The End of Slavery in Africa and the Americas Ulrike Schmieder, Katja Füllberg-Stolberg, Michael Zeuske, 2011 For centuries social and economic relations within the Atlantic space were dominated by slavery and the transatlantic slave trade from Africa to the Americas By the slowly and arduously achieved end of this trade slave labour in the Americas was replaced in many cases by other forms of coerced labour of African Caribbean people or Indian Chinese African or European immigrants This book focuses on the transformation of societies after the slave trade and slavery in a comparative intercontinental perspective It combines micro and macro historical approaches and looks at the agency of slaves missionaries abolitionists state officials seamen and soldiers

Slavery and African Ethnicities in the Americas Gwendolyn Midlo Hall, 2009-11-05 Enslaved peoples were brought to the Americas from many places in Africa but a large majority came from relatively few ethnic groups Drawing on a wide range of materials in four languages as well as on her lifetime study of slave groups in the New World Gwendolyn Midlo Hall explores the persistence of African ethnic identities among the enslaved over four hundred years of the Atlantic slave trade Hall traces the linguistic economic and cultural ties shared by large numbers of enslaved Africans showing that despite the fragmentation of the diaspora many ethnic groups retained enough cohesion to communicate and to transmit elements of their shared culture Hall concludes that recognition of the survival and persistence of African ethnic identities can fundamentally reshape how people think about the emergence of identities among enslaved Africans and their descendants in the Americas about the ways shared identity gave rise to resistance movements and about the elements of common African ethnic traditions that influenced regional creole cultures throughout the Americas

African Slavery in Latin America and the Caribbean Herbert S. Klein, Ben Vinson III, 2007-09-06 This is an original survey of the economic and social history of slavery of the Afro American experience in Latin America and the Caribbean The focus of the book is on the Portuguese Spanish and French speaking regions of continental America and the Caribbean It analyzes the latest research on urban and rural slavery and on the African and Afro American experience under these regimes It approaches these themes both historically and structurally The historical section provides a detailed analysis of the evolution of slavery and forced labor systems in Europe Africa and America The second half of the book looks at the type of life and culture which the slaves experienced in these American regimes The first part of the book describes

the growth of the plantation and mining economies that absorbed African slave labor how that labor was used and how the changing international economic conditions affected the local use and distribution of the slave labor force Particular emphasis is given to the evolution of the sugar plantation economy which was the single largest user of African slave labor and which was established in almost all of the Latin American colonies Once establishing the economic context in which slave labor was applied the book shifts focus to the Africans and Afro Americans themselves as they passed through this slave regime The first part deals with the demographic history of the slaves including their experience in the Atlantic slave trade and their expectations of life in the New World The next part deals with the attempts of the African and American born slaves to create a viable and autonomous culture This includes their adaptation of European languages religions and even kinship systems to their own needs It also examines systems of cooptation and accommodation to the slave regime as well as the type and intensity of slave resistances and rebellions A separate chapter is devoted to the important and different role of the free colored under slavery in the various colonies The unique importance of the Brazilian free labor class is stressed just as is the very unusual mobility experienced by the free colored in the French West Indies The final chapter deals with the differing history of total emancipation and how ex slaves adjusted to free conditions in the post abolition periods of their respective societies The patterns of post emancipation integration are studied along with the questions of the relative success of the ex slaves in obtaining control over land and escape from the old plantation regimes **Atlas of Slavery** James

Walvin,2014-06-11 Slavery transformed Africa Europe and the Americas and hugely enhanced the well being of the West but the subject of slavery can be hard to understand because of its huge geographic and chronological span This book uses a unique atlas format to present the story of slavery explaining its historical importance and making this complex story and its geographical setting easy to understand Immigration and the Slave Trade Jeremy Thornton,2003-08-01 Looks at what life was like for Africans forced into slavery and discusses how these enslaved immigrants held on to their dignity and traditions against all odds AMERIKKA and the TRANSATLANTIC SLAVE TRADE C. Barnard,T. Sommerville,2020-01-08

Transatlantic Slave Trade Transatlantic slave trade segment of the global slave trade that transported between 10 million and 12 million enslaved Africans across the Atlantic Ocean to the Americas from the 16th to the 19th century It was the second of three stages of the so called triangular trade in which arms textiles and wine were shipped from Europe to Africa slaves from Africa to the Americas and sugar and coffee from the Americas to Europe By the 1480s Portuguese ships were already transporting Africans for use as slaves on the sugar plantations in the Cape Verde and Madeira islands in the eastern Atlantic Spanish conquistadors took African slaves to the Caribbean after 1502 but Portuguese merchants continued to dominate the transatlantic slave trade for another century and a half operating from their bases in the Congo Angola area along the west coast of Africa The Dutch became the foremost slave traders during parts of the 1600s and in the following century English and French merchants controlled about half of the transatlantic slave trade taking a large percentage of

their human cargo from the region of West Africa between the Senegal and Niger rivers Encyclopedia Britannica

DEDICATION This book is dedicated to you all out there who has been clamoring to know the truth about the American transatlantic slave trade There are many stories that come from the transatlantic slave trade and the truth about it

Facing Up to the Past Gert Oostindie, 2002 Bundel met essays over de herinnering aan en het herdenken van de slavernij Auteurs uit de Nederlands Caribische de Brits Caribische en de Afrikaanse wereld komen aan het woord **Crossings** James Walvin, 2013-10-15 We all know the story of the slave trade the infamous Middle Passage the horrifying conditions on slave ships the millions that died on the journey and the auctions that awaited the slaves upon their arrival in the Americas But much of the writing on the subject has focused on the European traders and the arrival of slaves in North America In **Crossings** eminent historian James Walvin covers these established territories while also traveling back to the story's origins in Africa and south to Brazil an often forgotten part of the triangular trade in an effort to explore the broad sweep of slavery across the Atlantic Reconstructing the transatlantic slave trade from an extensive archive of new research Walvin seeks to understand and describe how the trade began in Africa the terrible ordeals experienced there by people sold into slavery and the scars that remain on the continent today Journeying across the ocean he shows how Brazilian slavery was central to the development of the slave trade itself as that country tested techniques and methods for trading and slavery that were successfully exported to the Caribbean and the rest of the Americas in the following centuries Walvin also reveals the answers to vital questions that have never before been addressed such as how a system that the Western world came to despise endured so long and how the British who were fundamental in developing and perfecting the slave trade became the most prominent proponents of its eradication The most authoritative history of the entire slave trade to date **Crossings** offers a new understanding of one of the most important and tragic episodes in world history **The Making of the African Diaspora in the Americas, 1441-1900** Vincent Bakpetu Thompson, 1987 This work examines the core period of the African diaspora in the Americas The author confronts myths surrounding the ethos of this diaspora which were induced by the mercantilist preoccupations of Western Europe The entire period is portrayed as a battle between two conflicting and opposite strategies that of the slavocracy and that of the enslaved Africans culminating in the conversion of the French colony of St Domingue into the revolutionary state of Haiti The author suggests that Haiti because of its position in the midst of hostile slave societies provided inspiration for the antislavery crusade in both its particularistic and its international aspects The epilogue provides a glimpse into the author's second book on the divergent perceptions in the early evolution of leadership in the African diaspora in the Americas Amazon.com viewed Oct 26 2022 **Slavery and the British Empire** Kenneth Morgan, 2007-12-06 This is an introduction to the entire history of British involvement with slavery and the slave trade which especially focuses on the two centuries from 1650 and covers the Atlantic world especially North America and the West Indies as well as the Cape Colony Mauritius and India **A World Transformed** James Walvin, 2022-03-10 A

World Transformed explores how slavery thrived at the heart of the entire Western world for more than three centuries. Arguing that slavery can only be fully understood by stepping back from traditional national histories, this book collects the scattered accounts of the most recent scholarship into a comprehensive history of slavery and its shaping of the world we know. Celebrated historian James Walvin tells a global story that covers everything from the capitalist economy, labor, and the environment to social culture and ideas of family, beauty, and taste. This book underscores just how thoroughly slavery is responsible for the making of the modern world. The enforced transportation and labour of millions of Africans became a massive social and economic force catalysing the rapid development of multiple new and enormous trading systems with profound global consequences. The labour and products of enslaved people changed the consumption habits of millions in India and Asia, Europe, and Africa, in colonised and Indigenous American societies. Across time, slavery shaped many of the dominant features of Western taste, items and habits, or rare and costly luxuries, some of which might seem at first glance utterly removed from the horrific reality of slavery. A World Transformed traces the global impacts of slavery over centuries far beyond legal or historical endpoints, confirming that the world created by slave labour lives on today.

In the Shadow of Slavery Judith Carney, 2011-02-01. The transatlantic slave trade forced millions of Africans into bondage. Until the early nineteenth century, African slaves came to the Americas in greater numbers than Europeans. In the Shadow of Slavery provides a startling new assessment of the Atlantic slave trade and upends conventional wisdom by shifting attention from the crops slaves were forced to produce to the foods they planted for their own nourishment. Many familiar foods—millet, sorghum, coffee, okra, watermelon, and the Asian long bean, for example—are native to Africa, while commercial products such as Coca-Cola, Worcestershire Sauce, and Palmolive Soap rely on African plants that were brought to the Americas on slave ships as provisions, medicines, cordage, and bedding. In this exciting original and groundbreaking book, Judith A. Carney and Richard Nicholas Rosomoff draw on archaeological records, oral histories, and the accounts of slave ship captains to show how slaves' food plots, botanical gardens, and the dispossessed became the incubators of African survival in the Americas and Africanized the foodways of plantation societies.

Suppression of the African Slave-Trade to the United States of America W. E. B. Du Bois, 2014-05-05. Well documented classic examines the South's plantation economy and its influence on the slave trade, the role of Northern merchants in financing the slave trade during the 19th century, and much more.
