Feminism, Utopia, and Narrative Libby Falk Jones, Sarah McKim Webster Goodwin, 1990 Slick Spins and Fractured Facts Caryl Rivers, 1996 French rule in Syria and Lebanon coincided with the rise of colonial resistance around the world and with profound social trauma after World War I In this tightly argued study Elizabeth Thompson shows how Syrians and Lebanese mobilized like other colonized peoples to claim the terms of citizenship enjoyed in the European metropole The negotiations between the French and citizens of the Mandate set the terms of politics for decades after Syria and Lebanon achieved independence in 1946 *Colonial Citizens* highlights gender as a central battlefield upon which the relative rights and obligations of states and citizens were established The participants in this struggle included not only elite nationalists and French rulers but also new mass movements of women workers youth and Islamic populists The author examines the gendered battles fought over France's paternalistic policies in health education labor and the press Two important and enduring political structures issued from these conflicts First a colonial welfare state emerged by World War II that recognized social rights of citizens to health education and labor protection Second tacit gender pacts were forged first by the French and then reaffirmed by the nationalist rulers of the independent states These gender pacts represented a compromise among male political rivals who agreed to exclude and marginalize female citizens in public life This study

provides a major contribution to the social construction of gender in nationalist and postcolonial discourse Returning workers low ranking religious figures and most of all women to the narrative history of the region figures usually omitted Colonial Citizens enhances our understanding of the interwar period in the Middle East providing needed context for a better understanding of statebuilding nationalism Islam and gender since World War II **Living In The Lap of Goddess** Cynthia Eller,1995-12-20 A fascinating introduction to one of the fastest growing religious movements in the United States today Through interviews participant observation and analysis of movement literature Cynthia Eller explores what women who worship the goddess believe how they express those beliefs in private in public and in the political realm and the place of feminist spirituality in the history of American religion **From Mastery to Analysis** Patricia Elliot,1991 Inventing Agency Claudia Brodsky,Eloy LaBrada,2017-01-26 A state of the art overview and reappraisal of the literary and philosophical origins of theory and in particular of modern subjectivity Devī John Stratton Hawley,Donna Marie Wulff,1998-01-01 practical implementation of the Budha s Dhamma Specifically adherence to Between the Worlds Siân Lee MacDonald Reid,2006 Neopaganism is the fastest growing new religion in the West Between the World Readings in Contemporary Neopaganism provides an engaging and well rounded introduction to this often misunderstood spiritual tradition This provocative new volume breaks away from the negative doomsday cult focus of existing books on new religious movements and provides a clear focus on feminist spirituality women and religion and goddess worship It offers a spiritual context for paganism and introduces the language of paganism and earth religions This book examines contemporary paganism not just the streams from the 1970s and 1980s but also the increasingly important streams of Druidry and Heathenry For the first time ever this book unites essential readings by leading academics and well known practitioners from all over the world including Canada It features the work of Starhawk Ronald Hutton Michael York Graham Harvey Helen A Berger and Wendy Griffith alongside contemporary Canadian scholars including Lucie Marie Mai DuFresne Lori G Beaman and Barbara Jane Davy
