the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region **The**

*Bulgaria* Vesselin Dimitrov, 2013-01-11 The communist regime in Bulgaria was perhaps the most stable in Eastern Europe and its demise was brought about only by the general collapse of the Soviet bloc In the light of this what is surprising about the country's transitions to democracy and a market economy is not that it has been uneven but that it has proceeded without fundamental disruptions and is now showing some signs of consolidation The two party system that emerged from the round table negotiations in 1990 has survived remarkably intact although the parties within it have undergone considerable transformations The institutions of democracy have often been misused but have shown their ability to survive in crisis situations After a dismal record of macroeconomic mismanagement the establishment of a currency board has brought stability to the country's economy and the long delayed structural reform is finally off the ground Having survived the trials of transition Bulgaria is now faced with the more difficult task of adapting its political and economic institutions to the requirements of future EU membership **Maistor: Classical, Byzantine and Renaissance Studies for Robert**
