectomy. Equal parts science and support, it is filled with stories that illustrate the emotional and physical components of breast reconstruction. Kathy Steligo, a gifted writer and breast cancer survivor who has twice had breast reconstruction, compassionately answers women's questions about how they will respond emotionally and physically to losing a breast, whether to treat or prevent breast cancer. Steligo provides detailed descriptions of the various surgical options for mastectomy and reconstruction, as well as information on choosing and paying for a surgeon, preparing for and recovering from surgery, and handling the many practical details and difficult decisions women will face along the way. A road map of the mastectomy and reconstruction journey, this book gives women the comprehensive, unbiased details they need to make their own informed decisions about whether reconstruction and which reconstructive option is right for them. Readers learn how breasts can be recreated using implants or their own tissue and the advantages and disadvantages of each option. Surgery timelines, recovery, and potential problems and how they can be resolved are also explained. A new foreword by Dr. Minas Chrysopoulos, MD, of the PRMA Plastic Surgery Center for Advanced Breast Reconstruction, highlights the book's strengths and offers a medical perspective on breast cancer and reconstructive surgery. The extensively updated text includes new discussions of innovative reconstructive procedures: contralateral mastectomy, the benefits and limitations of nipple and areola-sparing mastectomies, nipple delay procedure, patient-controlled tissue expansion, cohesive gel silicone implants, microsurgical advances that improve tissue flap procedures, fat grafting, nipple reconstruction, nipple and areola tattooing, reconstruction with the BRAVA system, pregnancy after TRAM, male mastectomy and reconstruction decision.

making and solving cosmetic and medical post op problems surgical procedures that reduce the risk of cancer the latest research data on mastectomy and reconstruction and much more

Living with Breast Cancer Jennifer A. Shin,David P. Ryan,Vicki A. Jackson,2022-09-20 Your complete resource for handling the physical and emotional effects of breast cancer treatments At the time of diagnosis breast cancer patients are faced with many overwhelming decisions about possible treatments Living with Breast Cancer provides you with an overview of what to expect from testing and treatment which cancer specialists you may need to see and common terms to use to help communicate your needs to your team This empathetic resource full of relatable stories teaches patients and caregivers how to ask the right questions to get the best possible care The authors explain how to minimize the symptoms and side effects of treatment and outline coping strategies to deal with the stress of breast cancer treatment including the changes in your body from cancer and its therapies The book helps readers make sense of their diagnosis set goals and prepare for treatment understand the different types of therapies tests and scans manage the symptoms and side effects of treatment such as nausea fatigue shortness of breath weight fluctuations and depression learn what medications and lifestyle modifications can help with symptoms live and cope with progressive cancer Living with Breast Cancer is your definitive resource for handling the physical and emotional effects of breast cancer and treatment

Reimagining Women's Cancers Michele Berman,Mark Boguski,David Tabatsky,2016-09-27 America s fascination with celebrities never gets old From People magazine with a readership of 43 million to Internet sites like JustJared com with over 80 million monthly views celebrity information not only sells it educates people about important issues including cancer Information is empowering and reading about a famous person coping with cancer can not only be inspiring it can save a life That s what Reimagining Cancer exemplifies through each of the books in the series Cancer doesn t have to be a death sentence About half of all cancers are preventable and can be avoided if current medical knowledge is better delivered This new series beginning with Reimagining Women s Cancers focusing on cancer of the breasts ovaries uterus cervix vagina and vulva provides readers with that critical information to help them manage cope and recover through a concise easy to read style and format Beginning with a view of basic anatomy and an overview of how we view a particular cancer today chapters flow easily into an explanation of signs symptoms diagnosis scientific information and guidelines and include a comprehensive survey of treatments and prevention Woven throughout are stories both medical and anecdotal from women such as Angelina Jolie Joan Lunden Melissa Etheridge Sandra Lee Rita Wilson Christina Applegate and Suzanne Somers Education is the key and by using celebrity stories Reimagining Women s Cancers can attract countless readers who might otherwise not pay attention to an epidemic that is likely to affect them or a loved one The recent World Cancer Report from the World Health Organization

Breast Cancer Elaine Embrey,2009 On the morning of surgery Ron came into the bathroom as I was getting dressed took one look at me and knew that this was a difficult time for me seeing my red eyes from crying so hard Without saying a word he took me into his arms and held me close as we both burst into tears I felt his body

shaking as I m sure he felt mine We just stood there sobbing and holding each other We both needed that We had been strong for each other long enough Now it was time to let it all out It was so cleansing I thank God for that moment and for a man who loves me enough to cry with me at a time like this Travel the path with a breast cancer patient and her husband as they take this courageous journey together Elaine Embrey R N gives an informative and detailed account from diagnosis through reconstruction and all the unexpected bumps in between Elaine has the unique ability to take today s confusing medical terms and procedures and explain them clearly enough for anyone to understand This book a must have for all who are looking for real answers on how to stand victorious through this challenge Elaine s husband Ron also shares his perspective in a heart tugging fashion which will help all friends and family members relate to a loved one in this situation Elaine Embrey is a retired Registered Nurse who survived breast cancer and now lives with her husband Ron in Bay City Michigan While going through her journey she grew in character and in her faith She now feels compelled to share her story and everything she has learned along the way in the hopes of helping others who have to travel this same path
