Writing in the Pacific Jack Corbett, Brij V. Lal, 2015-07-29 This book aims to reflect on the experiential side of writing political lives in the Pacific region The collection touches on aspects of the life writing art that are particularly pertinent to political figures public perception and ideology identifying important political successes and policy initiatives grappling with issues like corruption and age old political science questions about leadership and dirty hands These are general themes but they take on a particular significance in the Pacific context and so the contributions explore these themes in relation to patterns of colonisation and the memory of independence issues elliptically captured by terms like culture and tradition the nature of self presented in Pacific life writing and the tendency for many of these texts to be written by outsiders or at least the increasingly contested nature of what that term means **The Devil's Own War** Herbert Hart, 2011-01-23 When Herbert Hart left his home town of Carterton in 1914 to serve as a major with the New Zealand Expeditionary Force he could not have imagined that he would return as a much decorated brigadier general His rise to leadership was swift as he commanded the Wellington Battalion during the closing stages of the Gallipoli campaign then went on to serve as a battalion and brigade commander on the Western Front between 1916 and 1918 During the whole of this period he kept a diary in which he recorded his experiences in the great battles on Gallipoli the Somme and Passchendaele Hart's diary is now widely regarded as one of the most important personal sources relating to the New Zealand Expeditionary Force His service on the Western Front is the principal focus of the diary Exceptionally well written it includes gripping descriptions of both combat and life behind the front line and on leave in France and the United Kingdom While Hart can appear remarkably detached at times he is also a very human observer of the events around him empathising with the plight of his men finding humour in the most unlikely situations and noticing unexpected details at moments of high tension This important book also has an introductory chapter on Hart's early life and a concluding chapter about his diverse and distinguished career after the war including his term as Administrator of Western Samoa from 1931 to 1935 **Coates of the Kaipara** Fay

Hercock,2013-11-01 In the course of his political career Gordon Coates 1878 1943 experienced the extremes of popular adulation and contempt Handsome young and debonair with the common touch he was a successful minister in the early 1920s and seemed full of promise when he became Prime Minister in 1925 on the death of W F Massey Ten years later after serving as Minister of Finance in the coalition government during the Depression his reputation had sunk to its lowest ebb He went on to serve with distinction in the War Cabinet winning the confidence and respect of former Labour opponents Dying suddenly in 1943 he left many friends and supporters who to this day regard him as one of New Zealand s political giants Michael Bassett follows his successful biography of Sir Joseph Ward with an equally readable life of this younger Prime Minister It is one of the few scholarly biographies of a figure on the right of New Zealand politics With full access to the Coates family papers and to material gathered by other researchers Bassett is able to offer a thoughtful reassessment of the achievements and failures of Coates s political career He provides clear explanations of the sometimes complex issues drawing once again on his own familiarity with the pressures and pleasures of political life The study of the politician is combined with a fascinating account of the private man including his Northland origins his farming background his gallant military service in the First World War his personal and family life and his character

From Servants of the Empire to Everyday Heroes Tobias Harper,2020-02-13 In the twentieth century the British Crown appointed around a hundred thousand people military and civilian in Britain and the British Empire to honours and titles For outsiders and sometimes recipients too these jumbles of letters are tantalizingly confusing OM MBE GCVO CH KB or CBE Throughout the century this system expanded to include different kinds of people while also shrinking in its imperial scope with the declining empire Through these dual processes this profoundly hierarchical system underwent a seemingly counter intuitive change it democratized Why and how did the British government change this system And how did its various publics respond to it This study addresses these questions directly by looking at the history of the honours system in the wider context of the major historical changes in Britain and the British Empire in the twentieth century In particular it looks at the evolution of this hierarchical deferential system amidst democratization and decolonization It focuses on the system s largest and most important components the Order of the British Empire the Knight Bachelor and the lower ranks of other Orders By creatively analysing the politics and administration of the system alongside popular responses to it in diaries letters newspapers and memoirs Tobias Harper shows the many different meanings that honours took on for the establishment dissidents and recipients He also shows the ways in which the system succeeded and failed to order and bring together divided societies

The Routledge Handbook of the History of Settler Colonialism Edward Cavanagh, Lorenzo Veracini, 2016-08-12. The Routledge Handbook of the History of Settler Colonialism examines the global history of settler colonialism as a distinct mode of domination from ancient times to the present day. It explores the ways in which new polities were established in freshly discovered New Worlds and covers the history of many countries including Australia New Zealand Israel Japan South Africa Liberia Algeria Canada and the USA. Chronologically as well as geographically wide reaching, this volume focuses on an extensive array of topics and regions ranging from settler colonialism in the Neo Assyrian and Roman empires to relationships between indigenes and newcomers in New Spain and the early Mexican republic to the settler dominated polities of Africa during the twentieth century. Its twenty nine inter disciplinary chapters focus on single colonies or on regional developments that straddle the borders of present day states on successful settlements that would go on to become powerful settler nations on failed settler colonies and on the historiographies of these experiences. Taking a fundamentally international approach to the topic, this book analyses the varied experiences of settler colonialism in countries around the world. With a synthesizing yet original introduction, this is a landmark contribution to the emerging field of settler colonial studies and will be a valuable resource for anyone interested in the global history of imperialism and colonialism.
