the Caribbean and Latin America However since the 1980s a handful of studies has looked further and has compared American slavery with European forms of unfree and nominally free labor Building on this innovative scholarship this book treats the U S peculiar institution as part of both an Atlantic and a wider Euro American world It shows how the Euro American context is no less crucial than the Atlantic one in understanding colonial slavery and the American Revolution in an age of global enlightenment reformism and revolutionary upheavals the Cotton Kingdom s heyday in a world of systems of unfree labor and the making of radical Abolitionism and the occurrence of the American Civil War at a time when nationalist ideologies and nation building movements were widespread

Sensibility and the American Revolution

Sarah Knott,2012-12-01 In the wake of American independence it was clear that the new United States required novel political forms Less obvious but no less revolutionary was the idea that the American people needed a new understanding of the self Sensibility was a cultural movement that celebrated the human capacity for sympathy and sensitivity to the world For individuals it offered a means of self transformation For a nation lacking a monarch state religion or standing army sensibility provided a means of cohesion National independence and social interdependence facilitated one another What Sarah Knott calls the sentimental project helped a new kind of citizen create a new kind of government Knott paints sensibility as a political project whose fortunes rose and fell with the broader tides of the Revolutionary Atlantic world Moving beyond traditional accounts of social unrest republican and liberal ideology and the rise of the autonomous individual she offers an original interpretation of the American Revolution as a transformation of self and society

Sears, 2015-11-16 In this landmark essay collection twelve contributors chart the contours of current scholarship in the field of slavery studies highlighting three of the discipline's major themes commodification community and comparison and indicating paths for future inquiry New Directions in Slavery Studies addresses the various ways in which the institution of slavery reduced human beings to a form of property From the coastwise domestic slave trade in international context to the practice of slave mortgaging to the issuing of insurance policies on slaves several essays reveal how southern whites treated slaves as a form of capital to be transferred or protected An additional piece in this section contemplates the historian's role in translating the fraught history of slavery into film Other essays examine the idea of the slave community an increasingly embattled concept born of revisionist scholarship in the 1970s This section's contributors examine the process of community formation for black foreigners the crucial role of violence in the negotiation of slaves sense of community and the effect of the Civil War on slave society A final essay asks readers to reassess the long standing revisionist emphasis on slave agency and the ideological burdens it carries with it Essays in the final section discuss scholarship on comparative slavery contrasting American slavery

with similar less restrictive practices in Brazil and North Africa One essay negotiates a complicated tripartite comparison of secession in the United States Brazil and Cuba while another uncovers subtle differences in slavery in separate regions of the American South demonstrating that comparative slavery studies need not be transnational New Directions in Slavery Studies provides new examinations of the lives and histories of enslaved people in the United States *The Culture and Commerce of the Early American Novel* Stephen Shapiro, 2010-11 Taking his cue from Philadelphia born novelist Charles Brockden Brown's *Annals of Europe and America* which contends that America is shaped most noticeably by the international struggle between Great Britain and France for control of the world trade market Stephen Shapiro charts the advent decline and reinvigoration of the early American novel That the American novel sprang so unexpectedly into published existence during the 1790s may be a symptom of the beginning of the end of Franco-British supremacy and a reflection of the power of a middle class riding the crest of a new world economic system Shapiro's world systems approach is a relatively new methodology for literary studies but it brings two particularly useful features to the table First it refines the conceptual frameworks for analyzing cultural and social history such as the rise in sentimentalism in relation to a long wave economic history of global commerce second it fosters a new model for a comparative American Studies across time Rather than relying on contiguous time a world systems approach might compare the cultural production of one region to another at the same location within the recurring cycle in an economic reconfiguration Shapiro offers a new way of thinking about the causes for the emergence of the American novel that suggests a fresh way of rethinking the overall paradigms shaping American Studies **Migrating Words, Migrating Merchants, Migrating Law**, 2019-11-26 *Migrating Words Migrating Merchants Migrating Law* examines the connections that existed between merchants' journeys the languages they used and the development of commercial law in the context of late medieval and early modern trade The book edited by Stefania Gialdroni Albrecht Cordes Serge Dauchy Dave De Ruyscher and Heikki Pihlajamäki takes advantage of the expertise of leading scholars in different fields of study in particular historians legal historians and linguists Thanks to this transdisciplinary approach the book offers a fresh point of view on the history of commercial law in different cultural and geographical contexts including medieval Cairo Pisa Novgorod Lebeck early modern England Venice Bruges nineteenth century Brazil and many other trading centers Contributors are Cornelia Aust Guido Cifoletti Mark R Cohen Albrecht Cordes Maria Fusaro Stefania Gialdroni Mark H Berlein Uwe Israel Bart Lambert David von Mayenburg Hanna Sonkajärvi and Catherine Squires **Emancipation and the remaking of the British Imperial world** Catherine Hall, Nicholas Draper, Keith McClelland, 2015-11-01 Slavery and the slavery business have cast a long shadow over British history In 1833 abolition was heralded as evidence of Britain's claim to be the modern global power Yet much is still unknown about the significance of the slavery business and emancipation in the formation of modern imperial Britain This book engages with current work exploring the importance of slavery and slave ownership in the re-making of the British imperial world after
