Buchanan, W. L. George Collins, 2004-11-29 This story is taken from notes Austin Buck Buchanan wrote in notebooks he carried in his pocket all during World War II Buck is no longer with us W L George Collins edited and compiled Bucks notes into a manuscript that became this book Here you will ride with Buck as he flies his plane through a field of fire so intense that one shell blows a hole in the plane big enough for a man to go through and uncountable bullet holes perforated the plane All aircraft controls are shot out except elevator and ailerons You will ride with him as he manages to complete his mission and bring his barely flying plane back to England And you will ride with him through hundreds more such harrowing trips in his C 47 with no armor plate and no guns into other fields of fire and often impossible weather W L George Collins was a pilot in the same Troop Carrier Group as Buck His writings have been published in the United States Europe and the Middle East He was awarded the George Washington Honor Medal by Freedoms Foundation at Valley Forge among other writing awards      [The Worst Military Leaders in History](#) John M. Jennings, Chuck Steele, 2023-06-24 Spanning countries and centuries a how not to guide to leadership that reveals the most maladroit military commanders in history now in paperback For this book fifteen distinguished historians were given a deceptively simple task identify their choice for the worst military leader in history and then explain why theirs is the worst From the clueless Conrad von H tzendorf and George A Custer to the criminal Baron Roman F von Ungern Sternberg and the bungling Garnet Wolseley this book presents a rogues gallery of military

incompetents Rather than merely rehashing biographical details the contributors take an original and unconventional look at military leadership in a way that appeals to both specialists and general readers alike While there are plenty of books that analyze the keys to success The Worst Military Leaders in History offers lessons of failure to avoid In other words this book is a how not to guide to leadership

The Army Air Forces in World War II: Plans and early operations, January 1939 to August 1942 ,1948

The Fate of the Generals Jonathan Horn,2025-04-15 One of the very best World War II books in many years A great read General David Petraeus US Army Ret former Director of the CIA Fans of Unbroken will love this book Doug Stanton In the tradition of Ghost Soldiers a riveting The Wall Street Journal World War II story of bravery survival and sacrifice the vow Douglas MacArthur made to return to the Philippines and the oath his fellow general Jonathan Mayhew Wainwright made to stay with his men there whatever the cost For the doomed stand American forces made in the Philippines at the start of World War II two generals received their country s highest military award the Medal of Honor One was the charismatic and controversial Douglas MacArthur whose orders forced him to leave his soldiers on the islands to starvation and surrender but whose vow to return echoed around the globe The other was the gritty Jonathan Mayhew Wainwright who became a hero to the troops whose fate he insisted on sharing even when it meant becoming the highest ranking American prisoner of the Japanese In The Fate of the Generals bestselling author Jonathan Horn brings together the story of two men who received the same medal but found honor on very different paths MacArthur s journey would require a daring escape with his wife and young child to Australia and then years of fighting over thousands of miles to make it back to the Philippines where he would fulfill his famous vow only to see the city he called home burn Wainwright s journey would take him from the Philippines to Taiwan and Manchuria as his captors tortured him in prisons and left him to wonder whether his countrymen would ever understand the choice he had made to surrender for the sake of his men A story of war made personal based on meticulous research into diaries and letters including boxes of previously unexplored papers The Fate of the Generals is a vivid account that raises timely questions about how we define honor and how we choose our heroes and is destined to become a classic of World War II history

Fortress Against The Sun Gene E. Salecker,E Salecker,2007-10-09 Most often remembered for its role in the air war against Germany no book has ever before been devoted to the B 17 s Pacific operations The author combines technical and operational detail with eyewitness accounts by crews and commanders to present a fascinating account of a famous aircraft at war

**Most Honorable Son** Gregg Jones,2024-07-23 The first comprehensive biography of unjustly forgotten war hero Ben Kuroki a Japanese American farm boy from Nebraska who flew fifty eight combat missions fighting the Axis Powers during World War II and battled racism injustice and prejudice on the home front Foreword by Naomi Ostwald Kawamura of Densho Introduction by William Fujioka of JANM Afterword by Jonathan Eig Ben Kuroki was a twenty four year old Japanese American farm boy whose heritage was never a problem in remote Nebraska until Pearl Harbor Among the millions of Americans who flocked to military stations to

enlist Ben wanted to avenge the attack reclaim his family honor and prove his patriotism But as anti Japanese sentiment soared Ben had to fight to be allowed to fight for America And fight he did As a gunner on Army Air Forces bombers Ben flew fifty eight missions spanning three combat theaters Europe North Africa and the Pacific including the climactic B 29 firebombing campaign against Japan that culminated with the atomic bombing of Hiroshima and Nagasaki He flew some of the war s boldest and bloodiest air missions and lived to tell about it In between his tours in Europe and the Pacific he challenged FDR s shameful incarceration of more than one hundred thousand people of Japanese ancestry in America and he would be credited by some with setting in motion the debate that reversed a grave national dishonor In the euphoric wake of America s victory the decorated war hero used his national platform to carry out what he called his fifty ninth mission urging his fellow Americans to do more to eliminate bigotry and racism at home Told in full for the first time and long overdue Ben s extraordinary story is a quintessentially American one of patriotism principle perseverance and courage It s about being in the vanguard of history the bonding of a band of brothers united in a just cause a timeless and unflinching account of racial bigotry and one man s transcendent sense of belonging in war in peace abroad and at home

**The Origins of the Grand Alliance** William T. Johnsen, 2016-09-13 This uncommonly astute study examines the early development of the US UK military alliance that would eventually lead to victory in WWII Paul Miles author of FDR s Admiral On December 12 1937 Japanese aircraft sank the American gunboat Panay outside Nanjing China Although the Japanese apologized President Roosevelt set Captain Royal Ingersoll to London to begin conversations with the British admiralty about Japanese aggression in the Far East While few Americans remember the Panay Incident it was the start of what would become the Special Relationship between the United States and Great Britain In *The Origins of the Grand Alliance* William T. Johnsen provides the first comprehensive analysis of Anglo American military collaboration before the Second World War He sets the stage by examining Anglo French and Anglo American coalition military planning from 1900 through World War I and the interwar years Johnsen also considers the formulation of policy and grand strategy operational planning and the creation of the command structure and channels of communication He addresses vitally important logistical and materiel issues particularly the difficulties of war production Drawn from extensive sources and private papers held in the United Kingdom Canada and the United States Johnsen s exhaustively researched study casts new light on the twentieth century s most significant alliance

December 8, 1941 William H. Bartsch, 2012-08-13 Ten hours after the attack on Pearl Harbor another Pearl Harbor of even more devastating consequence for American arms occurred in the Philippines 4 500 miles to the west On December 8 1941 at 12 35 p m 196 Japanese Navy bombers and fighters crippled the largest force of B 17 four engine bombers outside the United States and also decimated their protective P 40 interceptors The sudden blow allowed the Japanese to rule the skies over the Philippines removing the only effective barrier that stood between them and their conquest of Southeast Asia This event has been called one of the blackest days in American military history How could the

army commander in the Philippines the renowned Lt Gen Douglas MacArthur have been caught with all his planes on the ground when he had been alerted in the small hours of that morning of the Pearl Harbor attack and warned of the likelihood of a Japanese strike on his forces In this book author William H Bartsch attempts to answer this and other related questions Bartsch draws upon twenty five years of research into American and Japanese records and interviews with many of the participants themselves particularly survivors of the actual attack on Clark and Iba air bases The dramatic and detailed coverage of the attack is preceded by an account of the hurried American build up of air power in the Philippines after July 1941 and of Japanese planning and preparations for this opening assault of its Southern Operations Bartsch juxtaposes the experiences of staff of the U S War Department in Washington and its Far East Air Force bomber fighter and radar personnel in the Philippines who were affected by its decisions with those of Japan s Imperial General Headquarters in Tokyo and the 11th Air Fleet staff and pilots on Formosa who were assigned the responsibility for carrying out the attack on the Philippines five hundred miles to the south In order to put the December 8th attack in broader context Bartsch details micro level personal experiences and presents the political and strategic aspects of American and Japanese planning for a war in the Pacific Despite the significance of this subject matter it has never before been given full book length treatment This book represents the culmination of decades long efforts of the author to fill this historical gap

**Proposed Airborne Assaults in the Liberation of Europe** James Daly, 2024-10-30 The bitter fighting in the so called Falaise Argentan Pocket in August 1944 during which the Allies encircled and destroyed a substantial part of Hitler s forces in northern France following the D Day landings marked the last major battle of the Normandy campaign Despite this tens of thousands of German soldiers managed to escape through the infamous Falaise Gap It was as the Allies continued to pursue the retreating enemy forces that the planners considered or drew up a number of further airborne operations As James Daly reveals three operations namely Lucky Strike Transfigure and Axehead might well have been part of the last of the fighting in the breakout from Normandy itself The first of these Lucky Strike was intended to see General Montgomery s 21st Army Group strike to the north east in the direction of the River Seine where bridges near Rouen were to be taken by the British 1st Airborne Division Transfigure was to be a major operation with the aim of using the First Allied Airborne Army against the French road network with the object of cutting the German lines of retreat across the Seine Axehead meanwhile was a plan to establish an air head on the eastern bank of the Seine In this assault the British 1st Airborne Division along with infantry Sherman DD amphibious tanks and specialised engineers would establish crossings of the Dives Touques Risle and Seine rivers As the Allies advanced further east into the Low Countries further Allied airborne assaults were suggested In Operation Linnet for example airborne forces were to capture and hold Tournai on the Escaut river in the western part of German occupied Belgium In the event they were all cancelled usually as the Allied forces reached the intended dropping zones before the airborne forces could take off In particular several of these operations bear very strong resemblance to elements of the

Market Garden plan and show early signs of the mistakes Operation Comet for example included a glider coup de main for the bridges at Arnhem Nijmegen and Grave why did this disappear for Market Garden These operations and their planning show that far from being an operation that went wrong in September 1944 the flaws in the Arnhem plan were evident much earlier They also show that divisions between the Allies emerged much earlier and ran much deeper than originally thought

**Four Hours of Fury** James M. Fenelon,2020-05-12 Compellingly chronicles one of the least studied great episodes of World War II with power and authority A riveting read Donald L Miller New York Times bestselling author of Masters of the Air about World War II s largest airborne operation one that dropped 17 000 Allied paratroopers deep into the heart of Nazi Germany On the morning of March 24 1945 more than two thousand Allied aircraft droned through a cloudless sky toward Germany Escorted by swarms of darting fighters the armada of transport planes carried 17 000 troops to be dropped via parachute and glider on the far banks of the Rhine River Four hours later after what was the war s largest airdrop all major objectives had been seized The invasion smashed Germany s last line of defense and gutted Hitler s war machine the war in Europe ended less than two months later Four Hours of Fury follows the 17th Airborne Division as they prepare for Operation Varsity a campaign that would rival Normandy in scale and become one of the most successful and important of the war Even as the Third Reich began to implode it was vital for Allied troops to have direct access into Germany to guarantee victory the 17th Airborne secured that bridgehead over the River Rhine And yet their story has until now been relegated to history s footnotes In this viscerally exciting account paratrooper turned historian James Fenelon details every aspect of the American 17th Airborne Division s role in Operation Varsity inspired The Wall Street Journal Reminiscent of A Bridge Too Far and Masters of the Air Four Hours of Fury does for the 17th Airborne what Band of Brothers did for the 101st It is a captivating action packed tale of heroism and triumph spotlighting one of World War II s most under chronicled and dangerous operations

**Eisenhower** Carlo D'Este,2015-11-24 The acclaimed biographer presents an intimate and comprehensive portrait of the legendary president and WWII general An excellent book The Washington Post Book World Born into hardscrabble poverty in rural Kansas the son of stern pacifists Dwight David Eisenhower graduated from high school more likely to teach history than to make it Yet he went on to become one of America s most important military leaders Then on the wings of victory the career soldier ascended to the nation s highest political office Casting new light on this profound evolution Carlo D Este chronicles the unlikely dramatic rise of the supreme Allied commander With full access to private papers and letters D Este has exposed for the first time the countless myths that have surrounded Eisenhower and his family for over fifty years In this revealing biography he identifies the complex and contradictory character behind Ike s famous grin and air of calm self assurance
