National Advisory Committee on Criminal Justice Standards and Goals, 1976 *Disorders and Terrorism* United States. National Advisory Committee on Criminal Justice Standards and Goals. Task Force on Disorders and Terrorism, 1977 Government study prompted by acts of extraordinary violence in this country since the 1960s Included in the appendices is a chronology of terrorist episodes in the U S from Jan 1959 March 1976 and a bibliography prepared by staff members of the New York University Law School Staff *Political Terrorism* A.J. Jongman, 2017-07-28 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of Political Terrorism was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against **Turning to Political Violence** Marc Sageman, 2017-05-05 What motivates those who commit violence in the name of political beliefs Terrorism today is not solely the preserve of Islam nor is it a new phenomenon It emerges from social processes and conditions common to societies throughout modern history and

the story of its origins spans centuries encompassing numerous radical and revolutionary movements Marc Sageman is a forensic psychiatrist and government counterterrorism consultant whose bestselling books *Understanding Terror Networks* and *Leaderless Jihad* provide a detailed damning corrective to commonplace yet simplistic notions of Islamist terrorism In a comprehensive new book *Turning to Political Violence* Sageman examines the history and theory of political violence in the West He excavates primary sources surrounding key instances of modern political violence looking for patterns across a range of case studies spanning the French Revolution through late nineteenth and early twentieth century revolutionaries and anarchists in Russia and the United States to the assassination of Archduke Ferdinand and the start of World War I In contrast to one dimensional portraits of terrorist monsters offered by governments and media throughout history these accounts offer complex and intricate portraits of individuals engaged in struggles with identity injustice and revenge who may be empowered by a sense of love and self sacrifice Arguing against easy assumptions that attribute terrorism to extremist ideology and counter to mainstream academic explanations such as rational choice theory Sageman develops a theoretical model based on the concept of social identity His analysis focuses on the complex dynamic between the state and disaffected citizens that leads some to disillusionment and moral outrage and a few to mass murder Sageman s account offers a paradigm shifting perspective on terrorism that yields counterintuitive implications for the ways liberal democracies can and should confront political violence

The Oxford Handbook of the History of Terrorism Carola Dietze, Claudia Verhoeven, 2022 The Oxford Handbook of the History of Terrorism presents a re evaluation of the major narratives in the history of terrorism exploring the emergence and the use of terrorism in world history from antiquity up to the twenty first century The volume presents terrorism as a historically specific form of political violence that was generated by modern Western culture and then transported around the globe where it interacted with and was transformed in accordance with local conditions It offers cogent arguments and well documented case studies that support a reading of terrorism as a modern phenomenon as well as sustained analyses of the challenges involved in the application of the theories and practices of modernity and terrorism to non Western parts of the world both for historical actors and academic commentators

Political Terrorism Albert J. Jongman, 1988 While there is no easy way to define terrorism it may generally be viewed as a method of violence in which civilians are targeted with the objective of forcing a perceived enemy into submission by creating fear demoralization and political friction in the population under attack At one time a marginal field of study in the social sciences terrorism is now very much in center stage The 1970s terrorist attacks by the PLO the Provisional Irish Republican Army the Popular Front for the Liberation of Palestine the Japanese Red Army the Unabomber Aum Shinrikyo Timothy McVeigh the World Trade Center attacks the assault on a school in Russia and suicide bombers have all made the term terrorism an all too common part of our vocabulary This edition of *Political Terrorism* was originally published in the 1980s well before some of the horrific events noted above This monumental collection of definitions conceptual frameworks

paradigmatic formulations and bibliographic sources is being reissued in paperback now as a resource for the expanding community of researchers on the subject of terrorism This is a carefully constructed guide to one of the most urgent issues of the world today When the first edition was originally published Choice noted This extremely useful reference tool should be part of any serious social science collection Chronicles of Culture called it a tremendously comprehensive book about a subject that any who have anything to lose from property to liberty life to limbs should be forewarned against Alex P Schmid received his Ph D from the University of Zurich Switzerland and is a professor in the Department of Political Science at Leiden University He is the coauthor with Albert J Jongman of Soviet Military Interventions since 1945 available from Transaction Albert J Jongman is principal researcher for PIOOM the Interdisciplinary Research Programme on Causes of Human Rights Violations and has been a research assistant at the SIPRI in Sweden He is the author of Monitoring Human Rights Violations State Violence State Terrorism and Human Rights Irving Louis Horowitz is Hannah Arendt Distinguished University Professor Emeritus of Sociology and Political Science at Rutgers University and the chairman and editorial director of Transaction Publishers

Ortals, 2014-07-08 This book explores how gender intersects with political violence and particularly terrorism We ask how gender relations and understandings of femininity and masculinity influence political violence which includes politics related to terrorism state terrorism and genocide We investigate how women cope with and influence the politics of terrorism and genocide The book's goals are descriptive and analytical We 1 describe in what ways women are present and or perceived as absent in political contexts involving violence and 2 analyze what gender assumptions identities and frames women face and themselves express and act upon regarding political violence encountered in their lives The manuscript is divided into seven chapters introduction women as victims survivors of violence women as perpetrators of violence women in social movements responding to violence women politicians leading policy regarding violence the public opinion of women and men concerning violence and a conclusion Each chapter explores the intersection between gender and terrorism through the lens of the chapter focus
