political upheavals and mass killings in the Socialist Republic of Burma Myanmar have received a great deal of international attention scholars and journalists until now have failed to identify the unique underlying factors that produced this situation and helped to maintain military dictatorship under Ne Win s successors Mya Maung looks into the deeper sources of Burmese behavior focusing on the ancient tradition of sacred despotic rule the undermining of social and cultural life during the British colonial period and the impact of conflicting cultural realities on a Communist military elite whose attempts to reinstate absolute authority compounded their gross mismanagement of economic development Maung presents an overview of the contradictions and biases expressed by writers both foreign and Burmese who have attempted to understand the Burmese and their country s recent history He next describes a traditional society in which authoritarian rule existed side by side with a marked degree of social freedom and egalitarianism Maung discusses the far reaching impact of colonialism the transition to independence the Socialist military takeover and the progressive repression and economic failures that led ultimately to economic collapse Maung concludes with an examination of Burma s potential for utilizing its resources effectively and developing a stable economy in the transition to capitalism Based on field research hundreds of interviews and Maung s firsthand knowledge of Burmese culture this analysis contributes a balanced perspective and new information crucial to our understanding of a society that has been largely closed to outsiders for more than two decades **Hong**

This book investigates the patterns of conflict management in contemporary Southeast Asia The region has long been characterized by the twin process of state formation and nation building which has been responsible for most of the region s intrastate and interstate conflicts While this process is still ongoing regional conflicts and their management are increasingly affected by globalisation which not only serves as a new source of or exacerbating factor to conflict but also makes new

instruments available for conflict management Employing the concepts of incompatibility management and mediation regime the book analyses the management of seven conflicts in the region the Rohingya crisis and the Kachin conflict in Myanmar the Khmer Krom conflict in Vietnam the West Papua conflict in Indonesia the political conflict in Thailand the Mekong River conflicts involving five Southeast Asian countries and China and the transboundary haze problem emanating from Indonesia The efforts to manage each of them are imagined as constituting a mediation regime and its effectiveness is assessed in terms of good governance Among the findings of the book is that the measures of manoeuvring around incompatibilities are employed predominantly in managing regional conflicts In intrastate conflicts which mostly involve ethnic minorities the authorities first aim to eliminate or impose its own position on ethnic parties When this strategy proves unsuccessful they have no choice but manoeuvre around incompatibilities which may eventually open up a space for mutual learning In interstate conflicts the manoeuvring around strategy works in a more straightforward manner contributing to regional stability However the stability is achieved at the cost of local communities and the natural environment which absorb the incompatibilities in conflict
