

A close-up, low-angle shot of the front of a silver Porsche Panamera. The image highlights the car's sleek, aerodynamic lines, including the hood, the iconic round headlights, and the front grille. The lighting is dramatic, with strong highlights and shadows that emphasize the metallic texture and curves of the vehicle.

Emma Gilligan

Terrorist Praha 2002 Issue 5:

Terror in Chechnya Emma Gilligan, 2013-12-01 A riveting history of Russia's crimes in Chechnya Terror in Chechnya is the definitive account of Russian war crimes in Chechnya Emma Gilligan provides a comprehensive history of the second Chechen conflict of 1999 to 2005 revealing one of the most appalling human rights catastrophes of the modern era one that has yet to be fully acknowledged by the international community Drawing upon eyewitness testimony and interviews with refugees and key political and humanitarian figures Gilligan tells for the first time the full story of the Russian military's systematic use of torture disappearances executions and other punitive tactics against the Chechen population In Terror in Chechnya Gilligan challenges Russian claims that civilian casualties in Chechnya were an unavoidable consequence of civil war She argues that racism and nationalism were substantial factors in Russia's second war against the Chechens and the resulting refugee crisis She does not ignore the war crimes committed by Chechen separatists and pro Moscow forces Gilligan traces the radicalization of Chechen fighters and sheds light on the Dubrovka and Beslan hostage crises demonstrating how they undermined the separatist movement and in turn contributed to racial hatred against Chechens in Moscow A haunting testament of modern day crimes against humanity Terror in Chechnya also looks at the international response to the conflict focusing on Europe's humanitarian and human rights efforts inside Chechnya , *Terrorism and the UN* Jane Boulden, Thomas G. Weiss, 2004-03-16 How has the United Nations dealt with the question of terrorism before and after September 11 What does it mean that the UN itself has become a target of terrorism Terrorism and the UN analyzes how the UN's role in dealing with terrorism has been shaped over the years by the international system and how events such as September 11 and the American intervention in Iraq have reoriented its approach to terrorism The first half of the book addresses the international context Chapters in this part consider the impact of September 11 on the UN's concern for the rights and security of states relative to those of individuals as well as the changing attitudes of various Western powers toward multilateral vs unilateral approaches to international problems The second half of the book focuses more closely on the UN its values mechanisms and history and its future role in preventing and reacting to terrorism The Security Council's position on and reactions to terrorist activities are contrasted with the General Assembly's approach to these issues What role the UN might play in suppressing the political economy of terrorism is considered A concluding chapter looks at broader more proactive strategies for addressing the root causes of terrorism with an emphasis on social justice as a key to conflict prevention a primary concern of the UN particularly the General Assembly before September 11 Contributors are Jane Boulden Chantal de Jonge Oudraat Georgetown University Edward C Luck Columbia University S Neil MacFarlane University of Oxford Rama Mani Geneva Centre for Security Policy M J Peterson University of Massachusetts Amherst Nico Schrijver Vrije Universiteit Amsterdam Mónica Serrano Colegio de México and University of Oxford Thierry Tardy Geneva Centre for Security Policy Karin von Hippel King's College London and Thomas G Weiss **Index Medicus**, 2003 Vols for

1963 include as pt 2 of the Jan issue Medical subject headings *The Fight Against Terrorism and Crisis Management in the Western Balkans* Iztok Prezelj, 2008-02-15 Terrorism is not the only threat that causes the emergence of crises The so called crisification of our security environment also seems to be rising due to many other factors Such an environment is generating many crises related to politico military conflicts natural disasters infectious diseases information disruptions ethnic or religious violence and others Many of these crises are completely or nearly completely unexpected and have a strong effect on the security of individual people states and the international community Crisis has become the key word instead of war The awareness of this is partially driven by the growing role of electronic media bringing negative news and reports to nearly all homes and partially by objective technical factors that allow the fast escalation of local crises to the international level Globalization therefore has a strong subjective and objective impact on the understanding of security **Martyrdom and Sacrifice in Islam** Meir Hatina, 2016-11-14 Over the years the belief system around self sacrifice has become key to understanding the Middle East and its political relationships with the West although much of the literature and conversation has been restricted to modern concepts of jihadism The recent spate of scholarship relating to suicide bombers and jihadists studies these concepts without a broader understanding of the principle of martyrdom This book expands on the chronology of self sacrifice within Islam and contextualises the use of suicide bombings using details of the rise of martyrdom in places such as Iraq Lebanon Chechnya and Pakistan It historicises the background in which jihad has been glorified while also exploring contemporary methods of recruitment like the use of the internet The authors pay close attention to the different sects and factions of Islam and the differing interpretations of jihad that accompany these ideologies In the current political climate a book that explores martyrdom within the framework of historical perspectives geographical regions and the influence of outside cultures is essential The Global Politics of Combating Nuclear Terrorism William C. Potter, Cristina Hansell, 2013-09-13 The most difficult challenge for a terrorist organization seeking to build a nuclear weapon or improvised nuclear device is obtaining fissile material either plutonium or highly enriched uranium HEU Experts acknowledge that obtaining HEU uranium that has been processed to increase the proportion of the U 235 isotope to over 20% is the most difficult challenge facing a state or non state actor seeking to build a nuclear explosive The large stocks of HEU in civilian use many not adequately protected are thus one of the greatest security risks facing the global community at present This book contains chapters examining the various uses for this material and possible alternatives the threat posed by this material the economic political and strategic obstacles to international efforts to end the use of HEU for commercial and research purposes as well as new national and international measures that should be taken to further the elimination of HEU This book was published as a special issue of The Nonproliferation Review **Terrorism and the International Business Environment** Gabriele G. S. Suder, 2004-01-01 The volume reveals how the pre 9 11 era of contemporary economic history gave birth to a nexus of a globalization b increased systemic vulnerability and complexity and c the transitions of terrorism

As a result the post 9 11 era is one which should incorporate risk analysis audits on a regular basis political and geopolitical risk research the use of quantitative risk assessment and qualitative risk analysis to implement risk strategy planning its management and appropriate risk transfer considerations Globalisation and the Future of Terrorism Brynjar

Lia,2007-05-07 This new study is devoted to understanding how international terrorism is shaped how it evolves and what we can expect in the future Drawing upon research and methods outside the traditional focus and by taking both a theoretical approach and a new practical predictive perspective it delivers a fresh and fascinating contribution to terrorism studies While predicting terrorism is a highly speculative business there are ways of identifying certain long term causes driving forces and their links with society Terrorists are usually integral players in local and sometimes global politics Hence when the local regional and international contexts change so does terrorism Thoroughly reviewing the body of literature on the causes of terrorism this study also combines predictive and futuristic analyses on globalisation supported by a range of key case studies It spans from the transformation of international relations the globalisation of the market economy demographic factors ideological shifts and technological changes The result is a set of key conclusions about the future patterns of terrorism which are not simply best guesses but also backed up by solid research This book will be of great interest to all students and scholars of terrorism globalisation politics and international relations Islamist Insurgents on the Defensive

Dave Dilegge,2018-02-28 This work is the fourth Small Wars Journal anthology focusing on radical Sunni Islamic terrorists and insurgent groups It covers this professional journals writings for 2016 and is a compliment to the earlier Global Radical Islamist Insurgency anthologies that were produced as Vol I 20072011 published in 2015 and Vol II 20122014 published in 2016 and Jihadi Terrorism Insurgency and the Islamic State spanning 2015 published in 2017 This anthology which offers well over six hundred pages of focused analysis follows the same general conceptual breakdown as the earlier works and is divided into two major thematic sectionsone focusing on al Qaeda and Islamic state activities in 2016 and the other focusing on US Allied policies and counterinsurgent strategies
