Sustainability David Mollica,2017-03-02 Sustainability is one of the key concepts underlying our thinking about corporate responsibilities particularly with respect to the environment and inter generational justice but also in relation to corporate governance and the long term economic viability The advantages of the discourse of Sustainability are that it brings together contemporary economic and moral imperatives in the context of scientific knowledge Its disadvantages relate to its open ended content its systematic ambiguity and the internal tensions between economic growth human survival and global justice The essays in this volume reflect these strengths and weaknesses from a variety of viewpoints economic scientific social and philosophical They illustrate and illuminate the varied and contested content and utility of this currently popular concept and point to its multiple implications for the development of corporate responsibilities **Science Fiction and Fantasy Literature, Vol 1** R. Tropical Montane Cloud Forests L. A. Bruijnzeel,F. N. Scatena,L. S. Hamilton,2011-01-06 This volume represents a uniquely comprehensive overview of our current knowledge on tropical montane cloud forests 72 chapters cover a wide spectrum of topics including cloud forest distribution climate soils biodiversity hydrological processes hydrochemistry and water quality climate change impacts and cloud forest conservation management and restoration The final chapter presents a major synthesis by some of the world s leading cloud forest researchers which summarizes our current knowledge and considers the sustainability of these forests in an ever changing world This book presents state of the art knowledge concerning cloud forest occurrence and status as well as the biological and hydrological value of these unique forests The presentation is academic but with a firm practical emphasis It will serve as a core reference for academic researchers and students of environmental science and ecology as well as practitioners natural resources management forest conservation and decision makers at local national and international levels **StarBriefs 2001** ,2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer astronomers and related

space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions
