Slightly Cooler In The Suburbs:

Eric Sloane's Book of Storms Eric Sloane, 2006-08-04 What triggers a tornado What can you see in the eye of a hurricane What's the difference between a thunderbolt and a thunderclap Popular author and artist Eric Sloane proves why weather is something best understood by seeing it His illustrated book shows weather happening In fact there's not a sunny page in it nothing but cyclonic storms whirlwinds waterspouts lightning bolts and other fascinating weather related topics More than seventy pages of drawings and diagrams make the weather come alive in a book that examines everything from storm mechanisms and cold fronts to the birth of a thunderhead A valuable resource for learning more about everyone's favorite topic for conversation and speculation Eric Sloane the Weather Wizard has the countryman's simple and natural comprehension to give substance to his scientific and artistic insights What especially distinguishes this volume from his other books on the subject is the focus on a detailed treatment of the more spectacular and destructive elements of weather phenomena His belief is that if this book gets one to look upward more often it will have accomplished a purpose Almost Naked, *Visions of Suburbia* Roger Silverstone, 1997 On suburban life and popular culture *Catalog of Copyright Entries. An Account of the Socio-topographic Construction of Space in Australian Literature** Pablo Armellino,2012-02-27

Ob scene Spaces in Australian Narrative is an exhaustive survey of Australian literature proposing itself as a journey through time and space With a careful selection of texts which recount Australian history from the early days of white colonization to the present this study endeavours to cast light on the process of socio topographic construction that the settlers imposed upon the continent As suggested by the title the textual inquiry conducted in this book is driven by the stimulating ambiguity that lies between physical space and its discursive construction A selection of canonical and non canonical texts by authors ranging from Henry Lawson to Christos Tsiolkas aims to reveal the relationship between the space of the city the scene and the outback the ob scene space beyond the metropolitan area and its role in the process of spatial construction that through the last two centuries has shaped Australia Pablo Armellino s distinctive approach to Australian literature makes Ob scene Spaces in Australian Narrative a very interesting work Using a carefully selected range of novels linked together using social and literary theory it recounts the history of colonization in Australia in a particularly approachable manner Through the analysis of each text the reader seamlessly learns about the expansion of the frontier the creation of an ob scene space beyond it and the use the Discourse makes of this mechanism These characteristics would appeal to both an academic audience which would appreciate the detailed text analysis and a general audience which would enjoy the historical and thematic aspect of the book Professor Carmen Concilio and Professor Pietro Deandrea Facolt di Lingue Universit di Torino *New York Herald Tribune Book Review* ,1950 **Lost in Suburbia: A Momoir** Tracy Beckerman,2013-04-02

It s a suburban jungle out there When syndicated columnist Tracy Beckerman trades in her TV job and cool NYC existence for the New Jersey suburbs she doesn t expect to also trade in her entire identity But her new life as a stay at home mom knocks her for a loop in more ways than one From the embarrassment of being ticketed while driving in her bathrobe to the challenge of making friends in the land of big hair and minivans Beckerman shares her struggles with self deprecating humor as she endeavors to reclaim her

cool Beckerman reveals the universal trials tribulations and triumphs of every mom who has to figure out how to stay sane while fishing Barbie heads out of the toilet how to laugh when your kid asks the fat cop at the doughnut shop if he s having a baby and how to look good when your post baby butt is so big you want to hang a Caution Wide Load sign behind you At once irreverent hilarious and keenly observed *Lost in Suburbia* is about what you give up to become a mother and what you get back

Khabeer,2016-12-06 Interviews with young Muslims in Chicago explore the complexity of identities formed at the crossroads of Islam and hip hop This groundbreaking study of race religion and popular culture in the 21st century United States focuses on a new concept Muslim Cool Muslim Cool is a way of being an American Muslim displayed in ideas dress social activism in the hood and in complex relationships to state power Constructed through hip hop and the performance of Blackness Muslim Cool is a way of engaging with the Black American experience by both Black and non Black young Muslims that challenges racist norms in the U S as well as dominant ethnic and religious structures within American Muslim communities Drawing on over two years of ethnographic research Su ad Abdul Khabeer illuminates the ways in which young and multiethnic US Muslims draw on Blackness to construct their identities as Muslims This is a form of critical Muslim self making that builds on interconnections and intersections rather than divisions between Black and Muslim Thus by countering the notion that Blackness and the Muslim experience are fundamentally different Muslim Cool poses a critical challenge to dominant ideas that Muslims are foreign to the United States and puts Blackness at the center of the study of American Islam Yet Muslim Cool also demonstrates that connections to Blackness made through hip hop are critical and contested critical because they push back against the pervasive phenomenon of anti Blackness and contested because questions of race class gender and nationality continue to complicate self making in the United States **Losing Our Cool** Stan Cox,2010-05-25

Losing our Cool shows how indoor climate control is colliding with an out of control outdoor climate In America energy consumed by home air conditioning and the resulting greenhouse emissions have doubled in just over a decade and energy to cool retail stores has risen by two thirds Now the entire affluent world is adopting the technology As the biggest economic crisis in eighty years rolls across the globe financial concerns threaten to shove ecological crises into the background Reporting from some of the world s hot zones from Phoenix Arizona and Naples Florida to southern India Cox documents the surprising ways in which air conditioning changes human experience giving a boost to the global warming that it is designed to help us endure providing a potent commercial stimulant making possible an impossible commuter economy and altering migration patterns air conditioning has helped alter the political hue of the United States by enabling a population boom in the red state Sun Belt While the book proves that the planet s atmosphere cannot sustain even our current use of air conditioning it also makes a much more positive argument that loosening our attachment to refrigerated air could bring benefits to humans and the planet that go well beyond averting a climate crisis Though it saves lives in heat waves air

conditioning may also be altering our bodies sensitivity to heat our rates of infection allergy asthma and obesity and even our sex drive Air conditioning has eroded social bonds and thwarted childhood adventure it has transformed the ways we eat sleep travel work buy relax vote and make both love and war The final chapter surveys the many alternatives to conventional central air conditioning By reintroducing some traditional cooling methods putting newly emerging technologies into practice and getting beyond industrial definitions of comfort we can make ourselves comfortable and keep the planet comfortable too
