*Biodynamic Craniosacral Therapy, Volume Two* Michael J. Shea, Ph.D., 2008-08-19

The first volume of Biodynamic Craniosacral Therapy presented the basics of craniosacral therapy as a gentle, compassionate healing art that can be used by psychologists, midwives, chiropractors and massage and physical therapists. In this second volume, author Michael Shea goes deeper into the entire biodynamic paradigm, analyzing the relationship of trauma resolution, psychodynamics and shamanism and providing practical meditations, visualizations and clinical skills to restore physical, spiritual and emotional health. The book opens by exploring the meaning of biodynamic, followed by a discussion of human embryology as a path to healing in any form of therapy. This section offers a set of pioneering techniques based on perceiving stillness, slow movement as a fundamental healing influence. The next section describes the bridge between trauma resolution therapy and biodynamic work, establishes a new containment model and offers skills for resolving shock and trauma. A special section contains fresh strategies for anyone working with infants and children along with a provocative analysis linking the infant-mother relationship to the patient-therapist relationship. Finally, Shea provides a unique perspective on depth psychology, mythology and healing. This includes the defining difference between biodynamic craniosacral therapy and all other forms of craniosacral therapy: the focus on the nature of spiritual disease and shamanism.

*Approaches to Greek Myth* Lowell Edmunds, 1990

There was no simple agreement on the subject of myth in classical antiquity and there remains none today. In *Approaches to Greek Myth*, Lowell Edmunds brings together practitioners of eight of the most important contemporary approaches to the subject. Whether exploring myth from a historical, comparative or theoretical perspective, each lucidly describes a particular approach, applies it to one or more myths and reflects on what the approach yields that others do not. Contributors are: H. S. Versnel on the intersections of myth and ritual; Carlo Brillante on the history of Greek myth and history in Greek myth; Robert Mondi on the Near Eastern contexts; and Joseph Falaky Nagy on the Indo-European structure in Greek myth. William F. Hansen on myth and folklore; Claude Calame on the Greimasian approach; Richard Caldwell on psychoanalytic interpretations; and Christiane Sourvinou Inwood on the iconography of vase paintings of Theseus and Medea and on a methodology for reading such visual sources. In his introduction, Edmunds confronts Marcel Detienne's recent deconstruction of the notion of Greek mythology and reconstructs a meaning for myth among the ancient Greeks.

*Chinese Religion and Familism* Jordan Paper, 2019-10-03

Reflecting on over half a century of study on Chinese culture, Jordan Paper explores new ways of approaching religion in China. Moving away from using Christianity as a model for examination, which has led to considerable misunderstandings between China

and the West Paper instead applies the paradigm of Familism to Chinese religion By looking through the lens of Familism which emphasises the importance of the family unit Paper argues that we can understand the basis of Chinese culture society government and religion In the book Paper explains how when and why Familism appears in the development of human culture in the Neolithic period as well as its ramifications in more complex societies using the imperial Chinese state as an example The discussion in the book includes how the Chinese state can be understood as a religious institution the role of spirit possession the relationship of other religions in China to Chinese Religion including Buddhism Daoism and Judaism and the issue of freedom of religion in contemporary China Chinese Religion and Familism not only challenges the discipline s perception of Chinese religion but all of the religions of East Asia indigenous sub Saharan African religions Polynesian Religion and elsewhere
