Kennedy,2013-01-11 This volume charts how the national strategic needs of the United States of America and Great Britain created a parallel but not joint relationship towards the Far East as the crisis in that region evolved from 1933-39. In short it is a look at the relationship shared between the two nations with respect to accommodating one another on certain strategic and diplomatic issues so that they could become more confident of one another in any potential showdowns with Japan.

**The British Pacific Fleet** David Hobbs,2020-01-31 Magnificent and important should be on the shelves of anyone with a genuine interest in the history of the Royal Navy in the Second World War. *Military History Monthly* In August 1944 the British Pacific Fleet did not exist. Six months later it was strong enough to launch air attacks on Japanese territory and by the end of the war it constituted the most powerful force in the history of the Royal Navy fighting as professional equals alongside the US Navy in the thick of the action. How this was achieved by a nation nearing exhaustion after five years of conflict is a story of epic proportions in which ingenuity, diplomacy and dogged persistence all played a part. As much a political as a technical triumph, the BPF was uniquely complex in its make-up. Its C-in-C was responsible to the Admiralty for the general direction of his Fleet, took operational orders from the American Admiral Nimitz, answered to the Government of Australia for the construction and maintenance of a vast base infrastructure and to other Commonwealth Governments for the ships and men that formed his fully integrated multi-national fleet. This ground-breaking new work by David Hobbs describes the background, creation and expansion of the BPF from its first tentative strikes through operations off the coast of Japan to its impact on the immediate post-war period, including the opinions of USN liaison officers attached to the British flagships. The book is the first to demonstrate the real scope and scale of the BPF's impressive achievement. Perhaps the greatest Royal Navy story of at least the twentieth century. *Aircrew Book Review*      **The British Occupation of Indonesia: 1945-1946** Richard McMillan,2006-05-17 Original and critical scholarship with a high standard of writing, crisp and measured. Relevant to a wide range of undergraduate courses in history. This book revises history and presents new ideas on the British official interpretation of post-war events in Southeast Asia, the condemnation of British policy by many Dutch scholars and the ideas popularly held in Indonesia and by those sympathetic to the nationalist cause that Britain was playing a Dutch game.      British Naval Strategy East of Suez, 1900-2000 Greg Kennedy,2004-11-18 Britain's strategic position east of Suez in the twentieth century was a dominant area of interest and had an enormous impact in the overall construction of Great Britain's naval strategic posture.      **The Peoples and Politics of the Far East** Henry Norman,2017-11-20 Excerpt from *The Peoples and Politics of the Far East* Travels and Studies in the British, French, Spanish and Portuguese Colonies.

**The Origins of the Grand Alliance** William T. Johnsen, 2016-09-13 On December 12 1937 Japanese aircraft sank the American gunboat Panay which was anchored in the Yangtze River outside Nanjing China Although the Japanese apologized the attack turned American public opinion against Japan and President Roosevelt dispatched Captain Royal Ingersoll to London to begin conversations with the British admiralty about Japanese aggression in the Far East While few Americans remember the Panay Incident it established the first links in the chain of Anglo American military collaboration that eventually triumphed in World War II In *The Origins of the Grand Alliance* William T Johnsen provides the first comprehensive analysis of military collaboration between the United States and Great Britain before the Second World War He sets the stage by examining Anglo French and Anglo American coalition military planning from 1900 through World War I and the interwar years Johnsen also considers the formulation of policy and grand strategy operational planning and the creation of the command structure and channels of communication He addresses vitally important logistical and materiel issues particularly the difficulties of war production Military conflicts in the early twenty first century continue to underscore the increasing importance of coalition warfare for historian and soldier alike Drawn from extensive sources and private papers held in the United Kingdom Canada and the United States Johnsen's exhaustively researched study refutes the idea that America was the naive junior partner in the coalition and casts new light on the US UK special relationship

**The British Pacific Fleet Experience and Legacy, 1944-50** Jon Robb-Webb, 2016-03-16 The British Pacific Fleet was formed in October 1944 and dispatched to fight alongside the USN in the Central Pacific under Admiral Nimitz Deploying previously unpublished documents this book reveals how relations between the UK and US forces developed from a starting point of barely repressed suspicion to one where both navies came to understand each other and eventually find a remarkable bond Born out of a shared experience of Kamikaze attacks extended operations against bitterly hostile shores the pooling of knowledge and experience the two navies underpinned the diplomatic moves in both Washington and London The book carries the legacy of this experience through to

the next Anglo American participation in war Korea It illustrates and explains how and why certain lessons were incorporated into the composition behaviour and structure of the post war Navy It demonstrates the significance of what was learned from the USN by the RN and by USN from the RN As well as examining the background to the largest fleet the Royal Navy ever put to sea the book also charts its effects on Anglo American relations multinational operations alliance building and the ways naval forces are shaped by and in turn shape politics It addresses a period of rapid technological development that witnessed profound changes in the international system and which raised fundamental questions of what navies were for and how should they operate and organize themselves In so doing the study illustrates how the experience of a few long months at the end of the war in the Pacific would cast a long shadow over these issues in the very different circumstances of the post war world

*Britain and East Asia 1933-1937* Ann Trotter,1975-04-24 This is a study of Britain s attempts after the Manchurian crisis of 1931 3 to redefine her aims in east Asia and to develop a viable policy of friendship towards China and goodwill towards Japan The author emphasizes the part played by economic problems pacifist sentiment and the failure of the disarmament conference in influencing the thinking of policy makers and discusses Britain s dilemma of trying to provide for defence in Europe while maintaining the facade of an imperial power Although Britain did not seek to challenge Japan s China policy she was not prepared to give Japan a free hand in China or to grant concessions elsewhere In practice British attempts to rehabilitate China appeared as a challenge to Japan This was particularly true of the Leith Ross mission in China in 1935 which is considered in detail in this book

The British Way in Warfare 1688 - 2000 (Routledge Revivals) David French,2014-07-17 First published in 1990 this title examines British defence policy from 1688 onwards the year in which Britain was successfully invaded for the final time and which marked a generation of warfare that lasted until 1714 during which Britain came to be known as a major European power David French considers the strategic alliances that formed and changed throughout the period and tests his hypotheses in light of the varying paradigms of war and British wartime and peacetime practices The ways in which the needs of both the army and the navy have been balanced over time are analysed with particular attention paid to how parliament allotted money and resources to each Wars under discussion include the American War of Independence and the French Revolutionary and Napoleonic Wars A detailed and critical title this reissue will be of great value to history students studying Early Modern diplomacy with a particular emphasis on the strategic development of British warfare and policy and the place of Britain within the European power structure

**The War Against Japan: The loss of Singapore** Stanley Woodburn Kirby,1957 *The British Empire and the Second World War* Ashley Jackson,2006-03-09 In 1939 Hitler went to war not just with Great Britain he also went to war with the whole of the British Empire the greatest empire that there had ever been In the years since 1945 that empire has disappeared and the crucial fact that the British Empire fought together as a whole during the war has been forgotten All the parts of the empire joined the struggle and were involved in it from the beginning undergoing huge changes and sometimes suffering great

losses as a result The war in the desert the defence of Malta and the Malayan campaign and the contribution of the empire as a whole in terms of supplies communications and troops all reflect the strategic importance of Britain's imperial status Men and women not only from Australia New Zealand and India but from many parts of Africa and the Middle East all played their part Winston Churchill saw the war throughout in imperial terms The British Empire and the Second World War emphasises a central fact about the Second World War that is often forgotten

**British Propaganda and Wars of Empire** Christopher Tuck, 2016-04-15 Influence is a slippery concept yet one of tremendous relevance for those wishing to understand global politics From debates on the changing sources of power in the international system through to analyses of its value as an alternative to the active use of force as a policy instrument influence has become a recurrent theme in discussions of international relations and foreign policy In order to provide a better understanding of the multifaceted and shifting nature of influence this volume looks at how the British government employed various forms of pressure and persuasion to achieve its goals across the twentieth century By focusing on Britain a global actor with great power objectives but declining physical means the collection provides a wide range of case studies to assess how influence was brought to bear on a wide array of non western cultures and societies It furthermore allows for an assessment of just how effective or ineffective British efforts were at influencing non Western targets over a hundred years of operations By shedding important light on the efficacy of British efforts to sustain and advance its interests in the twentieth century the volume will be of interest not only to historians but to anyone interested in contemporary problems surrounding the operation of influence as a foreign policy tool

**The British Stake In Japanese Modernity** Michael Gardiner, 2019-09-30 This book describes firstly a Japanese modernity which is readable not only as a modernising but also as a Britishising and secondly modernist attempts to overhaul this British universalism in some well known and some less known Japanese texts From the mid nineteenth century and particularly as hastened by the spectre of China in the First Opium War Japan's modernity was bound up with a convergence with British Newtonian cosmology something underscored by the British presence in Meiji Japan and the British education of key Meiji state makers Moreover the thinking behind Britain's own unification in the long eighteenth century particularly the Scottish Enlightenment is echoed strikingly faithfully in the 1860s 70s work of Fukuzawa Yukichi Nakamura Masanao and other writers in the Japanese Enlightenment However from around the end of the Meiji era we can see a concerted and pointed response to this British universalism its historiography its basis in the sovereign individual subject and its spatial mapping of the world Elements of this response can be read in texts including Natsume S seki's Kokoro Watsuji Tetsur's F do Climate and Culture Tanizaki Jun ichir's In ei Raisan In Praise of Shadows Kawabata Yasunari's Yukiguni Snow Country and various work of the mid period Kyoto School Rarely understood in terms of its British specificity this response should have something to say to modernist studies more generally since it aimed at a pluralism and de universalisation that was difficult for mainstream British modernism itself Indeed the strength of this de universalisation may be precisely why

these native Japanese modernist tendencies have not much been accepted as modernism within the Anglophone academy despite this field's apparent widening of its ground in the twenty first century      **The British Trade Journal** ,1911
