The History of Medical Informatics in the United States Morris F. Collen, Marion J. Ball, 2015-10-08 This is a meticulously detailed chronological record of significant events in the history of medical informatics and their impact on direct patient care and clinical research offering a representative sampling of published contributions to the field The History of Medical Informatics in the United States has been restructured within this new edition reflecting the transformation medical informatics has undergone in the years since 1990 The systems that were once exclusively institutionally driven hospital multihospital and outpatient information systems are today joined by systems that are driven by clinical subspecialties nursing pathology clinical laboratory pharmacy imaging and more At the core is the person not the clinician not the institution whose health all these systems are designed to serve A group of world renowned authors have joined forces with Dr Marion Ball to bring Dr Collen s incredible work to press These recognized leaders in medical informatics many of whom are recipients of the Morris F Collen Award in Medical Informatics and were friends of or mentored by Dr Collen carefully reviewed editing and updating his draft chapters This has resulted in the most thorough history of the subject imaginable and also provides readers with a roadmap for the subject well into later in the century

A Terrible Thing to Waste Harriet A. Washington, 2019-07-23 A powerful and indispensable look at the devastating consequences of environmental racism Gerald Markowitz and what we can do to remedy its toxic effects on marginalized communities Did you know Middle class African American households with incomes between 50 000 and 60 000 live in neighborhoods that are more polluted than those of very poor white households with incomes below 10 000 When swallowed a lead paint chip no larger than a fingernail can send a toddler into a coma one tenth of that amount will lower his IQ Nearly two of every five African American homes in Baltimore are plagued by lead based paint Almost all of the 37 500 Baltimore children who suffered lead poisoning between 2003 and 2015 were African American From injuries caused by lead poisoning to the devastating effects of atmospheric pollution infectious disease and industrial waste Americans of color are harmed by environmental hazards in staggeringly disproportionate numbers This systemic onslaught of toxic exposure and institutional negligence causes irreparable physical harm to millions of people across the country cutting lives tragically short and needlessly burdening our health care system But these deadly environments create another insidious and often overlooked consequence robbing communities of color and America as a whole of intellectual power The 1994 publication of

The Bell Curve and its controversial thesis catapulted the topic of genetic racial differences in IQ to the forefront of a renewed and heated debate. Now in *A Terrible Thing to Waste*, award-winning science writer Harriet A. Washington adds her incisive analysis to the fray, arguing that IQ is a biased and flawed metric but that it is useful for tracking cognitive damage. She takes apart the spurious notion of intelligence as an inherited trait, using copious data that instead point to a different cause of the reported African American white IQ gap: environmental racism, a confluence of racism and other institutional factors that relegate marginalized communities to living and working near sites of toxic waste pollution and insufficient sanitation services. She investigates heavy metals, neurotoxins, deficient prenatal care, bad nutrition, and even pathogens as chief agents influencing intelligence to explain why communities of color are disproportionately affected and what can be done to remedy this devastating problem. Featuring extensive scientific research and Washington's sharp, lively reporting, *A Terrible Thing to Waste* is sure to outrage, transform the conversation, and inspire debate. **Teen Programs with Punch**

Valerie Ott, 2006-06-30 Looking for some fresh program ideas for your teen patrons? Want to change those bored expressions on teen faces to eager smiles? This guide offers a stimulating selection of program ideas that will appeal to teens between the ages of 12 and 18 throughout the year. Recognizing that there is no such thing as a typical teenager, the programs represent a broad range of interests, from arts and crafts workshops to educational programs to purely recreational activities, from serious to serious fun. Programs for all seasons include Goth Gathering, Intolerance Forum Night at the Oscars Library, Fear Factor, Find Your Future, and Cyber Safety. Everything you need to get started is here, from the nitty-gritty details like supply lists and approximate costs to practical, step-by-step instructions. Collection connections and ideas for promotion enhance the guide. And there are also suggestions for those times when time is short and money is tight. A wonderful combination of inspiration and practicality and of start-to-finish guidance for successful teen programming. Grades 6-12.
