Terrorism And The Psychoanalytic Space:

Terrorism and the Psychoanalytic Space Joseph A. Cancelmo, 2003 In the aftermath of 9 11 mental health workers from the world s war zones gathered for a unique conference Specialists from Ireland Israel the Middle East South America and Oklahoma City shared their expertise in the conference of which this book is the record Terrorism and War Jean Arundale, Coline Covington, Jean Knox, Paul ((Psychotherapist)) Williams, 2018-03-29 Following the attacks of September 11th 2001 one of the resounding questions asked was What would make anyone do such a thing The psychological mentality of the suicidal terrorist left a gaping hole in people s understanding This essential volume represents a much needed effort to collate and examine some of the material already at our disposal as an encouragement to serious thought on this question and other related questions If terrorism is not new what is it about the recent attacks that gives us a sense that something has changed Is it the scale of the destruction or the anxiety that we are facing some altogether new uncertainty Are we in some sense facing a new enemy In reflecting on these and other related questions we may be facing a similar watershed of understanding to that faced by Freud at the end of the Great War In the absence of progress in our thinking today political leaders and public opinion will likely turn to previous political and religious ideas investing in them with a fundamentalist certainty that spells disaster

important cases two recent deadly terrorists and a primary figure in our current war on terror The central idea throughout the book is that a person's attitude toward terror and terrorism as well as whether he or she becomes a murderous terrorist or even who wages a global war on terror has much to do with that person's own terrifying experiences in infancy and childhood Such terror usually experienced first in the earliest interactions with the mother is symbolically expressed as Falk shows in fairy tales and myths about terrifying witches and female monsters Further terror may be experienced in the relationship with the father and also in various other traumatic ways It is these early terrors when extreme and uncontrollable that most often produce terrorists and wars on terror Falk argues Thus his book focuses on the conscious but also on the irrational and unconscious causes of terrorism

Fear Itself, 2010-01-01 What are fear horror and terror This question central to our endeavour cannot be answered by one unified voice It always cracks falters and fades before it can fully enunciate its proclamation We the authors know this and have planned accordingly This volume presents meditations on this issue springing from the four corners of intellectual inquiry Each author provides a distinctive approach with which to address the issue at hand Literary theory psychoanalysis media studies political science and many more disciplines occupy the same space between the covers of this book We hope that through the cacophony of our diversity we will fill in the inevitable gaps when our voices fall short

Psychoanalytic and Spiritual Perspectives on Terrorism Nina E. Cerfolio, 2023-12-22 Nina E Cerfolio masterfully explores the deeper spiritual and psychoanalytic understanding of the origins of human aggressive and destructive instincts which underlie mass shootings and terrorism The author survived two terrorist attacks developing breast cancer from being a first responder at 9 11 and being poisoned by an FSB agent while providing humanitarian aid in the Second Chechen War Through a personal scholarly investigation into her psyche the author describes the spiritual awakening that was catalyzed by these events and their traumatic impact and examines how a world could create the firmament for the kinds of destructive aggression that are a daily occurrence Featuring cutting edge quantitative research and case material which illustrates the prevalence of undiagnosed and untreated psychiatric illness among mass shooters and terrorists this book encourages dialogue about the stigma of mental illness and challenges the perception of terrorists as monsters with no societal responsibility Championing

the forgotten collective humiliation of the marginalized which in turn breeds terrorism and documenting a new spiritual lens through which healing is possible this book will be essential reading for mental health workers and anyone wishing to understand the traumatizing epoch in which we are living
