Testing Women, Testing the Fetus Rayna Rapp, 2004-11-23 Rich with the voices and stories of participants these touching firsthand accounts examine how women of diverse racial ethnic class and religious backgrounds perceive prenatal testing the most prevalent and routinized of the new reproducing technologies Based on the author s decade of research and her own personal experiences with amniocentesis *Testing Women Testing the Fetus* explores the geneticization of family life in all its complexity and diversity

Reviewing Research Evidence for Nursing Practice Christine Webb, Brenda Roe, 2008-04-15 Reviewing research evidence for nursing practice systematic reviews highlights the key issues involved in conducting different types of systematic reviews encompassing qualitative studies quantitative studies and combining quantitative and qualitative studies It enables nurses and researchers to understand the key principles involved in preparing systematic reviews and to critically appraise the reviews they read and evaluate their usefulness in developing their own practice Each section starts with an overview of the methodology followed by a selection of systematic reviews carried out in specialist areas of nursing practice Part 1 explores systematic reviews and meta analysis of quantitative research part 2 explores meta synthesis and meta study of qualitative research and part 3 addresses integrative reviews that combine both qualitative and quantitative evidence The final part explores the use of systematic reviews in service and practice development

The ^AOxford Handbook of Philosophy and Disability Adam Cureton, David Wasserman, 2020-06-12 This Handbook introduces philosophers as well as other scholars in the humanities and social sciences to one of the most dynamic new areas of philosophical inquiry Disability raises some of the deepest conceptual and normative issues about human embodiment and well being dignity respect justice and equality and personal and social identity But it also raises pressing practical questions for educational health reproductive and technology policy and confronts controversial questions about the scope and direction of the human and civil rights movements The Handbook addresses these issues and more with contributions from some of the most prominent philosophers in the field The clarity it brings to these discussions demonstrates fully the continued centrality and importance of philosophical inquiry

Reproduction, Health, and Medicine Elizabeth Mitchell Armstrong, Susan Markens, Miranda R. Waggoner, 2019-11-22 At a moment when reproduction is increasingly politicized the volume explores the breadth of contemporary research on reproduction from the perspective of medical sociology illuminating the lived experience of reproduction and offering insights to inform sociology and health policy

The Oxford Handbook of the Sociology of Disability Robyn Lewis Brown, Michelle Maroto, David Pettinicchio, 2023 The Oxford Handbook of the Sociology of Disability provides foundational chapters on where we have been where we are now and where we must go with research on and in the sociology of disability In doing so the Handbook chapters wrestle with important questions around inequality poverty exclusion political activism and empowerment cultural attitudes global policies and practices and much more

Cesarean Section Jacqueline H. Wolf, 2018-05-15 Why have

cesarean sections become so commonplace in the United States Between 1965 and 1987 the cesarean section rate in the United States rose precipitously from 4.5 percent to 25 percent of births By 2009 one in three births was by cesarean a far higher number than the 5-10% rate that the World Health Organization suggests is optimal While physicians largely avoided cesareans through the mid twentieth century by the early twenty first century cesarean section was the most commonly performed surgery in the country Although the procedure can be lifesaving how and why did it become so ubiquitous

Cesarean Section is the first book to chronicle this history In exploring the creation of the complex social cultural economic and medical factors leading to the surgery's increase Jacqueline H Wolf describes obstetricians reliance on assorted medical technologies that weakened the skills they had traditionally employed to foster vaginal birth She also reflects on an unsettling malpractice climate prompted in part by a raft of dubious diagnoses that helped to legitimize defensive medicine and a health care system that ensured cesarean birth would be more lucrative than vaginal birth In exaggerating the risks of vaginal birth doctors and patients alike came to view cesareans as normal and increasingly as essential Sweeping change in women's lives beginning in the 1970s cemented this markedly different approach to childbirth Wolf examines the public health effects of a high cesarean rate and explains how the language of reproductive choice has been used to discourage debate about cesareans and the risks associated with the surgery Drawing on data from nineteenth and early twentieth century obstetric logs to better represent the experience of cesarean surgery for women of all classes and races as well as interviews with obstetricians who have performed cesareans and women who have given birth by cesarean Cesarean Section is the definitive history of the use of this surgical procedure and its effects on women's and children's health in the United States

The Tapestry of Culture Maxine Weisgrau, Abraham Rosman, Paula G. Rubel, 2023-07-10 When we think about society and culture often we think of our own culture the culture in which we were raised or currently live as the default The eleventh edition of The Tapestry of Culture uses anthropological tools to translate the concepts ideas and behaviors of other cultures into language recognizable by today's students The book's comparative approach balances the history of ethnography fieldwork and anthropological with today's globalized world including the impact of climate change social movements social media and technology global health issues and shifting political landscapes New to the Eleventh Edition New Chapter 12 Global Health and Wellness examines the historical political and cultural issues that shape disease and health including inequalities in access to physical and mental health services the delivery of health care services and health intervention strategies New Chapter 11 Spaces and Places of Creative Expression explores how social media and internet technologies play a major role in how contemporary audiences view and understand creativity including music dance theater film painting and other performance styles Expanded discussion of the cultural construction of gender and sexuality as well as LGBTQ issues in activism explores gender and sexuality through queer studies and in postcolonial settings Chapter 7 New discussion of critical race theory highlights its contributions to analyzing multiple forms of racism and discrimination while

providing an exploration of the challenges of multiculturalism in contexts of nationality ethnicity and political representation Chapter 14 New discussions of environmental anthropology political ecology climate change inequality social movements globalization and transnationalism highlight these contemporary issues as subjects of anthropological inquiry Chapter 1

Gentle Birth, Gentle Mothering Sarah Buckley, 2013-02-20 An authoritative guide to natural childbirth and postpartum parenting options from an MD who home birthed her own four children Sarah Buckley might be called a third wave natural birth advocate A doctor and a mother she approaches the question of how a woman and baby might have the most fulfilling birth experience with respect for the wisdom of both medical science and the human body Using current medical and epidemiological research plus women's experiences including her own she demonstrates that what she calls undisturbed birth is almost always healthier and safer than high technology approaches to birth Her wise counsel on issues like breastfeeding and sleeping during postpartum helps extend the gentle birth experience into a gentle parenting relationship

Critical Terms for the Study of Gender Catharine R. Stimpson, Gilbert Herdt, 2022-12-22 Gender systems pervade and regulate human lives in law courts and operating rooms ballparks and poker clubs hair dressing salons and kitchens classrooms and playgroups Exactly how gender works varies from culture to culture and from historical period to historical period but gender is very rarely not at work Nor does gender operate in isolation It is linked to other social structures and sources of identity So write women's studies pioneer Catharine R Stimpson and anthropologist Gilbert Herdt in their introduction to *Critical Terms for the Study of Gender* laying out the wide ranging nature of this interdisciplinary and rapidly changing field The sixth in the series of *Critical Terms* books this volume provides an indispensable introduction to the study of gender through an exploration of key terms that are a part of everyday discourse in this vital subject Following Stimpson and Herdt's careful account of the evolution of gender studies and its relation to women's and sexuality studies the twenty one essays here cast an appropriately broad net spanning the study of gender and sexuality across the humanities and social sciences Written by a distinguished group of scholars each essay presents students with a history of a given term from bodies to utopia and explains the conceptual baggage it carries and the kinds of critical work it can be made to do The contributors offer incisive discussions of topics ranging from desire identity justice and kinship to love race and religion that suggest new directions for the understanding of gender studies The result is an essential reference addressed to students studying gender in very different disciplinary contexts
