Testament Without Breath:

The Key To It All Guru Sri Shukla, 2013-10-16 What is enlightenment What is the nature of the soul Much confusion exists around these subjects and practicality is all too often obscured by ill defined complex theory When I decided to create this course I wanted to avoid these shortcomings so often found in religious teachings To this end impracticality and dogma have been minimized as much as possible Since the subject of these lessons is the nature of the soul and how to care for it I first had to be specific about how I am characterizing the soul In Lesson One I show how throughout the history of religion the life energy body and the mind have been considered two aspects of the soul Once this is established it is a relatively easy process to determine how to care for the soul since religious teachers have taught for centuries how to care for the life energy body in systems such as Ayurveda and Traditional Chinese Medicine while advances in modern psychology have great practical application in caring for the mind *Connect the Testaments* John D. Barry, Rebecca Van Noord, 2014-08-30

Journal of Biblical Literature, 1903 The Concept of Self in Hinduism, Buddhism, and Christianity and Its Implication for Interfaith Relations Kiseong Shin, 2017-05-05 This is the first comparative study of the self and no self in Hinduism Buddhism and Christianity In spite of doctrinal differences within these three belief systems they agree that human beings are in a predicament from which they need to be liberated Indian religions including Hinduism and Buddhism share the belief that human nature is inherently perfectible while the epistemological and psychological limitation of the human being is integral to Christian belief Regarding the immortality of the human being Hinduism and Christianity traditionally and

generally agree that human beings as atman or soul possess intrinsic immortality On the contrary Buddhism teaches the doctrine of no self anatta Further in their quest to analyze the human predicament and attempt a way out of it they employ different concepts such as sin and salvation in Christianity attachment tanka and enlightenment nirvana in Buddhism and ignorance avidya and liberation moksa in Hinduism This volume seeks to show that that behind these concepts are deep concerns related to human existence and its relationship with the whole creation These common concerns can be a basis for a greater understanding and dialogue between Christians Hindus and Buddhists
