The New Catalog of Maya Hieroglyphs: The Classic period inscriptions Martha J. Macri, Matthew George Looper, 2003 For hundreds of years Maya artists and scholars used hieroglyphs to record their history and culture In the nineteenth and twentieth centuries archaeologists photographers and artists recorded the Maya carvings that remained often by transporting box cameras and plaster casts through the jungle on muleback The New Catalog of Maya Hieroglyphs Volume I The Classic Period Inscriptions is a guide to all the known hieroglyphic symbols of the Classic Maya script In the New Catalog Martha J Macri and Matthew G Looper have produced a valuable research tool based on the latest Mesoamerican scholarship An essential resource for all students of Maya texts the New Catalog is also accessible to nonspecialists with an interest in Mesoamerican cultures Macri and Looper present the combined knowledge of the most reliable scholars in Maya epigraphy They provide currently accepted syllabic and logographic values a history of references to published discussions of each sign and related lexical entries from dictionaries of Maya languages all of which were compiled through the Maya Hieroglyphic Database Project This first volume of the New Catalog focuses on texts from the Classic Period approximately 150 900 C E which have been found on carved stone monuments stucco wall panels wooden lintels carved and painted pottery murals and small objects of jadeite shell bone and wood The forthcoming second volume will describe the hieroglyphs of the three surviving Maya codices that date from later periods *2000 Years of Mayan Literature* Dennis

Tedlock, 2011-11-04 A chronological survey of Mayan literature covering two thousand years from the earliest hieroglyphic inscriptions to later works using the Roman alphabet The Archaeology and Politics of Food and Feasting in Early States and Empires Tamara L. Bray, 2007-05-28 This volume examines the commensal politics of early states and empires and offers a comparative perspective on how food and feasting have figured in the political calculus of archaic states in both the Old and New Worlds It provides a cross cultural and comparative analysis for scholars and graduate students concerned with the archaeology of complex societies the anthropology of food and feasting ancient statecraft archaeological approaches to micro political processes and the social interpretation of prehistoric pottery **A Resource Bibliography for the Decipherment**

of Maya Hieroglyph and New Maya Hieroglyph Readings John F. Harris, 1994-01-29 **The Memory of Bones** Stephen Houston, David Stuart, Karl Taube, 2006-06-01 All of human experience flows from bodies that feel express emotion and think about what such experiences mean But is it possible for us embodied as we are in a particular time and place to know how people of long ago thought about the body and its experiences In this groundbreaking book three leading experts

on the Classic Maya ca AD 250 to 850 marshal a vast array of evidence from Maya iconography and hieroglyphic writing as well as archaeological findings to argue that the Classic Maya developed a coherent approach to the human body that we can recover and understand today The authors open with a cartography of the Maya body its parts and their meanings as depicted in imagery and texts They go on to explore such issues as how the body was replicated in portraiture how it experienced the world through ingestion the senses and the emotions how the body experienced war and sacrifice and the pain and sexuality that were intimately bound up in these domains how words often heaven sent could be embodied and how bodies could be blurred through spirit possession From these investigations the authors convincingly demonstrate that the Maya conceptualized the body in varying roles as a metaphor of time as a gendered sexualized being in distinct stages of life as an instrument of honor and dishonor as a vehicle for communication and consumption as an exemplification of beauty and ugliness and as a dancer and song maker Their findings open a new avenue for empathetically understanding the ancient Maya as living human beings who experienced the world as we do through the body

Star Gods of the Maya Susan Milbrath, 2010-01-01 A prodigious work of unmatched interdisciplinary scholarship on Maya astronomy and religion Journal of Interdisciplinary History Observations of the sun moon planets and stars played a central role in ancient Maya lifeways as they do today among contemporary Maya who maintain the traditional ways This pathfinding book reconstructs ancient Maya astronomy and cosmology through the astronomical information encoded in Pre Columbian Maya art and confirmed by the current practices of living Maya peoples Susan Milbrath opens the book with a discussion of modern Maya beliefs about astronomy along with essential information on naked eye observation She devotes subsequent chapters to Pre Columbian astronomical imagery which she traces back through time starting from the Colonial and Postclassic eras She delves into many aspects of the Maya astronomical images including the major astronomical gods and their associated glyphs astronomical almanacs in the Maya codices and changes in the imagery of the heavens over time This investigation yields new data and a new synthesis of information about the specific astronomical events and cycles recorded in Maya art and architecture Indeed it constitutes the first major study of the relationship between art and astronomy in ancient Maya culture Milbrath has given us a comprehensive reference work that facilitates access to a very broad and varied body of literature spanning several disciplines Isis Destined to become a standard reference work on Maya archaeoastronomy Utterly comprehensive Andrea Stone Professor of Art History University of Wisconsin Milwaukee

Lives of the Gods: Divinity in Maya Art Joanne Pillsbury, Oswaldo Chinchilla Mazariegos, James A. Doyle, 2022-11-14 An introduction to the complex stories of Mesoamerican divinity through the carvings ceramics and metalwork of the Maya Classic period Lives of the Gods reveals how ancient Maya artists evoked a pantheon as rich and complex as the more familiar Greco Roman Hindu Buddhist and Egyptian deities Focusing on the period between A D 250 and 900 the authors show how this powerful cosmology informed some of the greatest creative achievements of Maya civilization

Maya Narrative Arts Karen Bassie-Sweet, Nicholas A.

Hopkins,2019-01-15 In Maya Narrative Arts authors Karen Bassie Sweet and Nicholas A Hopkins present a comprehensive and innovative analysis of the principles of Classic Maya narrative arts and apply those principles to some of the major monuments of the site of Palenque They demonstrate a recent methodological shift in the examination of art and inscriptions away from minute technical issues and toward the poetics and narratives of texts and the relationship between texts and images Bassie Sweet and Hopkins show that both visual and verbal media present carefully planned narratives and that the two are intimately related in the composition of Classic Maya monuments Text and image interaction is discussed through examples of stelae wall panels lintels benches and miscellaneous artifacts including ceramic vessels and codices Bassie Sweet and Hopkins consider the principles of contrast and complementarity that underlie narrative structures and place this study in the context of earlier work proposing a new paradigm for Maya epigraphy They also address the narrative organization of texts and images as manifested in selected hieroglyphic inscriptions and the accompanying illustrations stressing the interplay between the two Arguing for a more holistic approach to Classic Maya art and literature Maya Narrative Arts reveals how close observation and reading can be equally if not more productive than theoretical discussions which too often stray from the very data that they attempt to elucidate The book will be significant for Mesoamerican art historians epigraphers linguists and archaeologists
