## **The Breast Of The Earth:**

The Breast of the Earth Kofi Awoonor, 1975      Way of the Earth T.C. Mcluhan, 1995-07 This book draws upon both ancient and contemporary sources to examine the significance of the earth from the perspective of six different cultures and how these spiritual traditions have valued perceived and understood the earth At first glance the peoples of aboriginal Australia Japan Greece Africa South America and Native North America couldn't be more different But by taking a closer look the author shows that there are many more similarities than differences all revere mountains as a source of inspiration and holiness all feel a spiritual connection to the soil itself all create art and literature to celebrate their connection to the land and all see themselves as inextricable from the land they call home This unique volume explores how human beings across the planet and across time have felt about the earth and nature and how they have understood it related to it and celebrated it in their literature mythology religion and art It demonstrates that no matter where on the planet we exist and no matter what time period we live we all have a profound connection to the earth from Book Jacket      **A History of the Earth and Animated Nature ...** Oliver Goldsmith, 1857      *The Breast of the Earth* Kofi Awoonor, 1983-06-01      Earth Addinell Hewson, 2023-06-13 Reprint of the original first published in 1872 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost      *Annals of the Earth* Charles Lincoln Phifer, 1890      **Mediating Between Heaven and Earth** C.L.
