nonhuman worlds Speaking to a matrix of concerns about politics and justice social movements matter and ontology everyday practice technoscience the production of knowledge and the human and nonhuman Papadopoulos suggests that the development of alterontologies would create more efficacious political and social organizing The International Drugs Trade Guy Arnold,2013-05-13 Examines the abuse of drugs in the West and the scope and value of the illegal drugs business and the failure of the drug enforcement programmes either to curtail the supply of drugs or to persuade users to abandon their habit **The Ashgate Research Companion to Nineteenth-Century Spiritualism and the Occult** Tatiana Kontou,2016-03-23 Critical attention to the Victorian supernatural has flourished over the last twenty five years Whether it is spiritualism or Theosophy mesmerism or the occult the dozens of book length studies and hundreds of articles that have appeared recently reflect the avid scholarly discussion of Victorian mystical practices Designed both for those new to the field and for experts this volume is organized into sections covering the relationship between Victorian spiritualism and science the occult and politics and the culture of mystical practices The Ashgate Research Companion to Nineteenth Century Spiritualism and the Occult brings together some of the most prominent scholars working in the field to introduce current approaches to the study of nineteenth century mysticism and to define new areas for research **The War We Never Fought** Peter Hitchens,2012-12-06 Again and again British politicians commentators and celebrities intone that The War on Drugs has failed They then say that this is an argument for abandoning all attempts to reduce drug use through the criminal law Peter Hitchens shows that in Britain there has been no serious war on drugs since 1971 when a Tory government adopted a Labour plan to implement the revolutionary Wootton report This gave cannabis the most widely used illegal substance a special legal status as a supposedly soft drug in fact Hitchens argues it is at least as dangerous as heroin and cocaine because of the threat it poses to mental health It began a progressive reduction of penalties for possession and effectively disarmed the police This process still continues behind a screen of falsely tough rhetoric from politicians Far from there being a war on drugs there has been a covert surrender to drugs concealed behind an official obeisance to international treaty obligations To all intents and purposes cannabis is legal in Britain and other major drugs are not far behind In *The War We Never Fought* Hitchens uncovers the secret history of the government s true attitude and the increasing recruitment of the police and courts to covert decriminalisation initiatives and contrasts it with the rhetoric Whatever and whoever is to blame for the undoubted mess of Britain s drug policy it is not prohibition or a war on drugs for neither exists *Novel insights in rehabilitation of neglect, 2nd Edition* Stefan Van Der Stigchel,Tanja Nijboer,2015-01-09 Hemispatial neglect is the failure to report respond to or orient to novel or meaningful stimuli presented in the contralesional visual field It constitutes one of the most invalidating neurological disorders that can occur after stroke It is therefore important to treat neglect as adequate as possible and much of the research dedicated to neglect therefore focuses on rehabilitation In this special topic you will find 29 articles on the rehabilitation of neglect This Research Topic has opened
