The Caregiving Dilemma Work In An American Nursing Home:

The Caregiving Dilemma Nancy Foner, 1994 I know of no other book which gives such a richly contextualized picture of women workers in a nursing home setting A first rate ethnography Louise Lamphere University of New Mexico

Living and Dying at Murray Manor Jaber F. Gubrium, 2012-11-29 A classic text that documents the work of everyday life in a nursing home In 1973 sociologist Jaber F Gubrium spent several months at a nursing home as a participant observer Through his observations interviews and transcriptions Gubrium recounts case studies of clients doctors the dynamics between them patient socialization and the intimacies of daily hygiene

Maltreatment of Patients in Nursing Homes Diana K. Harris, Michael L. Benson, 2006 Old weak and often cognitively impaired nursing home patients can be easy targets for physical psychological material and financial mistreatment at the hands of those entrusted with their care safety and well being Maltreatment of Patients in Nursing Homes There Is No Safe Place examines the dark side of nursing homes where not every employee has the commitment of Mother Theresa This groundbreaking book applies criminological theory to help develop practical methods of controlling abuse and presents the results of the first and only nationwide study on the theft of patients belongings a form of abuse too often ignored by the nursing home industry

Creative Teamwork Pat Armstrong, Ruth Lowndes, 2018 Creative Team Work describes a new way of doing rapid ethnography to capture the rich complexity and contradictions of social relations It is about the imagination stimulation and reflection that can come with international interdisciplinary teams sharing the development application analysis and dissemination of research Although the book is based on a large seven year project studying care homes to search for promising practices and is guided by feminist political economy the lessons we have learned are relevant for everyone undertaking empirical investigation All research needs to consider theory the organization of information ethics and dissemination for example The specific techniques and approaches the authors discuss can be applied to a wide range of qualitative methods and are not exclusive to this kind of ethnography By dissecting experiences and uniting chapters through the theme of creative reflexive team work the book considers issues and methods of interest to all those struggling through the research process with or without team support

Tie a Knot and Hang On Teresa L. Scheid, 2004-01-01 Tie a Knot and Hang On is an analysis of mental health care work that crosses the borders of diverse sociological traditions The work seeks to understand the theoretical and empirical linkages between environmental pressures and activities and how these intersect with organizations and individuals The work draws upon a research tradition that sees the issue of mental health care in terms of institutional pressures and normative values The author provides a description and a sociological analysis of mental health care work emphasizing the interaction of professionally generated norms that guide the emotional labor of mental health care workers and the organizational contexts within which mental health care is provided She concludes with a discussion of emerging institutional forces that will shape the mental health care system in the future These forces are having greater impact than

ever before as managed care comes to have a huge fiscal as well as institutional impact on the work of mental health professionals Scheid's book is a brilliant nuanced effort to explain the institutional demands for efficiency and cost containment with the professional ethics that emphasize quality care for the individual The book is essential reading for those interested in mental health care organizations and the providers responding to these seemingly larger abstract demands The work offers a rich mixture not just of the problems faced by mental health care personnel but the equilibrium currently in place an equilibrium that shapes the theory of the field no less than the activities of its practitioners Teresa L Scheid is associate professor of sociology at the University of North Carolina at Charlotte She has published widely in the area including major essays in *Sociology of Health and Illness* *Sociological Quarterly* *Perspectives on Social Problems* and *The Journal of Applied Behavioral Science* *Opening the Door to Elder Abuse*, 1996 *Family Policy and the American Safety Net* Janet Zollinger Giele, 2013 *Family Policy and the American Safety Net* shows how families adapt to economic and demographic change Government programs provide a safety net against the new risks of modern life Family policy includes any public program that helps families perform their four universal obligations of caregiving income provision shelter and transmission of citizenship In America this means that child care health care Social Security unemployment insurance housing the quality of neighborhood schools and anti discrimination and immigration measures are all key elements of a de facto family policy Yet many students and citizens are unaware of the history and importance of these programs This book argues that family policy is as important as economic and defense policy to the future of the nation a message that is relevant to students in the social sciences social policy and social work as well as to the public at large

The Soul of Care Arthur Kleinman, 2020-09-15 A moving memoir and an extraordinary love story that shows how an expert physician became a family caregiver and learned why care is so central to all our lives and yet is at risk in today's world When Dr Arthur Kleinman an eminent Harvard psychiatrist and social anthropologist began caring for his wife Joan after she was diagnosed with early onset Alzheimer's disease he found just how far the act of caregiving extended beyond the boundaries of medicine In *The Soul of Care: The Moral Education of a Husband and a Doctor* Kleinman delivers a deeply human and inspiring story of his life in medicine and his marriage to Joan and he describes the practical emotional and moral aspects of caretaking He also writes about the problems our society faces as medical technology advances and the cost of health care soars but caring for patients no longer seems important Caregiving is long hard unglamorous work at moments joyous more often tedious sometimes agonizing but it is always rich in meaning In the face of our current political indifference and the challenge to the health care system he emphasizes how we must ask uncomfortable questions of ourselves and of our doctors To give care to be present for someone who needs us and to feel and show kindness are deep emotional and moral experiences enactments of our core values The practice of caregiving teaches us what is most important in life and reveals the very heart of what it is to be human
