**Czech and Central European Yearbook of Arbitration - 2012: Party Autonomy versus Autonomy of Arbitrators** Alexander J. Bělohávek, Prof. JUDr. Naděžda Rozehnalova, 2012-04-01 Following the first volume of the Czech Central European Yearbook of Arbitration CYArb the second volume of CYArb thematically concurs that the points of friction between arbitration as an alternative dispute resolution mechanism are the freedom parties have in setting up the methods and mechanisms for the dispute settlement and the state organized court proceedings with its obligatory jurisdiction and strict rules The state organized court proceedings guarantee the firm borders and equality of means regarding the protection of the fundamental rights of the parties during the proceedings The primary focus of CYArb is the issue of autonomy throughout the arbitration process The principle of autonomy represents the backbone of arbitration as the ADR mechanism It provides to the parties the necessary freedom to stipulate the adequate method for the solution of the dispute On the other hand the autonomous approach of the parties creates an informal relationship among the subjects

involved in dispute resolution The informality provides room for the autonomy of the arbitrators or that of the arbitral tribunal be it in ad hoc or institutional proceedings on how to advance the dispute The CYArb project aims to highlight the potential pitfalls of each of the categories of the autonomous parties present during the various types of arbitral proceedings in order to analyze the role of autonomy as a leading principle in the ADR mechanisms in its mutual interaction The topic therefore provides a wide spectrum of interesting issues to be addressed from the practice and academic points of view particularly with regard to the comparison of the specific national and international approaches of the permanent arbitral courts The project concept and editors are drawn from Czech Yearbook of International Law CYIL The ideological similarity between CYIL and CYArb is primarily reflected in its concept The third volume of CYIL is in preparation and will be published by JURIS The CYArb annual volume will be published exclusively in English with abstracts of the articles provided in Czech Slovak French German Polish Russian and Spanish The website dedicated to the project [www.czechyearbook.org](http://www.czechyearbook.org) is operational in a total of 16 languages A vital part of the project is the cooperation with leading figures and institutes in the field In the Czech Republic endeavor has the cooperation of the particular departments of the following institutions University of West Bohemia in Pilsen Faculty of Law Department of International Law Department of Constitutional Law Masaryk University in Brno Faculty of Law Department of International and European Law V B TU Ostrava Faculty of Economics Department of Law Institute of State and Law Academy of Sciences of the Czech Republic In the Slovak Republic Pavol Jozef af rik University in Ko ice Faculty of Law Department of Commercial Law Non academic institutions participating in the CYArb Project International Arbitral Centre of the Austrian Federal Economic Chamber Vienna Court of International Commercial Arbitration attached to the Chamber of Commerce and Industry of Romania Bucharest Arbitration Court attached to the Hungarian Chamber of Commerce and Industry Budapest Arbitration Court attached to the Economic Chamber of the Czech Republic and Agricultural Chamber of the Czech Republic Prague Arbitration Court attached to the Czech Moravian Commodity Exchange Kladno Czech Republic ICC National Committee Czech Republic The Court of Arbitration at the Polish Chamber of Commerce in Warsaw *Department of State Wireless Bulletin*, 1951-08
