Securitisation Theory to explore how Muslims have been constructed as a security issue in Africa after the 9 11 attacks in the United States These attacks became the rationale for the US s Global War on Terror GWOT The centrality of Africa as an arena to execute the GWOT is the focus of this book This book explores particularly how western centred security discourses around Muslims has permeated South African security discourse in the post apartheid period It claims that the popular press and the local think tank community were critical knowledge sites that imported rather than interrogated debates which have underpinned policy initiatives such as the GWOT Such theorisation seems contrary to the original architects of securitisation theory who maintain that issues become security concerns when institutional voices declare these as such However this book confirms that non institutional voices have securitised the African Muslims by equating them with terrorism This book illustrates that such securitisation reproduces partisan knowledge that promote Western interests *Fighting Robots* Michael Benson, 2002 It s an ear splitting gut crunching armor crashing booby trapped fight to the death and the fastest growing sport on television the world of hard driving robot combat Millions watch as these metallic maulers handmade with a vengeance by technical wizards slash buzz and hammer each other into a crowd pleasing pulp in awesome displays of motorized muscle This is the only A to Z guide to the fascinating world of mechanical warriors from the best Bots in the business to the inventors who created them Whether you want to build and fight your own robot learn more about the sport or get a close up behind the scenes look at every bit of the action this comprehensive book delivers it all the guts the gears and the pulverizing glory Book jacket
