The Burning Child Thomas Simmons, 2005 *Mentoring in Eighteenth-Century British Literature and Culture* Dr Anthony W Lee, 2013-04-28 In the first collection devoted to mentoring relationships in British literature and culture the editor and contributors offer a fresh lens through which to observe familiar and lesser known authors and texts Employing a variety of critical and methodological approaches which reflect the diversity of the mentoring experiences under consideration the collection highlights in particular the importance of mentoring in expanding print culture Topics include John Wilmot the Earl of Rochester's relationships to a range of role models John Dryden's mentoring of women writers Alexander Pope's problematic attempts at mentoring the vexed nature of Jonathan Swift's cross gender and cross class mentoring relationships Samuel Richardson's largely unsuccessful efforts to influence Urania Hill Johnson and an examination of Elizabeth Carter and Samuel Johnson's as co mentors of one another's work Taken together the essays further the case for mentoring as a globally operative critical concept not only in the eighteenth century but in other literary periods as well *Imperial Affliction* Thomas Simmons, 2010 In many ways Robert J C Young writes colonization from the very first carried with it the seeds of its own destruction *Imperial Affliction* examines some ways in which Young's observation could be applied to problems of subjectivity and influence within the colonizing nations themselves particularly eighteenth century Britain How might these seeds of destruction manifest themselves as problems of identity How might the very selves with greatest access to self affirmation the idea of the empire the idea of British citizenry the idea of the British self actually find themselves vulnerable confused or damaged Using multiple forms of postcolonial critique this book turns back to salient eighteenth century British lives and work for a different kind of enlightenment Among its central subjects are the elusive subjectivity of William Collins the exilic religious experience of William Cowper and its multiple readings in the twentieth century by a self fashioned exilic Donald Davie the missed encounter between Christopher Smart and Samuel Johnson and the ways in which that problem was re inscribed in the work of W Jackson Bate and Lionel Trilling the problem of imperial fixity in James Cook's journals with a view to Gray's *Elegy* and Goldsmith's *Deserted Village* and the problem of purity as a paradoxically privileged and exilic force in the work of John Newton and Christopher Smart In these explorations this book illustrates both an expanded view of eighteenth century colonial liabilities and a new emphasis on postcolonial critique as a means of exploring the fissures always present in imperial ambition *Mental Illness in Popular Culture* Sharon Packer MD, 2017-05-24 Being crazy is generally a negative characterization today yet many celebrated artists leaders and successful individuals have achieved greatness despite suffering from mental illness This book explores the many different representations of mental illness that exist and sometimes persist in both traditional and new media across eras Mental health professionals and advocates typically point a finger at pop culture for sensationalizing and stigmatizing mental illness perpetuating stereotypes and capitalizing on the increased anxiety that invariably follows mass shootings at schools military

bases or workplaces on public transportation or at large public gatherings While drugs or street gangs were once most often blamed for public violence the upswing of psychotic perpetrators casts a harsher light on mental illness and commands media's attention What aspects of popular culture could play a role in mental health across the nation How accurate and influential are the various media representations of mental illness Or are there unsung positive portrayals of mental illness This standout work on the intersections of pop culture and mental illness brings informed perspectives and necessary context to the myriad topics within these important timely and controversial issues Divided into five sections the book covers movies television popular literature encompassing novels poetry and memoirs the visual arts such as fine art video games comics and graphic novels and popular music addressing lyrics and musicians' lives Some of the essays reference multiple media such as a filmic adaptation of a memoir or a video game adaptation of a story or characters that were originally in comics With roughly 20 percent of U.S. citizens taking psychotropic prescriptions or carrying a psychiatric diagnosis this timely topic is relevant to far more individuals than many people would admit
