The Broadcast Communications Dictionary Lincoln Diamant, 1978 This is an authoritative dictionary with a distinguished editorial board representing all facets of communications and broadcasting A solid purchase for public academic or special libraries serving media programs Choice Broadcast Communications Dictionary Diamant, 1978-01-01 Broadcast Communications Dictionary Diamant, 1985-06-01 *The Broadcast Communications Dictionary* Lincoln Diamant, 1989-03-24 This is an authoritative dictionary with a distinguished editorial board representing all facets of communications and broadcasting A solid purchase for public academic or special libraries serving media programs Choice This revised and expanded third edition of Diamant's now classic *The Broadcast Communications Dictionary* contains almost three times as many entries as the original volume providing both beginning and experienced communications personnel with an invaluable lexicographical tool Hailed as highly recommended by *Millimeter* and a must by *Television Radio Age* The *Broadcast Communications Dictionary* is a unique guide to the technical slang and commonly used words that broadcast communicators and engineers use in English speaking countries everywhere Here completely cross referenced to British terminology are more than 5 000 terms currently in use in all areas of radio and television programming and production network and station operations broadcast equipment and engineering audio and video tape recording performing talent agency and client advertising procedures media usage research defense government trade and allied groups Among the entries new to the third edition are several hundred items generated by the development of computerization and satellite technology and a host of fresh definitions spawned by the accelerating expansion of cable television As in previous editions all entries are in alphabetical order Extensive cross referencing offers additional information where appropriate A brief up to date bibliography lists more detailed technical reference works in individual fields Logically organized easy to use and now extensively revised and expanded *The Broadcast Communications Dictionary* underlines the complex interrelationships among all spheres of contemporary communications activity It will be an indispensable resource for broadcasting and communications students as well as for those employed in production and broadcasting facilities nationwide *Dictionary of Broadcast Communications* Lincoln Diamant, 1991 This is an authoritative dictionary with a distinguished editorial board representing all facets of communications and broadcasting A solid purchase for public academic or special libraries serving media programs **Journalism** Jo A. Cates, 2004-05-30 *Journalism A Guide to the Reference Literature* is a critically annotated bibliographic guide to print and electronic sources in print and broadcast journalism The first edition was published in 1990 the second in 1997 It has been described as one of the critical reference sources in journalism today and it is a key bibliographic guide to the literature Choice magazine called it a benchmark publication for which there are no comparable sources The format is similar to the second edition What makes this edition significantly different is the separation of Commercial Databases and Internet Resources Commercial Databases includes standard fee based resources

The new chapter on Internet sources features Web based resources not included in the commercial databases chapter as well as portals other online files listservs newsgroups and Web logs blogs All chapters have been revised and there are significant revisions in Directories Yearbooks and Collections Miscellaneous Sources Core Periodicals Societies and Associations and Research Centers and Archives The second edition has 789 entries The third edition contains almost 1 000 entries James Carey of Columbia University who provided the foreword for the first two editions has updated his foreword for this edition

Routledge Revivals: Radio Broadcasting from 1920 to 1990 (1991) Diane Foxhill Carothers, 2016-11-10 First published in 1991 this book presents a comprehensive annotated bibliography of radio broadcasting Its eleven chapter categories cover almost the entire range of radio broadcasting with the exception of radio engineering due to its technical complexity although some of the historical volumes do encompass aspects thus providing background material Entries are primarily restricted to published books although a number of trade journals and periodicals are also included Each entry includes full bibliographic information including the ISBN or ISSN where available and an annotation written by the author with the original text in hand *Dictionary of Information Science and Technology* Carolyn Watters, 1992-02-25 Information science is the study of information phenomena including the acquisition storage and manipulation of data information and knowledge It is by nature an interdisciplinary field Researchers managers system users and students need access to tools terms and techniques that are spread out over a large literature in a number of different disciplines information retrieval database management office information systems information technology communication and networking relevant computer hardware and artificial intelligence This work facilitates the cross use terms from the various contributing sub areas of information science With definitions of one thousand terms in alphabetical order the volume provides a unified integrated and concise guide to the field Each term is annotated by one or more references to the literature Where possible the first reference directs the user to a basic or seminal discussion of the term and subsequent references show its usage in an information science related application This work will be an indispensable reference for students researchers and professionals Contains one thousand entries and more than 100 illustrations and tables Many entries include enough information examples diagrams and formulas to allow the reader to make use of the term model or algorithm in his or her own application An extensive bibliography more than 300 references guides the reader to the details of concepts described in the guide nearly every entry is annotated by one or more references both to seminal or basic discussions of the concept and to works that demonstrate its usage in an information science related application Each term is followed by a number key into the detailed subject outlines at the back of the book so that each item is given a context within a subject area Entries focus on fundamental concepts rather than specific technologies **Mass Communications Research Resources** Christopher H. Sterling, James K. Bracken, Susan B. Hill, 2016-05-06 This reference book is designed as a road map for researchers who need to find specific information about American mass communication as expeditiously as possible Taking a topical approach it

integrates publications and organizations into subject focused chapters for easy user reference The editors define mass communication to include print journalism and electronic media and the processes by which they communicate messages to their audiences Included are newspaper magazine radio television cable and newer electronic media industries Within that definition this volume offers an indexed inventory of more than 1 400 resources on most aspects of American mass communication history technology economics content audience research policy and regulation The material featured represents the carefully considered judgment of three experts two of them librarians plus four contributors from different industry venues The primary focus is on the domestic American print and electronic media industries Although there is no claim to a complete census of all materials on print journalism and electronic media what is available is now too vast for any single guide the most important and useful items are here The emphasis is on material published since 1980 though useful older resources are included as well Each chapter is designed to stand alone providing the most important and useful resources of a primary nature organizations and documents as well as secondary books and reports In addition online resources and internet citations are included where possible Encyclopedia of Journalism Christopher H.
