The Brothers War Biafra And Nigeria:

The Brothers' War John De St. Jorre, 2009-06-18 The Brothers War Biafra and Nigeria was first published in 1972 In the UK it had the title The Nigerian Civil War That is what it is about In the early 1960s Nigeria looked set to be the major black African country It seemed to be immune from the internecine struggles that bedevilled so many of the African states The illusion of stability was shattered at the beginning of 1966 During the next four years the country suffered two bloody coups a series of appalling massacres and a protracted and savage civil war which claimed a million lives This was a civil war on a par with the American and Spanish civil wars and like both those it was a desperate affair fought to the bitter end by determined people who shared a common past and a common language John de St Jorre covered the conflict for the Observer He was one of the few people to keep in touch with both sides His account was objective and remains definitive Women and the Nigeria-Biafra War Sussie U. Aham-Okoro, Gloria Chuku, 2020-10-07 This first comprehensive study of the Nigeria Biafra War 1967 1970 through the lens of gender explores the valiant and gallant ways women carried out old and new responsibilities in wartime and immediate postwar Nigeria The book presents women as embodiments of vulnerability and agency who demonstrated remarkable resilience and initiative waging war on all fronts in the face of precarious conditions and scarcities and maximizing opportunities occasioned by the hostilities Women s experiences are highlighted through critical analyses of oral interviews memoirs life histories fashion and material culture international legal conventions music as well as governmental and non governmental sources The book fills the gap in the war scholarship that has minimized women s complex experiences fifty years after the hostilities ended It highlights the cost of the conflict on Nigerian women their participation in the hostilities and their contributions to the survival of families communities and the country The chapters present counter narratives to fictional and nonfictional accounts of the war especially those written by men which often peripheralize or stereotypically represent women as passive spectators or helpless victims of the conflict and also highlight and exaggerate women s moral laxity and sensationalize their marital infidelities *New Perspectives on the Nigeria-Biafra War* Chima J. Korieh, 2021-10-13 New Perspectives on the Nigeria Biafra War No Victor No Vanquished analyzes the continued impact of the Nigeria Biafra war on the Igbo the failure of the reconstruction and reconciliation effort in the post war period and the politics of exclusion of the memory of the war in public discourse in Nigeria Furthermore New Perspectives on the Nigeria Biafra War explores the resilience of the Igbo people and the different strategies they have employed to preserve the history and memory of Biafra The contributors argue that the war had important consequences for the socio political developments in the post war period ushering in two differing ideologies a paternalistic ideology of co option of the Igbo by the Nigerian state under the false premise of No Victor No Vanquished and the Igbo commitment to self preservation on the other The Biafran Humanitarian Crisis, 1967-1970 Arua Oko Omaka, 2016-09-30 This book focuses on the Biafran humanitarian crisis of 1967 1970 which generated a surge of human rights anxieties and attracted the attention

of world humanitarian organizations For the first time in recent history different church groups and humanitarian activists around the world came together for the sole purpose of alleviating human suffering and saving lives regardless of theological differences race ethnic affiliation nationality and geographical distance Despite their role in shaping the course and outcome of the conflict most scholars of the Nigeria Biafra War treat the humanitarian aspect of the war as a footnote making it appear less important among other issues of interest in the conflict Notable exceptions however include Joseph Thomson's *American Policy and African Famine* which focuses on American policy on the humanitarian aid and Reverend Tony Byrne's *Airlift to Biafra* This study underlines that the international humanitarian aid largely contributed to the internationalization of the war The efforts of the churches from thirty three countries which remain virtually unexplored was not just the first of its kind in the developing world but also the largest civilian airlift in history While the paucity of scholarship on the humanitarian aspect of the Biafra war could be attributed to the newness of this field of enquiry the increase in conflicts in different parts of the world has just opened humanitarian aid studies as a new frontier in academic study This book is a masterful example of scholarship in this newly emergent field

African Americans and the Nigerian Civil War, 1967-1970 James A. Farquharson, 2024-07-22 This book is the first to recover and analyse at length the extent complexity and character of African American responses to the Nigerian Civil War 1967-1970 Far from having only marginal significance the Nigerian Civil War collided at full velocity with the conflicting discourses and ideas by which black Americans sought to understand their place in the United States and the world in the late 1960s Black civil rights leaders offered their service as agents of direct diplomacy during the conflict seeking to preserve Nigerian unity grassroots activists organised food drives concerts and awareness campaigns in support of humanitarian aid for victims of famine in the warzone while other black activists warned of an imminent genocide and called for an united response from black Americans Drawing on private papers activist literature government records and especially the black press it charts the way the civil war shaped as well as challenged the worldview of African Americans regarding black internationalist solidarities territorial sovereignty and political viability humanitarian compassion and the political trajectory of postcolonial Africa With a chronological approach this study is the ideal resource for all those interested in the Nigerian Civil War and the history of black internationalism

Biafra's War 1967-1970 Al J. Venter, 2016-02-19 Almost half a century has passed since the Nigerian Civil War ended But memories die hard because a million or more people perished in that internecine struggle the majority women and children who were starved to death Biafra's war was modern Africa's first extended conflict It lasted almost three years and was based largely on ethnic by inference tribal grounds It involved on the one side a largely Christian or animist southeastern quadrant of Nigeria which called itself Biafra pitted militarily against the country's more populous and preponderant Islamic north These divisions almost always brutal persist Not a week goes by without reports coming in of Christian communities or individuals persecuted by Islamic zealots It was also a conflict that saw significant Cold War involvement the Soviets and

Britain siding and supplying Federal Nigeria with weapons aircraft and expertise and several Western states Portugal South Africa and France especially providing clandestine help to the rebel state For that reason alone this book is an important contribution towards understanding Nigeria s ethnic divisions which are no better today than they were then Biafra was the first of a series of religious wars that threaten to engulf much of Africa Similar conflicts have recently taken place in the Ivory Coast Kenya Southern Sudan the Central African Republic Senegal Cassamance both Congo Republics and elsewhere As the war progressed Biafra also attracted mercenary involvement many of whom arriving from the Congo which had already seen much turmoil Western pilots were hired by Lagos and they flew the first Soviet MiG 17 jet fighters to have played an active role in a Western war Al Venter spent time covering this struggle He left the rebel enclave in December 1969 only weeks before it ended and claims the distinction of being the only foreign correspondent to have been rocketed by both sides first by Biafra s tiny Swedish built Minicon fighter planes while he was on a ship lying at anchor in Warri harbour and thereafter by MiG jets flown by mercenaries Among his colleagues inside the beleaguered territory were the celebrated Italian photographer Romano Cagnoni as well as Frederick Forsyth who originally reported for the BBC and then resigned because of the partisan pro Nigerian stance taken by Whitehall He briefly shared quarters with French photographer Giles Caron who was later killed in Cambodia Prior to that Venter had been working for John Holt in Lagos It is interesting that his office at the time was at Ikeja International Airport Murtala Muhammed today where the second Nigerian army mutiny was plotted and from where it was launched From this perspective he had a proverbial ringside seat of the tribal divisions that followed as hostilities escalated Venter took numerous photos while on this West African assignment both in Nigeria while he was based there and later in Biafra itself Others come from various sources including some from the same mercenary pilots who originally targeted him from the air

The Asaba Massacre S. Elizabeth Bird, Fraser M. Ottanelli, 2017-07-31 In October 1967 early in the Nigerian Civil War government troops entered Asaba in pursuit of the retreating Biafran army slaughtering thousands of civilians and leaving the town in ruins News of the atrocity was suppressed by the Nigerian government with the complicity of Britain and its significance in the subsequent progress of that conflict was misunderstood Drawing on archival sources on both sides of the Atlantic and interviews with survivors of the killing pillaging and rape as well as with high ranking Nigerian military and political leaders S Elizabeth Bird and Fraser M Ottanelli offer an interdisciplinary reconstruction of the history of the Asaba Massacre redefining it as a pivotal point in the history of the war Through this they also explore the long afterlife of trauma the reconstruction of memory and how it intersects with justice and the task of reconciliation in a nation where a legacy of ethnic suspicion continues to reverberate

Nigeria's Soldiers of Fortune Max Siollun, 2019-09-01 In the cataclysmic decade that is the focus of this book Nigeria was subject to several near death experiences These began when the country nearly tore itself apart after the northern led military government annulled the results of a 1993 presidential election won by the southerner Moshood Abiola and ended with former military ruler

General Olusegun Obasanjo being the unlikely conduit of democracy This mini history of a nation's life also reflects on three mesmerizing protagonists who personified that era First up is Abiola the multi billionaire businessman who had his election victory voided by the generals who made him rich and who was later assassinated General Sani Abacha was the mysterious reclusive ruler under whose watch Abiola was arrested and pro democracy activists including Abiola's wife were murdered He also oversaw a terrifying Orwellian state security operation Although Abacha is today reviled as a tyrant the author eschews selective amnesia reminding Nigerians that they goaded him into seizing power The third protagonist is Obasanjo who emerged from prison to return to power as an elected civilian leader The penumbra of military rule still looms over Nigeria nearly twenty years after the soldiers departed and key personalities featured in this book remain in government including the current president

A Biafran Soldier's Survival from the Jaws of Death Jerome Agu Nwadike, 2010-09-25 A Biafran Soldier's Survival from the Jaws of Death Nigeria Biafran Civil War is a reflection of a personal experience in the battlefield and an insight about certain activities in some war theaters Attempt was made to illustrate how Nigeria waged a war of genocide against Eastern Nigeria especially the Igbos Biafrans This book went further to show that the nonchalant attitude of many African countries toward the Nigeria Biafra conflict later metamorphosed in various conflicts in many parts of Africa The growth of Africa has been retarded by similar wars in Angola Congo Mozambique Liberia Sierra Leone Ivory Coast Chad Sudan Somalia Uganda Burundi Ethiopia Eritrea and Rwanda One of the objectives of this book is to lay the facts and was neither intended to evoke sentiments nor to cast aspersion on any group or individuals It is better to learn from our past mistakes for the future progress and unity of Nigeria Although the war has ended some of the factors that contributed to the causes of the civil war are still there In order to keep Nigeria as one indivisible entity there should be concrete efforts to ensure that human rights of all Nigerians are fully protected

Recruiting, Drafting, and Enlisting Peter Karsten, 2013-10-31 These five volumes concern one of the most important institutions in human history the military and the interactions of that institution with the greater society Military systems serve nations they may also reflect them Soldiers are enlisted they may also be said to self select Military units have missions they also have interests In an older more traditional military history while the second reflects a newer approach Although each statement in the pairs may be said to be true the former speak from the framework of the military sciences the latter from the framework of the social and behavioral sciences The military systems of our past differ from one another over time in political origins size missions and technological and tactical fashions but to a great extent their historical experiences have been more noticeably similar than they were different When we ask questions about the recruiting training or motivating of military systems or of those systems interactions with civilian governments and with the greater society as do the essays in these five volumes of reading on The Military and Society we are struck by the almost timeless patterns of continuity and similarity of experience In each of these volumes approximately half of the essays selected deal with the experience in the United States the other half with the experiences of

other states and times enabling the reader to engage in comparative analysis Decentering Discussions on Religion and State Sargon George Donabed, Autumn Quezada-Grant, 2015-04-09 This volume explores dynamic conversations through history between individuals and communities over questions about religion and state Divided into two sections our authors begin with considerations on the separation of religion and state as well as Roger Williams concept of religious freedom Authors in the first half consider nuanced debates centered on emerging narratives with particular emphasis on Native America Early Americans and experiences in American immigration after Independence The first half of the volume examines voices in American History as they publicly engage with notions of secular ideology Discussions then shift as the volume broadens to world perspectives on religion state relations Authors consider critical questions of nation religious identity and transnational narratives The intent of this volume is to privilege new narratives about religion state relations Decentering discussions away from national narratives allows for emerging voices at the individual and community levels This volume offers readers new openings through which to understand critical but overlooked interactions between individuals and groups of people with the state over questions about religion Targeting Civilians in War Alexander B. Downes, 2011-05-15 Accidental harm to civilians in warfare often becomes an occasion for public outrage from citizens of both the victimized and the victimizing nation In this vitally important book on a topic of acute concern for anyone interested in military strategy international security or human rights Alexander B Downes reminds readers that democratic and authoritarian governments alike will sometimes deliberately kill large numbers of civilians as a matter of military strategy What leads governments to make such a choice Downes examines several historical cases British counterinsurgency tactics during the Boer War the starvation blockade used by the Allies against Germany in World War I Axis and Allied bombing campaigns in World War II and ethnic cleansing in the Palestine War He concludes that governments decide to target civilian populations for two main reasons desperation to reduce their own military casualties or avert defeat or a desire to seize and annex enemy territory When a state s military fortunes take a turn for the worse he finds civilians are more likely to be declared legitimate targets to coerce the enemy state to give up When territorial conquest and annexation are the aims of warfare the population of the disputed land is viewed as a threat and the aggressor state may target those civilians to remove them Democracies historically have proven especially likely to target civilians in desperate circumstances In Targeting Civilians in War Downes explores several major recent conflicts including the 1991 Persian Gulf War and the American led invasion of Iraq in 2003 Civilian casualties occurred in each campaign but they were not the aim of military action In these cases Downes maintains the achievement of quick and decisive victories against overmatched foes allowed democracies to win without abandoning their normative beliefs by intentionally targeting civilians Whether such restraint can be guaranteed in future conflicts against more powerful adversaries is however uncertain During times of war democratic societies suffer tension between norms of humane conduct and pressures to win at the lowest possible costs The painful lesson of Targeting Civilians in War is

that when these two concerns clash the latter usually prevails

Africa, Sub-Sahara Harlan D. Robinson,1974 [The Struggle for Modern Nigeria](#) Michael Gould,2011-12-18

International media coverage in the 1960s and early 1970s represented the Biafran War in which the state of Biafra attempted to secede from the Nigerian Federation as a grand humanitarian disaster characterised by sustained conflict starvation and genocide Using interviews and newly released archival material Michael Gould questions this depiction examining the role of foreign parties in the conflict and the impact of propaganda upon its international reception both during and after the war Envisaged initially by both sides as a short conflict the war confounded all expectations stretching on for four years It was a brother s war one which divided families and was characterised overwhelmingly by both sides reluctance to enter into hostilities This book seeks to answer some of the most fundamental questions surrounding the conflict including how this avoidable conflict came about why the war became so drawn out and how the leadership of the opposing Generals Ojukwu who led the Biafran revolt and Gowon who was President of the Nigerian Federation defined the conflict In the process Gould offers a radical reappraisal of the many entrenched conceptions which currently surround the conflict This book will be essential reading for all students of African history and politics and post colonial studies

Oil, Politics and Violence Max Siollun,2009 An insider traces the details of hope and ambition gone wrong in the Giant of Africa Nigeria Africa s most populous country When it gained independence from Britain in 1960 hopes were high that with mineral wealth and over 140 million people the most educated workforce in Africa Nigeria would become Africa s first superpower and a stabilizing democratic influence in the region However these lofty hopes were soon dashed and the country lumbered from crisis to crisis with the democratic government eventually being overthrown in a violent military coup in January 1966 From 1966 until 1999 the army held onto power almost uninterrupted under a succession of increasingly authoritarian military governments and army coups Military coups and military rule which began as an emergency aberration became a seemingly permanent feature of Nigerian politics The author names names and explores how British influence aggravated indigenous rivalries He shows how various factions in the military were able to hold onto power and resist civil and international pressure for democratic governance by exploiting the country s oil wealth and ethnic divisions to its advantage
