The Cargo Cult:

The Cargo Cult Kakesek Peniel, 1969 *The cargo cult* Kenelm Burridge, 1962 **Cargo, Cult, and Culture Critique** Holger Jebens, 2004-01-01 This collection of original essays is based on fieldwork in Melanesia Fiji Australia and Indonesia by scholars who are influential in the contemporary debate on cargo cults *Cargo, Cult, and Culture Critique* Holger Jebens, 2004-09-30 Cargo cults have long exerted a remarkable attraction on Westerners and the last decade has seen the publication of much new work on the subject This collection of original essays is based on fieldwork in Melanesia Fiji Australia and Indonesia by scholars who are influential in the contemporary debate on cargo Conceived as a reader for undergraduate and graduate courses the volume offers an up to date view of the subject and the debates it arouses among contemporary anthropologists Some contributors plead for the abolition of cargo because of its troublesome implications but also because in the authors view cargo cults do not exist as identifiable objects of study Others argue that it is precisely this troublesome nature that makes the term a useful analytical tool that should be welcomed rather than rejected By delineating and substantiating key issues and positions in this lively and ongoing debate this volume underscores and refines the contemporary reevaluation of cargo cults Scholars of the Pacific region and others interested in new religious movements should find this volume both enlightening and compelling Contributors Nils Bubandt Vincent Crapanzano Douglas M Dalton Elfriede Hermann Holger Jebens Martha Kaplan Karl Heinz Kohl Stephen C Leavitt Lamont Lindstrom Ton Otto Joel Robbins Jaap Timmer Robert Tonkinson *The Cargo Cult* John Thorpe, 1972 *Cargo Cult as Theater* Dorothy K. Billings, 2002-05-28 Why did half the people on New Hanover a small island north of New Guinea vote for Lyndon Baines Johnson to be their ruler in 1964 Dorothy K Billings believes that this sort of action seen in New Guinea and other parts of Melanesia is part of the cargo cult phenomenon or micronationalist movements which are principally regarded as responses to European colonialism Based on thirty five years of fieldwork and observation *Cargo Cult as Theater* demonstrates how the Johnson Cult originally mocked and ridiculed by the outside world should be seen as an ongoing political performance meant to consolidate local power and advance economic development This fascinating study follows the changes in this community ritual from the time of the white master to post colonial self determination and reveals the history of this people s attempt to gain intellectual moral economic and political control over their own lives *Cargo Cult* Ryan M. Schoelerman, 2005

Cargo Cult Lindstrom, 2018 *Occidentalism : Images of the West* James G. Carrier, 1995-04-13 This is an investigation of Western cultural identity It shows how people s images of themselves and others reflect the power that different groups in a society have to shape these images The contributors describe these images in Western academic writing popular Western culture and societies outside the West in this counterpart to Edward Said s *Orientalism* *Occidentalism* is an investigation of images of Western cultural identity Edward Said s *Orientalism* revolutionized Western understanding of non Western cultures by showing how Western projected images shaped the Occidental of the Orient but those who follow Said have not

until now reflected that understanding back onto Western societies Occidentalism shows how images of the West shape people's conceptions of themselves and others and how these images are in turn shaped by members of Western and non-Western societies alike The contributors describe and explicate these images in a variety of areas from Western academic writing to popular Western culture from societies within and outside the West to show how power and conflict shape such conceptions

The Contextualization of Cargo Cult Beliefs and the Christian Message in Irian Jaya, Indonesia Michael L. McDowell, 1994

A comparison between two different approaches in Cargo cult analysis Lee Hooper, 2013-09-23

Studienarbeit aus dem Jahr 2011 im Fachbereich Ethnologie Volkskunde Note 1 Massey University New Zealand Sprache Deutsch Abstract Since their appearance and documentation in the South Pacific anthropologists have found it difficult to agree on how to define cargo cults This is due to the ambiguity of whether the practice constitutes a deviation from normal social relations and the implicit derogative nature of the word cult By first outlining a description of what cargo cults are and how they have been classically interpreted a comparison will be made between the theories of Leavitt 2000 and McDowell 2000 two theorists that have diverged from the classic writings on the topic Through explaining both theorists work and comparing them it will be concluded that a dualistic approach is necessary in gaining the most complete analysis of the cargo phenomenon and that substituting the term cargo cult with cargoism allows for a more objective approach in analysing this practice

Language Planning from Practice to Theory Robert B. Kaplan, Richard B. Baldauf, 1997-01-01 Language Planning from Practice to Theory examines and reviews the field of language policy and planning In the first section of the book language policy and planning definitions current practices goals and ways of thinking are discussed as a foundation for understanding current practice in the discipline The central elements of language policy and planning practice are then described from two perspectives In the second section the methodology for collecting language planning data is outlined and the key cross societal issues of language in education planning literacy and economics in language planning are discussed In the third section case studies related to language and power bilingualism and status and specific purpose issues in language planning are covered The final two chapters draw together the critical issues and problems which have arisen from current practice and which must be considered in building a theory of the discipline A reference appendix to language planning in national situations is included The book provides the only up to date overview and review of the field of language policy and planning and challenges language planners to think more critically about their discipline Since language will be planned there is a need to consider how it will be done

Thinking about Society: Theory and Practice Ian Jarvie, 2012-12-06 I C Jarvie was trained as a social anthropologist in the center of British social anthropology the London School of Economics where Bronislaw Malinowski was the object of ancestor worship Jarvie s doctorate was in philosophy however under the guidance of Karl Popper and John Watkins He changed his department not as a defector but as a rebel attempting to exorcize the ancestral spirit He criticized the method of participant obser vation not as useless but as not comprehensive it is neither necessary nor sufficient for the making of certain contributions to anthropology rather it all depends on the problem situation And so Jarvie remained an anthro pologist at heart who in addition to some studies in rather conventional anthropological or sociological molds also studied the tribe of social scien tists but also critically examining their problems especially their overall rather philosophical problems but not always so a few of the studies in cluded in this volume exemplify his work on specific issues whether of technology or architecture or nationalism in the academy or moviemaking or even movies exhibiting excessive sex and violence These studies attract his attention both on account of their own merit and on account of their need for new and powerful research tools such as those which he has forged in his own intellectual workshop over the last two decades
