Terror Alliance:

Crime-terror Alliances and the State Lyubov Grigorova, Ted Robert Gurr, 2013 This new book by Lyubov Mincheva and Ted Gurr examines the political economy of transborder violence on the European Periphery that poses grave threats to domestic and international security in Europe and elsewhere The units of analysis are unholy alliances i e hybrid transborder militant and criminal networks which have been active in the 1990s and the first decade of the 2000s The concept of Unholy Alliances is extended to also include the trans state criminal syndicates that arise in failed and dysfunctional states or operate within the global illicit economy It also addresses the question of what reigns supreme in securing the militants long term success money or social endowment including strong identity networks

Why Terrorist Groups Form

International Alliances Tricia Bacon, 2018-04-04 Terrorist groups with a shared enemy or ideology have ample reason to work together even if they are primarily pursuing different causes Although partnering with another terrorist organization has the potential to bolster operational effectiveness efficiency and prestige international alliances may expose partners to infiltration security breaches or additional counterterrorism attention Alliances between such organizations which are suspicious and secretive by nature must also overcome significant barriers to trust the exposure to risk must be balanced by the promise of increased lethality resiliency and longevity In *Why Terrorist Groups Form International Alliances* Tricia Bacon argues that although it may seem natural for terrorist groups to ally groups actually face substantial hurdles when attempting to ally and when alliances do form they are not evenly distributed across pairs Instead she demonstrates that when terrorist groups seek allies to obtain new skills knowledge or capacities for resource acquisition and mobilization only a few groups have the ability to provide needed training safe haven infrastructure or cachet Consequently these select few emerge as preferable partners and become hubs around which other groups cluster According to Bacon shared enemies and common ideologies do not cause alliances to form but create affinity to bind partners and guide partner selection Bacon examines partnerships formed by the Popular Front for the Liberation of Palestine Al Qaida and Egyptian jihadist groups among others in a series of case studies spanning the dawn of international terrorism in the 1960s to the present *Why Terrorist Groups Form International Alliances* advances our understanding of the motivations of terrorist alliances and offers insights useful to counterterrorism efforts to disrupt these dangerous relationships

Queer Terror C. Heike

Schotten, 2018-08-21 After Sept 11 2001 George W Bush declared Either you are with us or you are with the terrorists Bush s assertion was not simply jingoist bravado it encapsulates the civilizationalist moralism that has motivated and defined the United States since its beginning linking the War on Terror to the nation s settlement and founding In *Queer Terror* C Heike Schotten offers a critique of U S settler colonial empire that draws on political queer and critical indigenous theory to situate Bush s either or moralism and reframe the concept of terrorism The categories of the War on Terror exemplify the moralizing politics that insulate U S empire from critique render its victims deserving of its abuses and delegitimize resistance to it as

unthinkable and perverse Schotten provides an anatomy of this moralism arguing for a new interpretation of biopolitics that is focused on sovereignty and desire rather than racism and biology This rethinking of biopolitics puts critical political theory of empire in dialogue with the insights of both native studies and queer theory Building on queer theory s refusal of sanctity propriety and moralisms of all sorts Schotten ultimately contends that the answer to Bush s ultimatum is clear dissidents must reject the false choice he presents and stand decisively against us rejecting its moralism and the sanctity of its life in order to further a truly emancipatory decolonizing queer politics
