African American Literacies Elaine Richardson, 2003-09-02 African American Literacies is a personal public and political exploration of the problems faced by student writers from the African American Vernacular English AAVE culture Drawing on personal experience Elaine Richardson provides a compelling account of the language and literacy practices of African American students The book analyses the problems encountered by the teachers of AAVE speakers and offers African American centred theories and pedagogical methods of addressing these problems Richardson builds on recent research to argue that teachers need not only to recognise the value and importance of African American culture but also to use African American English when teaching AAVE speakers standard English African American Literacies offers a holistic and culturally

relevant approach to literacy education and is essential reading for anyone with an interest in the literacy practices of African American students

Landmark Essays on Rhetorics of Difference Damian Baca, Ellen Cushman, Jonathan Osborne, 2024-11-01 Landmark Essays on Rhetorics of Difference challenges the Eurocentric perspective from which the field of rhetoric is traditionally viewed Taking a step beyond the creation of alternative rhetorics that maintain the centrality of the European and Greco Roman tradition this volume argues on behalf of pluriversal rhetorics that coexist as equally important on their own terms A timely addition to the respected Landmark Essays series it will be invaluable to students of history of rhetoric literacy composition and writing studies

The SAGE Encyclopedia of Human Communication Sciences and Disorders Jack S. Damico, Martin J. Ball, 2019-03-01 The SAGE Encyclopedia of Human Communication Sciences and Disorders is an in depth encyclopedia aimed at students interested in interdisciplinary perspectives on human communication both normal and disordered across the lifespan This timely and unique set will look at the spectrum of communication disorders from causation and prevention to testing and assessment through rehabilitation intervention and education Examples of the interdisciplinary reach of this encyclopedia A strong focus on health issues with topics such as Asperger's syndrome fetal alcohol syndrome anatomy of the human larynx dementia etc Including core psychology and cognitive sciences topics such as social development stigma language acquisition self help groups memory depression memory Behaviorism and cognitive development Education is covered in topics such as cooperative learning special education classroom based service delivery The editors have recruited top researchers and clinicians across multiple fields to contribute to approximately 640 signed entries across four volumes

Usage-Based Approaches to Language Acquisition and Language Teaching Jacqueline Evers-Vermeul, Elena Tribushinina, 2017-03-06 Although usage based approaches have been successfully applied to the study of both first and second language acquisition to monolingual and bilingual development and to naturalistic and instructed settings it is not common to consider these different kinds of acquisition in tandem The present volume takes an integrative approach and shows that usage based theories provide a much needed unified framework for the study of first second and foreign language acquisition in monolingual and bilingual contexts The contributions target the acquisition of a wide range of linguistic phenomena and critically assess the applicability and explanatory power of the usage based paradigm The book also systematically examines a range of cognitive and linguistic factors involved in the process of language development and relates relevant findings to language teaching Finally this volume contributes to the assessment and refinement of empirical methods currently employed in usage based acquisition research This book is of interest to scholars of language acquisition language pedagogy developmental psychology as well as Cognitive Linguistics and Construction Grammar

Advances in Information Systems Tatyana Yakhno, 2003-06-30 This volume contains the proceedings of the Second International Conference on Advances in Information Systems ADVIS held in Izmir Turkey 23-25 October 2002 This conference was dedicated to the memory of Prof Esen

Ozkarahan He was a great researcher who made an essential contribution to the development of information systems Prof Ozkarahan was one of the pioneers of database machine research and database systems in Turkey This conference was organized by the Computer Engineering department of Dokuz Eylul University in Izmir This department was established in 1994 by Prof Ozkarahan and he worked there for the last ve years of his life The main goal of the conference was to bring together researchers from all around the world working in di erent areas of information systems to share new ideas and present their latest results This time we received 94 submissions from 27 countries The program committee selected 40 papers for presentation at the conference During the conference a workshop was organized on the topic New Information Technologies in Education The invited and accepted cont butions cover a large variety of topics general aspects of information systems databases and data warehouses information retrieval multiagent systems and technologies distributed and parallel computing evolutionary algorithms and system programming and new information technologies in education The success of the conference was dependent upon the hard work of a large number of people We gratefully acknowledge the members of the Program C mittee who helped to coordinate the process of refereeing all submitted papers

Interlanguage Variation in Theoretical and Pedagogical Perspective H.D. Adamson,2009-02-15 In this book H D Adamson reviews scholarship in sociolinguistics and second language acquisition comparing theories of variation in first and second language speech with special attention to the psychological underpinnings of variation theory Interlanguage is what second language learners speak It contains syntactic morphological and phonological patterns that are not those of either the first or the second language and which can be analyzed using the principles and techniques of variation theory Interlanguage Variation in Theoretical and Pedagogical Perspective relates the emerging field of variation in second language learners speech interlanguage to the established field of variation in native speakers speech relates the theory of linguistic variation with psycholinguistic models of language processing relates sociolinguistic variation theory to the theory of Cognitive Grammar suggests teaching applications that follow from the theoretical discussion At the forefront of scholarship in the fields of interlanguage and variation theory scholarship this book is directed to graduate students and researchers in applied English linguistics and second language acquisition especially those with a background in sociolinguistics
