R. Hall, 1981 *Building the Siam-Burma Railway During World War-II* Tilak Raj Sareen, 2005 No subject created so much controversy during and after the Pacific war as the Japanese treatment of the Allied Prisoners of War P O W in flagrant violation of the Geneva Convention Whether it was due to the racial war carried out by the Japanese or was the outcome of the mistaken value of Bushido the question has never been resolved The harsh and brutal treatment of the P O W was fully demonstrated when the Japanese decided to utilize them for the construction of Siam Burma railway Driven like slaves and with semi starvation diet the Allied P O W were left with no stamina to fight tropical diseases As a result thousands of them died while working on Siam Burma Railway which came to be known as Railroad of Death A fictional account of the sufferings of the Allied P O W was made famous by Hollywood few years back in the film *The Bridge on the River Kwai* In this book the Author has reproduced the original reports to presents the factual details It is hoped that these reports will be usefull for the students studying the Japanese policy during the Second World War Into the Smother Ray Parkin, 1963 *The Burma-Siam Railway* Robert Hardie, 1984 **The Railway Times** , 1895 *Railroad to Burma* James Boyle, 1992 A 25 year old Australian James Boyle was one of thousands of prisoners of war who worked in inhuman conditions to build the Thailand Burma railway He was determined to record his experiences and those of his mates at the limits of human endurance **Railway Times** , 1895 **Prisoners of the Sumatra Railway** Lizzie Oliver, 2017-12-14 Prisoners of the Sumatra Railway is the first book to detail the experiences of British former prisoners of war POWs who were forced to construct a railway across Sumatra during the Japanese occupation It is also the first study to be undertaken of the life writing of POWs held captive by the Japanese during the Second World War and the transgenerational responses in Britain to this period of captivity This book brings to light previously unpublished materials including Exceptionally rare and detailed diaries notebooks and letters from the railway Memoirs from Sumatra including detailed recollections and post war

Railways and International Politics T.G. Otte, Keith Neilson, 2012-09-10 This new study brings together leading experts to show how the modern world began with the coming of the railway They clearly explain why it had a greater impact than any other technical or industrial innovation before and completely redefined the limits of the civilized world While the effect of railways on economic development is self evident little attention has been paid to their impact on international relations This is unfortunate for in the period from 1848 to 1945 railways were an important element in the struggle between the Great Powers This took many forms Often as in East Asia the competition for railway concessions reflected the clash of rival imperial interests The success or failure of this competition could determine which of the European Powers was to dominate and exploit the markets of China and Siam Just as often railways were linked with military matters Prussia s success in the wars of German unification depended on its strategic railways just as much as on the strength of its armies and the rail links remained a vital aspect of German military thinking before the First World War So too did they for the Russians whose vast Empire required rail links capable of moving the Tsarist army quickly and competently Just as importantly railways could be vital for Imperial defence as the British discovered on the North West frontier of India This book will be of much interest to students of international history military history and strategic studies

Kratoska, 2014-12-18 During the Pacific War the Japanese government used a wide range of methods to recruit workers for construction projects throughout the occupied territories Mistreatment of workers was a major grievance both in widely publicized cases such as the use of prisoners of war and forced Asian labor to construct the Thailand Burma Death Railway and in a very large number of smaller projects In this book an international group of specialists on the Occupation period examine the labor needs and the recruitment and use of workers whether forced military or otherwise throughout the Japanese empire This is the first study to look at Japanese labor policies comparatively across all the occupied territories of Asia during the war years It also provides a graphic context for examining Japanese colonialism and relations between the Japanese and the people living in the various occupied territories *Ray Parkin's Wartime Trilogy* Ray Parkin, 2023-06-20 These brilliant books hum with action adventure and courage Honestly and plainly written they are full of humanity and great wisdom Out of the Smoke tells of Ray's experiences as Action Chief Quartermaster in HMAS Perth which was sunk while engaging an overwhelming Japanese naval force in the Sunda Strait Two cruisers HMAS Perth and USS Houston fought until their ammunition was exhausted Thus defenceless and surrounded sunk by four torpedoes and gunfire It had been a night action desperate and determined until the inevitable end A small party of the survivors tried to sail a derelict lifeboat to safety only to land at a port in enemy hands In his Introduction to the book Sir Laurens van der Post describes Out of the Smoke as one of the great stories of war at sea Into the Smother tells direct from the author's diary of his fifteen months as a POW on the Burma Siam Thailand railway The construction of this railway remains one of history's most awful instances of man's inhumanity to man Ray documents with remarkable restraint the horrors and sufferings he and his comrades endured at the mercy of the cruel jungle and the Imperial Japanese Army The book has an appendix by Sir Edward Weary Dunlop to whose care Ray had entrusted his secret writings drawings and paintings when taken to Japan Into the Smother is impressive in its honesty and inspiring in its evocation of courage and endurance The Sword and the Blossom tells of Ray's last twelve months of captivity Shipped to Japan in an incredibly crowded derelict tramp steamer he and his comrades endured submarine attacks and weathered a typhoon with open hatches They were then taken to a POW camp at Ohama on the shores of Honshu where they worked in a coal mine under the Inland Sea With the dropping of the atomic bombs on Hiroshima and Nagasaki one just to the north of them the other just to the south the POWs found themselves free among a people who had held over them the power of life and death The Sword and the Blossom gives the reader a remarkable insight into the Japanese way of thinking and lights the ghastly experience

with magnificent prose These classic books are illustrated with Ray Parkin's evocative and detailed drawings and sketches made secretly at the time *In the Forest of No Joy: The Congo-Océan Railroad and the Tragedy of French Colonialism* J. P. Daughton, 2021-07-20 The epic story of the Congo Ocean railroad and the human costs and contradictions of modern empire The Congo Ocean railroad stretches across the Republic of Congo from Brazzaville to the Atlantic port of Pointe Noir It was completed in 1934 when Equatorial Africa was a French colony and it stands as one of the deadliest construction projects in history Colonial workers were subjects of an ostensibly democratic nation whose motto read Liberty Equality Fraternity but liberal ideals were savaged by a cruelly indifferent administrative state African workers were forcibly conscripted and separated from their families and subjected to hellish conditions as they hacked their way through dense tropical foliage a forest of no joy excavated by hand thousands of tons of earth in order to lay down track blasted their way through rock to construct tunnels or risked their lives building bridges over otherwise impassable rivers In the process they suffered disease malnutrition and rampant physical abuse likely resulting in at least 20 000 deaths In the Forest of No Joy captures in vivid detail the experiences of the men women and children who toiled on the railroad and forces a reassessment of the moral relationship between modern industrialized empires and what could be called global humanitarian impulses the desire to improve the lives of people outside of Europe Drawing on exhaustive research in French and Congolese archives a chilling documentary record and heartbreaking photographic evidence J P Daughton tells the epic story of the Congo Ocean railroad and in doing so reveals the human costs and contradictions of modern empire
