Young People and Church Since 1900 Naomi Thompson,2017-08-04 When the Sunday School pioneers saw a need in their communities in the late eighteenth century their response provoked a 200 year movement These early Sunday Schools met a clear social need that for basic education By the 1960s they faced rapid decline a rigid institution amidst societal change Over recent decades Christian youth work has emerged as a response to further youth decline within churches Many youth workers engage with young people s self perceived needs by delivering open access youth provision in their local communities alongside more specifically Christian activities Tensions emerge over whether the youth worker s role is to serve community or church needs with churches often emphasising the desire to see young people in services Drawing together historical and contemporary research *Young People and Church Since 1900* identifies patterns and change in young people s engagement with organised Christianity across time Through this it provides a unique analysis of the engagement and exclusion of young people in three key time periods 1900 1910 1955 1972 and the present day Whilst much commentary on religious decline has focused on changes external to churches this text draws out the internal decisions and processes that have affected the longevity of Christianity in England This book will be of interest to researchers and scholars of young people and Christianity in the twentieth century and today as well as youth ministry students and practitioners and those interested in youth decline in churches more widely

Igniting the Caribbean's Past Bonham C. Richardson,2005-12-15 Unlike the earthquakes and hurricanes that have influenced Caribbean history the region s fires have almost always been caused by humans Geographer Bonham C Richardson explores the effects of fire in the social and ecological history of the British Lesser Antilles from the British Virgin Islands south to Trinidad Focusing on the late nineteenth century leading to the 1905 withdrawal of British military forces from the region Richardson shows how fire lit social upheavals served as forerunners of political independence movements Drawing on Caribbean and London archives as well as years of fieldwork Richardson examines how villagers used modified and contemplated fire in part to vent their frustrations with a savage economic depression and social and political inequities imposed from afar He examines fire in all its forms from protest torches to sugarcane fires that threatened the islands economic staple Richardson illuminates a neglected period in Caribbean history by showing how local uses of fire have been catalysts and even causes of important changes in the region

The Purpose of Intervention Martha

Finnemore,2013-01-14 Violence or the potential for violence is a fact of human existence Many societies including our own reward martial success or skill at arms The ways in which members of a particular society use force reveal a great deal about

the nature of authority within the group and about its members priorities In *The Purpose of Intervention* Martha Finnemore uses one type of force military intervention as a window onto the shifting character of international society She examines the changes over the past 400 years about why countries intervene militarily as well as in the ways they have intervened It is not the fact of intervention that has altered she says but rather the reasons for and meaning behind intervention the conventional understanding of the purposes for which states can and should use force Finnemore looks at three types of intervention collecting debts addressing humanitarian crises and acting against states perceived as threats to international peace In all three she finds that what is now considered obvious was vigorously contested or even rejected by people in earlier periods for well articulated and logical reasons A broad historical perspective allows her to explicate long term trends the steady erosion of force s normative value in international politics the growing influence of equality norms in many aspects of global political life and the increasing importance of law in intervention practices
