A History of Christendom Warren H.. Carroll, 1987 *A History of Christendom: The cleaving of Christendom* Warren Hasty Carroll, The Building of Christendom Warren Hasty Carroll, 1987 The second of a projected six volumes this carries the story of the building of a Christian civilization in Europe from the conversion of Roman Emperor Constantine in the fourth century to the end of the First Crusade Christ and His Church remain at the center of the story and the key to judging the significance and character of the events described However this is more than a history of the Church it is a political and religious history of Christendom as shaped by the Church by lay men and women as well as Popes bishops priests monks and nuns during eight dramatic centuries when Rome fell Muslims and barbarians attacked Christian Europe and a new civilization was born

The Church and the Middle Ages (1000-1378) Steve Weidenkopf, 2020-12-25 History often identifies the Middle Ages as barbaric superstitious and bloody Many secular historians classify the Catholic Church of the time as omnipotent and overbearing In reality the Church provided the world with a common way of life a common purpose and unity In *The Church and the Middle Ages 1000 1378* historian Steve Weidenkopf explains that the medieval people were intensely faithful and that it was an era of grandiose adventures and brilliant advancements in human achievement The actions of the faithful men and women of this period and their accomplishments reverberate to the modern day With vibrant accounts of pivotal events and inspiring stories of the people who shaped the Church during the eleventh through fourteenth centuries Weidenkopf provides a clearer picture of an era where critics used events such as the Crusades and the relocation of the papacy to France to undermine the Church The period also provided the hallmarks of Christian civilization universities cathedrals castles and various religious orders Weidenkopf also chronicles the development of Christian civilization in Europe and explores the contributions of St Bruno St Anthony of Padua and St Bridget of Sweden In this book you will learn Most Crusaders were motivated by piety and service not greed Heresy was both a church and civil issue and medieval inquisitors were focused on the eternal salvation of the accused The Church preached against the mistreatment of Jews Books in the Reclaiming Catholic History series edited by Mike Aquilina and written by leading authors

and historians bring Church history to life debunking the myths one era at a time **Timeless Steve Weidenkopf**,2018-12-06 All the makings of your favorite adventure story drama intrigue promise love hope and heartache spanning two thousand years and YOU are a part of it Timeless A History of the Catholic Church is a fresh retelling of the history of the Church In this easy to read not your average history book Steve Weidenkopf introduces you to the vivid dynamic story of God s work in the world since Pentecost Along the way you will meet the weird wonderful and always fascinating heroes and villains of the Catholic family tree Read Timeless and you ll Learn the past in order to make sense of our world know Christ better be prepared to defend your Faith and the Church and understand where you fit in the greatest story ever told ABOUT THE AUTHOR Steve Weidenkopf teaches Church History at the Christendom College Graduate School of Theology in Alexandria VA He is the author of The Glory of the Crusades 2014 The Real Story of Catholic History Answering Twenty Centuries of Anti Catholic Myths 2017 and 20 Answers The Reformation 2017 He is the creator co author and presenter of the adult faith formation program Epic A Journey through Church History and is a popular author and speaker on the Crusades and other historical topics **The Oxford Illustrated History of Christianity John McManners**,2001-03-15 Illustrated with over 350 colour and black and white pictures this is a general history of Christianity *Bioethics, Law, and Human Life Issues* D. Brian Scarneccia,2010-06-02 Provides an overview of the Catholic perspective on some of the most controversial issues in today s society covering reproductive technology embryo adoption contraception abortion family same sex marriage euthanasia and assisted suicide *The Theology of the First Christians* Walter Schmithals,1997-01-01 In The Theology of the First Christians Walter Schmithals offers a comprehensive history of the development of religious thought from the preaching of Jesus to the formation of the New Testament canon This well researched volume will be of great interest to New Testament scholars and students **Marian Apparitions, the Bible, and the Modern World** Donal Anthony Foley,2002 This groundbreaking book looks at the major approved Marian apparitions of the last five centuries and relates them to important historical moments the Reformation the French and Russian Revolutions the rise of Nazism These Marian apparitions and particularly Fatima are not historically unimportant events but rather follow a preordained plan they have a crucial role in helping us to see how the modern world with all its problems has developed Donal Foley makes clear the fascinating and intriguing connections between Marian apparitions and the Scriptural types of Mary found in the Bible a crucial element in the theology and exegesis of the early Church Fathers By understanding these biblical types and their symbolism we see that each of the apparitions has a much greater significance for both the Church and the modern world than has generally been recognised Here is a convincing demonstration that the future of the Church and the papacy is intimately bound up with a proper understanding of the role of Mary there will only be true peace in the world when her message is accepted and lived If you thought you really understood how the modern world developed and the role and meaning of Marian apparitions then this book will make you think again Donal Foley has written

a book with an extraordinary message Aidan Nichols O P Upon This Rock Stephen K. Ray, 2009-09-03 Ray a former Evangelical Protestant and Bible teacher goes through the Scriptures and the first five centuries of the Church to demonstrate that the early Christians had a clear understanding of the primacy of Peter in the see of Rome He tackles the tough issues in an attempt to expose how the opposition is misunderstanding the Scriptures and history He uses many Protestant scholars and historians to support the Catholic position This book contains the most complete compilation of Scriptural and Patristic quotations on the primacy of Peter and the Papal office of any book available It has over 500 footnotes with supporting evidence from Catholic Orthodox Evangelical and non Christian authorities **Landmark Essays in Mission and World Christianity** Robert L. Gallagher, Paul Hertig, 2009 Gallagher and Hertig have collected a range of seminal articles and papers that offer students insight into thinking by the makers of modern mission and world Christian studies This is a priceless book for the classroom bringing between two covers the most important reflections on these issues in our age This marvelous book answers the prayers of teachers who have struggled for a generation with the problem of providing their students a resource that will offer an entre into the best thinking on the nature of mission and the emergence of world Christianity **Catholic Church Fathers: Patristic and Scholarly Proofs** Dave Armstrong, 2013-08-28 Protestants and Catholics both claim that the early Church heritage of theology and broad consensus of the Church fathers favors their own view Protestants from the beginning claimed to be reformers of the Catholic Church that is they felt themselves to be hearkening back to the more pure doctrines of the early Church and the Church fathers rather than overturning historic Catholic doctrine I shall contend in this book by means of massive documentation that the historical case for Catholicism becomes stronger as the accumulation of patristic evidence piles up Catholics need not fear patristic data any more than they need fear the Bible The discussion of what the Church fathers believed must be undertaken by means of historical fact and it can be determined fairly conclusively in most cases I submit what a Church father believed about various Christian doctrines This volume surveys the beliefs of the Church fathers particularly with regard to Catholic distinctives The Papacy: Revisiting the Debate Between Catholics and Orthodox Erick Ybarra, 2022-11-22 The Lord Jesus Christ intended his kingdom present on earth the Church of God to be one holy catholic and apostolic Prior to the Protestant Reformation in the sixteenth century history tells of the most egregious division in the Church between the Latin West and Byzantine East in AD 1054 and following How can it be that Catholics and Orthodox share a thousand years of ecclesial life together in one faith sacramental order and hierarchical government only to have that bond of communion broken Historians and theologians throughout the years have spilled much ink in recounting the causes and effects of this dreadful and heart wrenching division and among the many debates that exist between Catholics and Orthodox none are as vital to the task of reconciliation as the subject of the papacy In The Papacy Revisiting the Debate between Catholics and Orthodox Erick Ybarra examines sources from the first millennium with a fresh look at how methodology and hermeneutics plays a role in the

reading of the same texts In addition he conducts a detailed investigation into the most significant points of history in order to show what was clearly accepted by both East and West in their years of ecclesiastical unity In light of this clear evidence the reader of The Papacy is free to decide whether contemporary Catholicism or Eastern Orthodoxy has maintained the heritage of the first millennium on the understanding of the Papal office

The History of Jihad Robert Spencer, 2018 It is taken for granted even among many Washington policymakers that Islam is a fundamentally peaceful religion and that Islamic jihad terrorism is something relatively new a product of the economic and political ferment of the twentieth century But in The History of Jihad From Muhammad to ISIS Islamic scholar Robert Spencer proves definitively that Islamic terror is as old as Islam itself as old as Muhammad the prophet of Islam who said I have been made victorious through terror Spencer briskly traces the 1 400 year war of Islamic jihadis against the rest of the world detailing the jihad against Europe including the 700 year struggle to conquer Constantinople the jihad in Spain where non Muslims fought for another 700 years to get the jihadi invaders out of the country and the jihad against India where Muslim warriors and conquerors wrought unparalleled and unfathomable devastation in the name of their religion Told in great part in the words of contemporary chroniclers themselves both Muslim and non Muslim The History of Jihad shows that jihad warfare has been a constant of Islam from its very beginnings and present day jihad terrorism proceeds along exactly the same ideological and theological foundations as did the great Islamic warrior states and jihad commanders of the past The History of Jihad From Muhammad to ISIS is the first one volume history of jihad in the English language and the first book to tell the whole truth about Islam s bloody history in an age when Islamic jihadis are more assertive in Western countries than they have been for centuries This book is indispensable to understanding the geopolitical situation of the twenty first century and ultimately to formulating strategies to reform Islam and defeat radical terror
