The Butterfly Hunter:

The Butterfly Hunter Klea McKenna, 2008 The Butterfly Hunter Chris Ballard, 2006 Do we each have a dream job that we are by nature or nurture uniquely meant for To answer this question Chris Ballard set out to talk to people who found work they love way off the beaten path The Butterfly Hunter is a rollicking narrative of what he discovered and reveals insights the rest of us can use to find passion in our work The Butterfly Hunter begins its roundup of quirky characters in unusual professions with Spiderman Mulholland a former Marine who rappels to suicidal spots on sheer building faces to assess damage or make repairs And yes that s his legal name Through Spiderman Ballard learns that one can find a calling by following one s wildest idiosyncrasies Along the way he learns the history of window washing why it is that some people enter risky professions and the best way to jump off a 230 foot building His adventures continue as he meets America s top lumberjill an NFL kicking coach who has never kicked a ball in his life a MacArthur genius who s spent his life in remote jungles chasing butterflies and the movie trailer voice over artist known as the Voice of God These ten characters each reveal an aspect of the search for a life s work and reaffirm for Ballard that we too can discover a calling if only we look in the right place As with true love there aren t seven steps to finding it but The Butterfly Hunter teaches us what it looks like when it s real The Butterfly Hunter Anthony Crawford, 2009 This is the epic true and long overdue story of the young explorer who put forward the first ever case for the creation of a new species providing what Charles Darwin called the beautiful proof for Natural Selection The major discovery of Batesian Mimicry was developed from Bates s fascinating 11 year journey and study of butterflies in the Amazon rainforest He noted how certain animals adopt the look of others to deceive predators and gain an advantage to survive Little known to the public Bates made other crucial contributions to biology he collected over 14 000 specimens of which over 8 000 were new to science at the time He went on to become the administrator for the Royal Geographical Society and transformed it into an institution which combined exploration with academic research and was responsible for placing geography on the school curriculum This important book reassesses Bates s life and finally places both the man and his work in their rightful place alongside the other greats *The Butterfly Hunter* A.B.
