## **The Captive Wife Conflicts Of Housebound Mothers:**

**The Captive Wife** Hannah Gavron,1977      The Captive Wife Hannah Gavron,2024-05-01 In 1965 at the age of twenty nine the young sociologist Hannah Gavron took her own life A year later the book based on the research she carried out for her thesis was published as *The Captive Wife* Based on first hand accounts of the lives of working class and middle class women in Kentish Town in London it was one of the earliest works of British sociological feminism and has since become a feminist classic Arguing that motherhood stripped women of independence as it often brought an end to paid work Gavron explores how their values and aspirations as women came into conflict with the traditional role they had to play as mothers Written in simple prose and fair minded in its approach it became an inspirational book for many mothers feminists and activists seeking equality for women and remains a vital book today This Routledge Classics edition includes a new Foreword by Ann Oakley      **The Captive Wife** Hannah Gavron,1968      *THE CAPTIVE WIFE : CONFLICTS OF HOUSEBOUND MOTHERS*. Hannah Gavron,1983      **Unhappy mothers** Sarah Crook,2025-07-29 In the decades following the Second World War mothers experiences of loneliness boredom and unhappiness were increasingly widely acknowledged The language of postnatal depression came to be attached to this but mothers organised around their own discontent in ways that challenged the medical model *Unhappy mothers* draws attention to the social political and professional contexts within which knowledge about unhappy mothering developed Drawing upon an extensive range of archival material the book addresses themes around expertise feminism and the value given to lived experience      **Imagining Home** Wendy Webster,2022-09-15 *Imagining Home Gender Race and National Identity 1945 1964* is a powerful examination of ideas and images of home in Britain during a period of national decline and loss of imperial power Exploring the legacy of empire in imaginings of the nation during a period of decolonization after 1945 it is has become one of the outstanding books about the relationship between gender race and national identity Analyzing the role of colonialism and racism in shaping ideas of motherhood employment and domesticity it brilliantly traces the way in which Englishness became associated with domestic order and the very idea of home became white exploring themes that reverberate strongly today as arguments around gender race and feminism occupy the headlines Drawing extensively on oral history and life writing of politicians journalists churchmen health professionals novelists and film makers Wendy Webster examines the multiple meanings of home to women in narratives of belonging and unbelonging Its focus on the complex interrelationships of white and black women s lives and identities offers a compelling new perspective on this period This Routledge Classics edition includes a new Preface by the author      The Vanishing American Dream Virginia Deane Abernethy,2017-09-08 The United States has gone off track allowing domestic and foreign aid policies to be co opted by a government abetted by mass media that serves special interests rather than the greater national good Americans tendencies to trust play fair and help have been abused and require replacement by a realistic outlook *The Vanishing American Dream* posits solutions to get America back on the right

track Abernethy sees population growth driven by mass immigration as a major cause of economic and cultural changes that have been detrimental to most Americans. The environment has been degraded by over crowding and increasing demands on natural resources. Work is cheapened by explosive growth in the labour force creating a buyer's market. One salary or wage no longer supports a family and educates children. Women working outside the home is a necessity not a choice for most American families. Furthermore feminism aimed originally at balanced gender roles has been turned viciously against males of all ages and ultimately against females through degrading their traditional and valuable contributions. Abernethy proposes that Americans need time to regroup untroubled by a continuing influx of foreign peoples. The family, small business and responsive local government are centres around which a solvent and confident citizenry can prosper again. Women and the Family Beth Hess, Marvin B Sussman, 2014-06-17. Despite the pervasive changes that have taken place in women's lives in the past twenty five years increased participation in the labor force, the attainment of higher levels of education and higher salaries comparable changes in the division of family labor and in the roles of men have lagged considerably. In this timely book the editors and other experts in feminism and family studies examine the effects of two decades of influence by the women's movement on sex roles and child rearing. While applauding some positive changes the contributors point to powerful forces of resistance to equality between the sexes especially the question of family, the fear of depriving children of maternal attachment and the belief that working mothers are placing their own interests above those of other family members as an issue that until fully addressed prevents genuine equality between the sexes. Feminist Lives Lynn Abrams, 2023. The story of women growing up in post war Britain rejecting the self sacrifice of their mothers generation and embracing new ways of living, feeling and being in the decades before Women's Liberation. They were feminists before feminism which we see through their descriptions of themselves, their relationships, their feelings and actions. The Future of Marriage Jessie Bernard, 1982-01-01. Dr Bernard examines recent research findings on the present nature of the marriage commitment and predicts a less restrictive role for women in future marriages. **Entertaining television** Su Holmes, 2015-11-01. Entertaining television challenges the idea that the BBC in the 1950s was elitist and staid upholding Reithian values in a paternalistic even patronising way. By focusing on a number of often controversial programme case studies such as the soap opera, the quiz game show, the problem show and programmes dealing with celebrity culture Su Holmes demonstrates how BBC television surprisingly explored popular interests and desires. She also uncovers a number of remarkable connections with programmes and topics at the forefront of television today ranging from talk shows, Reality TV even to our contemporary obsession with celebrity. The book is iconoclastic, perceptive and grounded in archival research and will be of use to anyone studying television history. **Geographies of Children, Youth and Families** Louise Holt, 2010-12-21. This edited collection brings together international experts of geographies of children, youth and families. The book provides an overview of current conceptual and theoretical debates drawing upon cutting edge research from across the globe. The volume is an

invaluable course text for undergraduate and postgraduate students of geography the social sciences and education

**Gender, Work and Education in Britain in the 1950s** S. Spencer, 2005-08-17 Improvements in education and economic expansion in the 1950s ensured a range of school leaving employment opportunities Yet girls full acceptance as adult women was still confirmed by marriage and motherhood rather than employment This book examines the gendered nature of career Using both written sources and oral history it enters the theoretical debate over the significance of gender by considering the relationship between individual women and the dominant representation of Woman

**Sexual Politics** Stephen Brooke, 2011-11-24 Explores the complex relationship between sexuality and socialist politics in Britain arguing that sexuality has been a key though often neglected aspect of party politics in the last century and a half It also explores the relationship between the personal and the political in a wide ranging study of British society

**The Changing Position of Women in Family and Society** Lupri, 2022-03-28 *When Sex Became Gender* Shira Tarrant, 2013-05-13 *When Sex Became Gender* is a study of post World War II feminist theory from the viewpoint of intellectual history The key theme is that ideas about the social construction of gender have its origins in the feminist theorists of the postwar period and that these early ideas about gender became a key foundational paradigm for both second and third wave feminist thought These conceptual foundations were created by a cohort of extraordinarily

imaginative and bold academic women While discussing the famous feminist scholars Simone de Beauvoir Margaret Mead the book also hinges on the work of scholars who are lesser known to American audiences Mirra Komarovsky Viola Klein and Ruth Herschberger The postwar years have been an overlooked period in the development of feminist theory and philosophy and Tarrant makes a compelling case for this era being the turning point in the study of gender     The Routledge History of Loneliness Katie Barclay, Elaine Chalus, Deborah Simonton, 2023-02-28 The Routledge History of Loneliness takes a multidisciplinary approach to the history of a modern emotion exploring its form and development across cultures from the seventeenth century to the present Bringing together thirty scholars from various disciplines including history anthropology philosophy literature and art history the volume considers how loneliness was represented in art and literature conceptualised by philosophers and writers and described by people in their personal narratives It considers loneliness as a feeling so often defined in contrast to sociability and affective connections particularly attending to loneliness in relation to the family household and community Acknowledging that loneliness is a relatively novel term in English the book explores its precedents in ideas about solitude melancholy and nostalgia as well as how it might be considered in cross cultural perspectives With wide appeal to students and researchers in a variety of subjects including the history of emotions social sciences and literature this volume brings a critical historical perspective to an emotion with contemporary significance Chapter of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons CC BY 4.0 license     Eugenics, Literature, and Culture in Post-war Britain Clare Hanson, 2013 This book explores eugenics in its wider social context and in literary representations in post war Britain Drawing on a wide range of sources in medicine social and educational policy genetics popular science science fiction and literary texts Hanson tracks the dynamic interactions between eugenic ideas across diverse cultural fields demonstrating the strength of the eugenic imagination Challenging assumptions that eugenics was fatally compromised by its association with Nazi atrocities or that it petered out in the context of changed social attitudes in an egalitarian post war society the book demonstrates that eugenic thought not only persisted after 1945 but became more prominent Throughout eugenics is defined as a cultural movement rather than more narrowly as a science and the study is focused on its border crossing capacity as a style of thought By tracing the expression of eugenic ideas across disciplinary boundaries and in both high and low culture this book demonstrates the powerful and pervasive influence of eugenics in the post war years Authors visited include Raymond Williams John Braine Agatha Christie Muriel Spark Anthony Burgess Doris Lessing and J G Ballard
