Wilson,1995

The classics of Western culture are out not being taught replaced by second rate and Third World texts White males are a victimized minority on campuses across the country thanks to affirmative action Speech codes have silenced anyone who won t toe the liberal line Feminists wielding their brand of sexual correctness have taken over These are among the prevalent myths about higher education that John K Wilson explodes The phrase political correctness is on everyone s lips on radio and television and in newspapers and magazines The phenomenon itself however has been deceptively described Wilson steps into the nation s favorite cultural fray to reveal that many of the most widely publicized anecdotes about PC are in fact more myth than reality Based on his own experience as a student and in depth research he shows what s really going on beneath the hysteria and alarmism about political correctness and finds that the most disturbing examples of thought policing on campus have come from the right The image of the college campus as a gulag of left wing totalitarianism is false argues Wilson created largely through the exaggeration of deceptive stories by conservatives who hypocritically seek to silence their political opponents Many of today s most controversial topics are here multiculturalism reverse discrimination speech codes date rape and sexual harassment So are the well recognized protagonists in the debate Dinesh D Souza William Bennett and Lynne Cheney among others In lively fashion and in meticulous detail Wilson compares fact to fiction and lays one myth after another to rest revealing the double standard that allows conservative correctness on college campuses to go unchallenged

*Sex, Race, and Merit* Faye J. Crosby, Cheryl VanDeVeer, 2000 Traces the history of this divisive national issue as reflected in the writings of key opinion makers and in public documents     Disciplining Feminism Ellen Messer-Davidow, 2002-01-28 A cultural studies account of the changes produced in feminism as it became part of the academy and of the highly

orchestrated attack on higher education by the right wing      Enhancing Campus Capacity for Leadership Adrianna Kezar, Jaime Lester, 2011-07-26 Enhancing Campus Capacity for Leadership explores a mostly untapped resource on college campuses the leadership potential of staff and faculty at all levels This book contributes to the growing tradition of giving voice to grassroots leaders offering a unique contribution by honing in on leadership in educational settings In an increasingly corporatized environment grassroots leadership can provide a balance to the prestige and revenue seeking impulses of campus leaders act as a conscience for institutional operations with greater integrity create changes related to the teaching and learning core build greater equity improve relationships among campus stakeholders and enhance the student experience The text documents the stories of grassroots leaders including the motivation and background of these bottom up beacons the tactics and strategies that they use the obstacles they overcome and the ways that they navigate power and join with formal authority This investigation also showcases how grassroots leaders in institutional settings particularly more marginalized groups can face significant backlash While we like to believe that organizations are civil and humane the stories in this book demonstrate a dark side with which we must reckon The book ends with a discussion of the future of leadership on college campuses examining the possibilities for shared and collaborative forms of leadership and governance      **Quiet Rebels** Mary Jane Mossman, 2024-05-16 It s a girl the Ontario press announced as Canada s first

Ulrike Schultz, Gisela Shaw, Margaret Thornton, Rosemary Auchmuty, 2021-02-25 In the past fifteen years there has been a marked increase in the international scholarship relating to women in law The lives and careers of women in legal practice and the judiciary have been extensively documented and critiqued but the central conundrum remains Does the presence of women make a difference What has been largely overlooked in the literature is the position of women in the legal academy although central to the changing culture To remedy the oversight an international network of scholars embarked on a

comparative study which resulted in this path breaking book The contributors uncover fascinating accounts of the careers of the academic pioneers as well as exploring broader theoretical issues relating to gender and culture The provocative question as to whether the presence of women makes a difference informs each contribution     Challenging Racism in Higher Education Mark Chesler,Amanda E. Lewis,James E. Crowfoot,2005-08-11 Challenging Racism in Higher Education provides conceptual frames for understanding the historic and current state of intergroup relations and institutionalized racial and other forms of discrimination in the U S society and in our colleges and universities Subtle and overt forms of privilege and discrimination on the basis of race gender socioeconomic class sexual orientation religion and physical ability are present on almost all campuses and they seriously damage the potential for all students to learn well and for all faculty and administrators to teach and lead well This book adopts an organizational level of analysis of these issues integrating both micro and macro perspectives on organizational functioning and change It concretizes these issues by presenting the voices and experiences of college students faculty and administrators and linking this material to research literature via interpretive analyses of people s experiences Many examples of concrete and innovative programs are provided in the text that have been undertaken to challenge ameliorate or reform such discrimination and approach more multicultural and equitable higher educational systems This book is both analytic and practical in nature and readers can use the conceptual frames reports of informants actual experiences and examples of change efforts to guide assessment and action programs on their own campuses
