Terrorism And Hostage Negotiations Abraham Miller, 2019-07-11 How effective are the methods currently used to deal with hostage situations This study attempts to answer that question by examining the ways in which terrorists manipulate the hostage barricade tactic one of the most formidable and frightening devices in their arsenal and by analyzing the response of law enforcement officers and policymakers to its use Drawing on case materials and interviews with high level decision makers both in the United States and abroad who are involved with domestic and international terrorist operations Professor Miller analyzes the political and psychological motifs of hostage barricade dramas He then looks at terrorism particularly political terrorism within the broader theoretical context of the general study of political violence and the operational concerns of public decision makers and law enforcement personnel *Terrorism And Global Security* Louis Rene Beres, 2019-07-09 The enormous potential for destruction that lies latent in nuclear technology inevitably gives rise to the possibility of nuclear terrorism the use of nuclear explosives or radioactivity by insurgent groups Professor Beres considers the factors that might foster such terrorism the forms it might take and the probable consequences of each form He then identifies a coherent strategy of counternuclear terrorism one that embraces both technological and behavioral measures that suggests policies for deterrence and situation management on both national and international levels and that points toward a major refashioning of world order *The Military and Negotiation* Deborah Goodwin, 2004-11-23 A new investigation of the role of the modern soldier diplomat and the nature of military negotiation in comparison with negotiation in other key contexts This new book presents a detailed analysis of the role of the military in current operations as negotiators and liaison workers in the field It shows how very few in the academic world are writing on this specific role of the military and the nature of negotiation in this situation and such a volatile context This publication is a first in this context and has a keen audience in light of the current world order This study breaks new ground in analyzing the nature of military negotiation in relation to more generic forms of negotiation and assessing the role of the modern soldier diplomat in recent deployments around the world The author is an academic working within the military environment very few people have the same capacity and accessibility to firsthand evidence and observation Whilst peacekeeping has grown in the last decade or so no one has successfully investigated the role of the military and their approach to non violent conflict resolution on the ground as few have access to such work to make a viable detailed assessment of the nature of negotiation in a violent context but Dr Goodwin is able to do so **Terrorism** Chester L.
