THE DAY I PUNCHED JOHN J. MCGRAW

"He only suspended me once, for two weeks. It was on account of I socked him.

"Well, I didn't really sock him. It was more of a push. I pushed him, sort of, and he fell down the dugout steps. Well, maybe it was a sock at that. I'm not sure now. After all, it took place about 60 years ago.

"What happened was that I missed a sign. It wasn't my fault, it really wasn't. When I got back to the dugout he called me a lot of names and so I hit him. He suspended me for two weeks without pay, but once it was over he forgot about it completely. Never mentioned it again. He was a fighter, but he was also the kindest, best-hearted fellow you ever saw. I liked him and I liked playing for him.

"The reason McGraw was a great manager—and he was the greatest—was because he knew how to handle men. Some players he rode, and others he didn't. He got the most out of each man. It wasn't so much knowing baseball. All of them know that. What makes the difference is knowing each player and how to handle him."

Vander Stoep, 1992 *The Idea of the Vernacular* Jocelyn Wogan-Browne, Ian Richard Johnson, 1999 This pioneering anthology of Middle English prologues and other excerpts from texts written between 1280 and 1520 is one of the largest collections of vernacular literary theory from the Middle Ages yet published and the first to focus attention on English literary theory before the sixteenth century It edits introduces and glosses some sixty excerpts all of which reflect on the problems and opportunities associated with writing in the mother tongue during a period of revolutionary change for the English language The excerpts fall into three groups illustrating the strategies used by medieval writers to establish their cultural authority the ways they constructed audiences and readerships and the models they offered for the process of reading Taken together the excerpts show how vernacular texts reflected and contributed to the formation of class gender professional and national identity They open windows onto late medieval debates on women s and popular literacy on the use

of the vernacular for religious instruction or Bible translation on the complex metaphorical associations contained within the idea of the vernacular and on the cultural and political role of the courtly writing associated with Chaucer and his successors Besides the excerpts the book contains five essays that propose new definitions of medieval literary theory discuss the politics of Middle English writing the relation of medieval book production to notions of authorship and the status of the prologue as a genre and compare the role of the medieval vernacular to that of postcolonial literatures The book includes a substantial glossary that constitutes the first mapping of the language and terms of Middle English literary theory The Idea of the Vernacular will be an invaluable asset not only to Middle English survey courses but to courses in English literary and cultural history and courses on the history of literary theory

Liebherr, Elwood C. Zimmerman, 2001-01-01 This work establishes the means to identify the nearly 130 species of Hawaiian carabid beetles of the tribe Platynini which constitutes a monophyletic radiation The native Hawaiian platynines represent almost half of the carabid fauna and this volume is the first of three intended books that will taxonomically treat all of the native and introduced carabid species found in the Hawaiian Islands In addition to presenting

identification keys diagnostic characters habitus photos and distribution maps for Hawaiian Platynini an introductory section details the history of carabid beetle study in Hawaii and provides a key to the tribes of native and introduced Hawaiian Carabidae
