Excerpt from A d104 Book of Horseshoeing For Horseshoers and Veterinarians: The inauguration of the law requiring horseshoers to be examined emphasizes the need of a brief and easily understood text book on theoretical and practical horseshoeing. At the request of the Royal Veterinary Commission in charge of the Royal Veterinary School in Dresden and many interested individuals I have attempted to meet this need by condensing within the narrowest possible limits all that is essential to the horseshoer in the practice of his profession. The subject matter has been cast into a logically arranged course of instruction all that is superfluous and is found only in exhaustive treatises on shoeing has been omitted. In order to make this elementary text book more easy to understand numerous instructive illustrations have been incorporated which were taken partly from *Der Fuss des Pferdes* by Leisering partly from the journal *Der Hufschmied* and partly from drawings made specially for this work. With the desire that this little book may find many friends and supply them with valuable information it is herewith given to the public.
