Garth Ball,2025-07-29 Rhythms of Reformation explores how the COVID 19 pandemic exposed the cracks in a Sunday centric consumer driven church culture and awakened a call to return to Christ s original heartbeat of discipleship It argues that the pandemic was not a disaster to lament or an interruption to endure but a catalyst for a profound reformation of the church Blending personal story with theological reflection this book follows the author s leadership journey through the pandemic engaging a broad range of literature to offer insight for navigating Spirit led seasons of change These seasons however need not be limited to times of crisis they can become intentional patterns that leaders cultivate shaping churches continually around the biblical priority of disciple making This book is especially helpful for current and emerging church leaders who sense the winds of change but lack a clear blueprint for navigating them A Treatise on Christian Banking Morten

Bosterud,2022-08-01 From a moral perspective all banking practice and theory can be seen as value driven Therefore there will be no such thing as value neutral banking activities and the application of Christian ethical and pastoral principles adds insights to the field of banking for all its involved stakeholders This book contributes to the specific scientific discourse of practical theology as this typically appears within the subfields of ethics and pastoral studies Christian ethics and pastoral principles as applied in banking make up a largely neglected area in the wider academic discourse found within practical theology and the research presented in this book contributes new knowledge to the field with particular emphasis on banking practice It is expected that the theories presented herein will be of interest for other scholars not only within the realm of practical theology but also in a cross domain perspective where scholars in a broad field of disciplines may find the research and academic positions of interest Such academic fields would include economics finance business administration sociology history anthropology and perhaps more This expectation may not least be derived from the increasing focus on Corporate Social Responsibility CSR as this has emerged over the last decades within the wider business realm in general whence the world of banking has followed suit Alongside this development an emergence of Islamic banking has been seen which has showed substantial growth and success **How to Become a Creative Church Leader** John Nelson,2008-02-28 A
