## **The Caliban Shore The Tale Of The Grosvenor Castaways:**

**The Caliban Shore** Stephen Taylor, 2005 Stephen Taylor tells the extraordinary tale of a famous 18th century shipwreck. He reveals the misunderstandings that led to the tragedy, tells the story of those who escaped and unravels the mystery of those who stayed. **Caliban's Shore: The Wreck of the Grosvenor and the Strange Fate of Her Survivors** Stephen Taylor, 2005-07-17. Recounts the 1782 shipwreck of one of the East India Company's most prestigious ships, describing how ninety-one crew members and thirty-four wealthy passengers found themselves stranded on the unexplored coast of southeast Africa. *Caliban's Shore: The Wreck of the Grosvenor and the Strange Fate of Her Survivors* Stephen Taylor, 2005-07-17. This incredible true story reads like the wildest fiction. Booklist. In the summer of 1783, the grandees of the East India Company were horrified to learn that one of their finest ships, the 741-ton Grosvenor, had been lost on the wild and unexplored coast of southeast Africa. Astonishingly, most of those on board reached the shore safely: 91 members of the crew and 34 wealthy high-born passengers, including women and children. They were hundreds of miles from the nearest European outpost, and they were not alone. They surveyed one another with mutual incomprehension: on the one hand, the dishevelled castaways; on the other, black warriors with high conical hairstyles daubed with red mud. Drawing upon unpublished material and new research, Stephen Taylor pieces together the strands of this compelling saga, sifting the myths from a reality that is no less gripping. Full of unexpected twists, *Caliban's Shore* takes the reader to the heart of what is now South Africa to analyze the misunderstandings that led to tragedy, to tell the story of those who returned and to unravel the mystery of those who stayed. **Reading for Water** Isabel Hofmeyr, Charne Lavery, Sarah Nuttall, 2023-09-12. An experiment in reading for water, this book offers students and teachers a toolkit of methods that follow the sensory, political, and agential power of water across literary texts. The chapters in this book follow rivers, rain, streams, tunnels, and sewers; connect atmospheric, surface, and ground water; describe competing hydrological traditions and hydro epistemologies. They propose new literary regions defined less by nation and area than by coastlines, river basins, monsoons, currents, and hydro cosmologies. Whether thinking along water courses below the water line or through the fall of precipitation, *Reading for Water* moves laterally, vertically, and contrapuntally between different water worlds and hydro imaginaries. Addressing southern African and Caribbean texts, the collection draws on a range of elementally inclined literary approaches: critical oceanic studies, new materialisms, coastal and hydrocritical approaches, hydrocolonialism, black hydropoetics, and atmospheric methods. The chapters in this book were originally published as a special issue of *Interventions: Transformations, Ideology, and the Real in Defoe's Robinson Crusoe and Other Narratives*. Maximillian E. Novak, 2014-10-24. This book explores significant problems in the fiction of Daniel Defoe. Maximillian E. Novak investigates a number of elements in Defoe's work by probing his interest in rendering of reality, what Defoe called the Thing itself. Novak examines Defoe's interest in the relationship between prose fiction and painting, as well as the various ways in which Defoe's works were read by contemporaries and by those novelists.

who attempted to imitate and comment upon his *Life and Strange Surprising Adventures of Robinson Crusoe* decades after its publication In this book Novak attempts to consider the uniqueness and imaginativeness of various aspects of Defoe's writings including his way of evoking the seeming inability of language to describe a vivid scene or moments of overwhelming emotion his attraction to the fiction of islands and utopias his gradual development of the concepts surrounding Crusoe's cave his fascination with the horrors of cannibalism and some of the ways he attempted to defend his work and serious fiction in general Most of all *Transformations: Ideology and the Real in Defoe's Robinson Crusoe and Other Narratives* establishes the complexity and originality of Defoe as a writer of fiction **The Sherwill Journals, 1840-1843**

June Harvey, 2020-03-06 This volume brings together newly discovered personal journals from the mid 19th century presented here with their original illustrations The youthful Sherwill brothers inheriting a family flair for science and adventure from their 18th century astronomer grandfather Dr James Lind and their mountaineering father recorded their colonial travels between 1840 and 1843 These years represent a vital period of change in British domestic and colonial history which provides the background to their minute observations of the flora fauna and inhabitants of Southern Africa and the oceans on either side of it One brother sets out to explore the Eastern Cape from Port Elizabeth to Colesville on the Orange River following in the footsteps of earlier travellers reporting on a vast land of seemingly empty veldt which is already a deep bone of contention between Bushman Bantu Boer and British settler The other describes his eventful voyage home to England from Calcutta on a sailing ship with unusual Victorian self analysis **Out of the Depths** Alan G.

Jamieson, 2024-08-12 A highly illustrated voyage through shipwrecks ancient and contemporary *Out of the Depths* explores all aspects of shipwrecks across four thousand years examining their historical context and significance showing how shipwrecks can be time capsules and shedding new light on long departed societies and civilizations Alan G Jamieson not only informs readers of the technological developments over the last sixty years that have made the true appreciation of shipwrecks possible but he also covers shipwrecks in culture and maritime archaeology their appeal to treasure hunters and their environmental impacts Although shipwrecks have become less common in recent decades their implications have become more wide ranging since the 1960s foundering supertankers have caused massive environmental disasters and in 2021 the blocking of the Suez Canal by the giant container ship *Ever Given* had a serious effect on global trade **At the Fireside, Vol. 3** Roger Webster, 2005 This collection contains true accounts of people events and incidents that shaped the future of South Africa Now no longer skewered by political agendas they may be correctly told bringing history back into balance **Shipwreck Narratives: Out of our Depth** Michael Titlestad, 2022-01-01 Shipwreck Narratives *Out of Our Depth* studies both the representation of shipwreck and the ways in which shipwrecks are used in creative philosophical and political works The first part of the book examines historical shipwreck narratives published over a period of two centuries and their legacies Michael Titlestad points to a range of narrative conventions literary tropes and questions concerning

representation and its limits in narratives about these historic shipwrecks The second part engages novels poems films artwork and musical composition that grapple with shipwreck Collectively the chapters suggest the spectacular productivity of shipwreck narrative the multiple ways in which its concerns and logic have inspired anxious creativity in the last century Titlestad recognizes in weaving in his personal experience that shipwreck the destruction of form and the advent of disorder could be seen not only as a corollary for his own neurological disorder but also an abiding principle in tropology This book describes how shipwreck has figured in texts from historical narratives to fiction film and music as an analogue for emotional psychological and physical fragmentation
