## **Skills Of Management:**

*Management Skills* W.T. Singleton, 2013-03-09 w T SINGLETON THE CONCEPT This is the third in a series of books devoted to the study of real skills The topic is management A book on social skills is still to come and it might seem that the sequence should be reversed on the grounds that social skills are obviously one element in management skills but it is appropriate to deal with management first on the criterion of increasing complexity Management skills are easier to understand than general social skills This is because the defining characteristic of a skill is a purpose The purpose of organizations in which managers operate and the tasks in which they are engaged are not easy to define but they are certainly less obscure than are the more general purposes of communities and people interactions in which the complete range of social skills is practised Skills like purposes are inherently to do with people It follows that the skills view of management will be as a people based activity Individuals carry out management tasks and these tasks always involve other individuals of whom some are subordinate some superior and some equivalent within the hierarchy of the particular management organization The concept of a hierarchy is as central to management as it is to skills The alternative to hierarchy is anarchy Management is not solely concerned with people *Develop Management Skills* James Carlopio, Graham Andrewartha, David Whetten, Kim Cameron, 2012-03-23 Develop the personal interpersonal and group skills vital to achieving outstanding success in today's workplace with *Developing Management Skills A Comprehensive Guide for Leaders* Carlopio's hallmark five step learning approach self assessment learning analysis practice and application and its modular structure help you tailor your study to the areas you need to focus on This practical hands on style resources incorporates in text exercises and role playing assignments and is further supported by a Companion Website that includes self assessment exercises and additional online chapters on communication skills *Developing Management Skills 5th Edition* is suitable for undergraduate or post graduate courses with a specific focus on managerial skills such as capstone courses leadership or communication skills It is also well suited to corporate professional development training courses or simply as a resource for professionals seeking to become better managers Overall it is an excellent mix of theory and practical reality I congratulate the authors for their valuable and ongoing contribution to management education and development in the Asia Pacific region Peter J Dowling PhD LFAHRI FANZAM Professor of International Management and Strategy La Trobe University Melbourne
